Jewish Resistance Against the Nazis Patrick Henry, 2014-04-20 This volume puts to rest the myth that the Jews went passively to the slaughter like sheep Indeed Jews resisted in every Nazi occupied country in the forests the ghettos and the concentration camps The essays presented here consider Jewish resistance to be resistance by Jewish persons in specifically Jewish groups or by Jewish persons working within non Jewish organizations Resistance could be armed revolt flight the rescue of targeted individuals by concealment in non Jewish homes farms and institutions or by the smuggling of Jews into countries where Jews were not objects of Nazi persecution Other forms of resistance include every act that Jewish people carried out to fight against the dehumanizing agenda of the Nazis acts such as smuggling food clothing and medicine into the ghettos putting on plays reading poetry organizing orchestras and art exhibits forming schools leaving diaries and praying These attempts to remain physically intellectually culturally morally and theologically alive constituted resistance to Nazi

oppression which was designed to demolish individuals destroy their soul and obliterate their desire to live Jews and other foreigners William Williams, 2013-07-19 Drawing on a wide range of documentary and oral sources including interviews with refugees this book explores the responses in Manchester to those threatened by the rise of Fascism in Europe By exploring the responses of particular segments of Manchester society from Jewish communal organisations and the Zionist movement to the Christian churches pacifist organisations and private charities it offers a critical analysis of the factors which facilitated and limited the work of rescue and their effect on the lives of the seven or eight thousand refugees Spanish Italian German Austrian and Czech who arrived in Manchester between 1933 and 1940 *Circles of Resistance* John M. Cox, 2009 *Circles of Resistance* Jewish Leftist and Youth Dissidence in Nazi Germany analyzes resistance networks of young German Jews and other young dissidents during the Nazi dictatorship Young German Jewish radicals created an intellectually and politically vibrant subculture in Berlin the geographical focus of this study The youths analyzed here were reacting not only to Nazi oppression they were also driven to develop new modes of action and politics by their estrangement not only from German society but also from the traditional left parties and their post 1933 underground organizations and even from large segments of Berlin's Jewish community where radical activism was often regarded as counter productive and needlessly provocative At the center of this study are the Herbert Baum groups led by members of Germany's Communist Party KPD While the Baum groups were the largest they were but one of several resistance operations that were situated partially within the milieu created by Communists Socialists Trotskyists and radical Jewish youths Based on archival research in Germany Paris Amsterdam and Jerusalem and interviews with veterans of the anti Nazi resistance *Circles of Resistance* analyzes the overlap of these diverse social and political dimensions among dissident circles and offers a reconsideration of traditional thinking on leftist and Jewish resistance and youth subcultures of the Third Reich *Circles of Resistance* will be useful for undergraduate as well as graduate courses on Jewish history Nazi Germany and the Holocaust as well as courses devoted to the history of European socialism *Fromms* Gotz Aly, Michael Sontheimer, 2009-10-13 If you wanted to buy a top quality condom in prewar Germany you bought Fromms Act the first brand name condom and still a leading brand in the German market The man behind this pure German quality product was Julius Fromm a Jewish entrepreneur who had immigrated from Russia as a child Fromm was in the right place at the right time he patented Fromms Act in 1916 when the combination of changing sexual mores awareness of sexual health and the lack of reliable prophylactics meant a market primed for his product In 1922 he began mass production and opened international branches Sixteen years later after building the brand into a best seller and the company into a model business he was forced to sell Fromms Act for a fraction of its worth to a German baroness In 1939 he emigrated to London Aly and Sontheimer trace Fromm's rise and fall illuminating the ways Jewish businesses like his were Aryanized under the Nazis Through the biography of this businessman and the story of his unusual and fabulously successful company we learn the fascinating history of the first branded condoms in Germany

and the sexual culture that allowed them to thrive the heretofore undocumented machinations by which the Nazis robbed German Jewish families of their businesses and the tragedy of a man whose great love for the adopted country that first allowed him to succeed was betrayed by its government and his fellow citizens This captivating account offers a wealth of detail and a fresh array of photographic documentation and adds a striking new dimension to our understanding of this dark period in German history
