

HIROSHI KOJIMA'S PHENOMENOLOGICAL ONTOLOGY

Marina Paola Banchetti-Robino

Department of Philosophy, Florida Atlantic University

Introduction

In his book *Monad and Thou: Phenomenological Ontology of the Human Being*, Japanese philosopher Hiroshi Kojima proposes to redefine the I-Thou relation, first extensively investigated by Martin Buber, and to reconcile the notions of 'individuality' and 'community' in terms of his new phenomenological ontology of the human being as monad. This new conception of the human subject resolves the radical dichotomy between Edmund Husserl's conception of the human being as pure consciousness and Martin Heidegger's conception of the subject as pure individuality (*Dasein*). Kojima locates the contact point between these two distinct conceptions in the Being of the human body as Being seen from the inside and Being seen from the outside. Kojima, thus, reintroduces the body as the intentional center of the monad into our philosophical understanding of what constitutes intersubjective encounter, and his new conception of the human being focuses on the second person dimension (*Thou*) of human encounters. Kojima, therefore, ultimately alters our philosophical conception of what constitutes the ethical life. In this essay, I wish to examine Kojima's ideas concerning the monad and intersubjectivity and to show how these ideas can be extended and brought to bear on issues concerning human encounters with the environment and, in particular, to nonhuman animals.

Since Kojima's critiques of Husserl and Buber are central to the development of his own theories of subjectivity and of I-Thou relations, I will address these first. I will discuss Kojima's response to some crucial problems that he identifies in Husserl's conception of the subject as 'consciousness.' I will then very briefly examine Kojima's response to Heidegger's notion of *Dasein* as Being-in-the-world. After this, I will discuss how Kojima successfully reconciles the two opposing notions of 'consciousness' and 'Being' and will clarify the way in which Kojima uses the term 'monad.' This will be followed by a brief account of Buber's conception of I-Thou relations, by a detailed discussion of Kojima's critique of Buber, and by an examination of how Kojima's own conception of I-Thou relations emerges from this critique and from his conception of the subject as monad. Lastly, I will argue that Kojima's novel conception of I-Thou relations permits us to develop an account, more satisfactory than Buber's, of the possibility and nature of I-Thou relations between human beings and nonhuman beings. I conclude by examining the ethical implications of the discussion above, by examining how social spaces affect both the possibility of and our capacity for having I-Thou relations, and by discussing some of the ontological and ethical implications of constructing increasingly alienating spaces.

[Transcendental Idealism and Metaphysics](#) Daniele De Santis,2023-10-19 Winner of the Edward Goodwin Ballard Prize as announced at the Society for Phenomenology and Existential Philosophy Meeting on September 27 2024 The book offers a systematic reconstruction of the disagreement between Husserl and Heidegger from the former s point of view but without falling into any form of Husserlian apologetics The main thesis is that Husserl s critique of Heidegger s existential analytics as a form of philosophical anthropology entails a deeper fundamental thesis namely that Heidegger confuses the subject matter of first philosophy the transcendental subject with metaphysics in the Husserlian sense of the expression At stake in

Husserl's critique of Heidegger's philosophy in *Being and Time* is the refusal to transcendentalize the irrational aspects of our human existence. This second volume focuses on the question of being, clarifying the distinction between ontology and metaphysics in Husserl's thought. In fact, contrary to a long-standing and established interpretive tradition according to which Husserl's phenomenology is metaphysically neutral, the book shows to what extent Husserl always understood as the ultimate goal of his philosophizing the positive foundation of a metaphysics. This volume appeals to students and researchers.
