Children's Books in Print, 2007 ,2006 **War and Technology** Jeremy Black, 2020-03-04

A scholarly overview of military technology throughout history starting roughly in the 15th century and extending into the future insightful Publishers Weekly In this engaging book Jeremy Black argues that technology neither acts as an independent variable nor operates without major limitations This includes its capacity to obtain end results as technology s impact is far from simple and its pathways are by no means clear After considering such key conceptual points Black discusses important technological advances in weaponry and power projection from sailing warships to aircraft carriers muskets to tanks balloons to unmanned drones in each case taking into account what difference these advances made He addresses not only firepower but also power projection and technologies of logistics command and control Examining military technologies in their historical context and the present centered on the Revolution in Military Affairs and Military Transformation Black then forecasts possible future trends Clear concise and thoughtful An eminently readable synthesis of historical literature on technology and war John France author of *Perilous Glory The Rise of Western Military Power* An interesting thought provoking work by a major military historian whose depth and wide range of knowledge across the entire sweep of world military history is without parallel Those who read this book closely will be richly rewarded for it is a mine of useful information and grist for discussion Spencer C Tucker author of *The European Powers in the First World War* A most useful introduction to a very complex subject and particularly valuable for its notes and references to other works Provocative and vigorously argued Highly recommended Choice *Military Review* ,1988 *Review of Current Military Literature* ,1988

War and Power in the Twenty-First Century Paul Hirst,2014-11-07 Future developments in war armed conflict and internationalrelations are central to our collective fate in this century Thisbook looks forward by considering the forces that will drivechanges in military organizations sources of conflict the powerof states and the nature of the international system New military technologies will alter how wars are fought and willinfluence the balance of power Changes in the global environmentwill provide new causes of conflict and will change economicpriorities As a result the state will survive as the key socialinstitution and populations will look to it to acquire and todistribute scarce resources like water energy and land Many ofthe changes that seem transformatory today like globalization theinternet and mass consumerism will be shown to be less significantthan we believe them to be Hirst puts such changes into perspective by comparing them with therevolutionary changes in the sixteenth and seventeenth centuries inEurope the firepower revolution the rise of the sovereignterritorial state and the parallel development of the internationalsystem and the creation of world trade These basic structures ofthe modern world are still with us and will remain despite majorchanges in twenty first century society This book will appeal to students of politics political sociology international relations as well as the interested generalreader

Military Transition in Early Modern Asia, 1400-1750 Kaushik Roy,2014-05-22 A substantial amount of work has been carried out to explore the military systems of Western Europe during the early modern era but the military trajectories of the Asian states have received relatively little attention This study provides the first comparative study of the major Asian

empires military systems and explores the extent of the impact of West European military transition on the extra European world Kaushik Roy conducts a comparative analysis of the armies and navies of the large agrarian bureaucratic empires of Asia focusing on the question of how far the Asian polities were able to integrate gunpowder weapons in their military systems *Military Transition in Early Modern Asia 1400 1750* offers important insights into the common patterns in war making across the region and the impact of firearms and artillery Waging War Wayne E. Lee, 2016 *Waging War Conflict Culture and Innovation in World History* provides a wide ranging examination of war in human history from the beginning of the species until the current rise of the so called Islamic State Although it covers many societies throughout time the book does not attempt to tell all stories from all places nor does it try to narrate important conflicts Instead author Wayne E Lee describes the emergence of military innovations and systems examining how they were created and then how they moved or affected other societies These innovations are central to most historical narratives including the development of social complexity the rise of the state the role of the steppe horseman the spread of gunpowder the rise of the west the bureaucratization of military institutions the industrial revolution and the rise of firepower strategic bombing and nuclear weapons and the creation of people s war **War in Human Civilization** Azar Gat, 2008 Why do people go to war Is it rooted in human nature or is it a late cultural invention And what of war today is it a declining phenomenon or simply changing its shape This book sets out to find definitive answers to these questions in an attempt to unravel the riddle of war throughout human history **Parameters** ,1979 *Professional Journal of the United States Army* ,1988
