Garber,2000-05-15 Getting from here to there may be simple for one individual But as any parent scout leader or CEO knows herding a whole troop in one direction is a lot more complicated Who leads the group Who decides where the group will travel and using what information How do they accomplish these tasks *On the Move* addresses these questions examining the social cognitive and ecological processes that

underlie patterns and strategies of group travel Chapters discuss how factors such as group size resource distribution and availability the costs of travel predation social cohesion and cognitive skills affect how individuals as well as social groups exploit their environment Most chapters focus on field studies of a wide range of human and nonhuman primate groups from squirrel monkeys to Turkana pastoralists but chapters covering group travel in hyenas birds dolphins and bees provide a broad taxonomic perspective and offer new insights into comparative questions such as whether primates are unique in their ability to coordinate group level activities Environmental Science Theory W.T. de Groot,1992-10-22 Having no competitive works this unique publication presents a single structure for the analysis explanation and solution of environmental problems regardless of their location nature or scale In this problem oriented approach a coherent framework interconnects the study of facts and values environmental systems social causes and ethical premises Counterbalancing current biases the author emphasizes the fundamental normative economic and social scientific aspects of truly interdisciplinary environmental science For instance the normative side of environmental problems are often neglected resulting in policy designs and evaluations containing inefficient mixtures of sophisticated models and poorly grounded normative premises this is the first major study to enrich the field with more normative consistency and groundedness It is also the first text to consistently identify the social causes of environmental problems rather than focusing on the physical scientific aspects and thus design deeper and more effective policies Furthermore a tinge of post modern thinking runs throughout the book with special care being taken however to constantly keep in view the practical relevance of theory for problem oriented work The book will be of interest to environmental scientists and managers wishing to improve the consistency and depth of their work to social scientists and geographers wishing to connect their discipline to the environmental problems field and to general scientists interested in the connections between philosophy and practice

Animal Traditions Eytan Avital,Eva Jablonka,2000-11-23 Animal Traditions maintains that the assumption that the selection of genes supplies both a sufficient explanation of the evolution and a true description of its course is despite its almost universal acclaim wrong Eytan Avital and Eva Jablonka contend that evolutionary explanations must take into account the well established fact that in mammals and birds the transfer of learnt information is both ubiquitous and indispensable The introduction of the behavioural inheritance system into the Darwinian explanatory scheme enables the authors to offer new interpretations for common behaviours such as maternal behaviours behavioural conflicts within families adoption and helping This approach offers a richer view of heredity and evolution integrates developmental and evolutionary processes suggests new lines for research and provides a constructive alternative to both the selfish gene and meme views of the world It will make stimulating reading for all those interested in evolutionary biology sociobiology behavioural ecology and psychology When Elephants Weep Jeffrey Moussaieff Masson,2009-10-21 This national bestseller exploring the complex emotional lives of animals was hailed as a masterpiece by Elizabeth Marshall Thomas and as marvelous by Jane Goodall The

popularity of *When Elephants Weep* has swept the nation as author Jeffrey Masson appeared on Dateline NBC Good Morning America and was profiled in *People* for his ground breaking and fascinating study *Not since Darwin's The Expression of Emotions in Man and Animals* has a book so thoroughly and effectively explored the full range of emotions that exist throughout the animal kingdom From dancing squirrels to bashful gorillas to spiteful killer whales Masson and coauthor Susan McCarthy bring forth fascinating anecdotes and illuminating insights that offer powerful proof of the existence of animal emotion Chapters on love joy anger fear shame compassion and loneliness are framed by a provocative re evaluation of how we treat animals from hunting and eating them to scientific experimentation Forming a complete and compelling picture of the inner lives of animals *When Elephants Weep* assures that we will never look at animals in the same way again

Random Acts of Kindness by Animals Stephanie LaLand, 2022-07-12 Heartwarming and Compassionate Stories of Animal Love This book is a loving tribute to all creatures great and small Tippi Hedren Filled with fascinating and heartwarming stories this book details the power of animal love Good deeds can be done by more than just humans True tales of kindness *Random Acts of Kindness by Animals* is packed with captivating stories big and small from simple acts of kindness to grand gestures of compassion performed by various animals Author and known speaker on animal related issues Stephanie LaLand has gathered a multitude of stories sure to fill your heart with happiness and hope From dogs to dolphins learn true stories of animal love devotion and bravery Proof that human kindness is shared with animals Anyone who's had a pet knows there is something special about them We see it in their eyes when they look at us affectionately or play with others or help someone in need Animal behavior is interesting because in many ways how they act and the things they do are similar to the way we care for each other Animals are affectionate and smart creatures and this book illustrates why kindness matters for us all Inside you'll find Inspiring animal stories of true animal love that will surprise you Examples of kindness and good deeds performed by our beloved animals Animal stories for adults and animal stories for children to teach instinctive behavioral connections between humans and animals If you liked *Pawverbs for a Dog Lover's Heart* You've Goat This or *Dogwinks* you'll love *Random Acts of Kindness by Animals*

The Emperor's Embrace Jeffrey Masson, 2001-02-28 Jeffrey Moussaieff Masson's marvelous Jane Goodall New York Times bestseller *When Elephants Weep* made us re evaluate the emotional lives of animals And in his follow up New York Times bestseller *Dogs Never Lie About Love* Masson reflected with intelligence and originality Los Angeles Times Sunday Book Review on the emotional world of dogs Now in *The Emperor's Embrace* Masson offers a remarkable look at one of the most fulfilling roles in the animal world fatherhood With fascinating insight impeccable research and captivating writing controversial psychoanalyst Jeffrey Masson a new father himself introduces us to the world's best dads He takes us to such places as Antarctica as he explores how emperor penguin fathers incubate the eggs of their young by carrying them around on their feet for two months nestled beneath a special brood pouch And he tells us how once the babies hatch the fathers snuggle the babies on their feet until the mother returns from her time

at sea feeding them a special milk like substance until her arrival Masson a superb storyteller showcases the extraordinary behavior of outstanding fathers heroes among animals including the wolf and why wolves make good fathers and dogs don't the beaver who encourages his young to cling to his tail as he navigates through ponds the sea horse the only male animal that gives birth to its young the marmoset the South American monkey who carries his babies for the first two years of their lives wherever he goes Masson also examines nature's worst fathers lions langurs bears and humans He shows that when a father does care for his young as with the beaver we immediately look for a biological and not an emotional explanation But Masson demonstrates that for these animals as with humans fatherhood is a profound all encompassing experience Groundbreaking compelling inspirational Masson's unique look at one of nature's most venerable institutions takes us to animal habitats around the world yet always returns to the heart For animal lovers fathers mothers sons and daughters everywhere The Emperor's Embrace is a book that will forever change our perceptions of parenthood and family love

Social Networking and Community Behavior Modeling: Qualitative and Quantitative Measures Safar, Maytham, Mahdi, Khaled, 2011-12-31 Social Networking and Community Behavior Modeling Qualitative and Quantitative Measures provides a clear and consolidated view of current social network models This work explores new methods for modeling characterizing and constructing social networks Chapters contained in this book study critical security issues confronting social networking the emergence of new mobile social networking devices and applications network robustness and how social networks impact the business aspects of organizations

Environmentalism and Cultural Theory Kay Milton, 2002-09-11 The last decade has seen a dramatic increase in the attention paid by social scientists to environmental issues and a gradual acknowledgement in the wider community of the role of social science in the public debate on sustainability At the same time the concept of culture once the property of anthropologists has gained wide currency among social scientists These trends have taken place against a growing perception among specialists and public of the global nature of contemporary issues This book shows how an understanding of culture can throw light on the way environmental issues are perceived and interpreted both by local communities and within the contemporary global arena Taking an anthropological approach the book examines the relationship between human culture and human ecology and considers how a cultural approach to the study of environmental issues differs from other established approaches in social science This book adds significantly to our understanding of environmentalism as a contemporary phenomenon by demonstrating the distinctive contribution of social and cultural anthropology to the environmental debate It will be of particular interest to students and researchers in the fields of social science and the environment

In Quest of the Sacred Baboon Hans Kummer, 2017-03-14 In a tale that begins at a zoo in Zurich and takes us across the deserts of Ethiopia to the Asir Mountains in Saudi Arabia Hans Kummer recreates the adventure and intellectual thrill of the early days of field research on primates Just as Jane Goodall and Dian Fossey introduced readers to the fascinating lives of chimpanzees and gorillas Kummer brings

us face to face with the Hamadryas baboon With their furry white mantles and gleaming red hindquarters the Hamadryas appear frequently in the art of the ancient Egyptians who may have interpreted the baboons early morning grooming rituals as sun worshiping rites Back then Hamadryas were thought to be incarnates of Thoth the god of wisdom today they are considered to have one of the most highly structured social systems among primates very close in some respects to that of humans In the 1960s Kummer after conflicts with nomadic warriors managed to track down these elusive baboons near the Danakil Desert and then followed them from dawn to dusk on their treks from one feeding place to another His scientific account of this period reads like a travel memoir as he describes his encounters with the Hamadryas and the people with whom they share the desert Winding his way through cliffs and stubble Kummer records the baboons social life from the development of pair relationships to the way an entire group decides where to march each day Much like the human nomads who cope with the harsh demands of the desert environment the Hamadryas maintain a society that is strict and patriarchal in its details but multilayered and flexible in its largest units We learn for example of the Hamadryas respect for possession that protects family structure and of the cohesion among family leaders that lessens the threat of battle At the same time clear cut personalities emerge from Kummer s account drawing us into the life stories and power struggles of individual baboons Whereas this rich detail holds many implications for natural scientists the colorful way it comes to life makes for a compelling book bound to entertain and educate all readers Originally published in 1995 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
