Money In The Age Of Tiberius:

Money in the Age of Tiberius Cosmo Rodewald, 1976 During the two centuries before the birth of Christ all the lands around the Mediterranean came under the control of the Romans Their power extended into Europe as far as the Rhine and the Danube and into Asia as far as the Euphrates Some use was made of coined money over the whole of that area before the Romans came there were diverse currencies based on a number of different systems By the middle of the first century A D Roman gold and silver had taken the place of almost all other value currencies and in much of the area Roman bronze and copper had taken the place of other kinds of small change So much is clear but much else remains far from clear What purposes had the Roman government and other authorities in mind in deciding whether and when to issue currency and in what quantities and denominations Was Roman currency deliberately imposed other currencies being deliberately suppressed Was there an increase in demand for coined money during this period whether as a result of Roman conquest or for other reasons Was demand satisfied Was currency being exported from the Roman world in sufficiently large quantities to cause a shortage already in the first half of the first century A D pg 1

Pomeroy, David Rosenbloom, 2024-01-11 Money Warfare and Power in the Ancient World offers twelve papers analysing the processes consequences and problems involved in the monetization of warfare and its connection to political power in antiquity The contributions explore not only how powerful men and states used money and coinage to achieve their aims but how these aims and methods had often already been shaped by the medium of coined money typically with unintended consequences These complex relationships between money warfare and political power both personal and collective are explored across different cultures and socio political systems around the ancient Mediterranean ranging from Pharaonic Egypt to Late Antique Europe This volume is also a tribute to the life and impact of Professor Matthew Trundle an inspiring teacher and scholar who was devoted to promoting the discipline of Classics in New Zealand and beyond At the time of his death he was writing a book on the wider importance of money in the Greek world A central piece of this research is incorporated into this volume completed by one of his former students Christopher De Lisle Additionally Trundle had situated himself at the centre of a wide ranging conversation on the nature of money and power in antiquity The contributions of scholars of ancient monetization in this volume bring together many of the threads of those conversations further advancing a field which Matthew Trundle had worked so tirelessly to promote
