Kreglinger,2024-10-22 Wine is the most talked about food in the Bible and yet western Christianity has largely neglected this important biblical theme and fragrant gift of God Have you ever wondered what Jesus would drink Was his family perhaps involved in growing vines and making wine What would their family celebrations have been like And what might this tell us about God and how he wants us to live today Food

and wine have become such hot topics in our culture and yet there is so much confusion and ambivalence around it as well. We are so far removed from the world of the Bible and the agrarian life that it represents. It is hard to envision the farms and fruit orchards, the village wells and sheep herds, the olive groves and vineyards that Jesus would have walked by every day. Drawing on her upbringing in a long standing family tradition of winemakers and her degrees in biblical studies and spiritual theology, Gisela Kreglinger introduces readers in a light hearted way to the theme of wine in the Bible throughout the history of the church and in the church's feasting and fellowship today. She also addresses how many Christians are fearful or concerned about wine because of the challenges of alcohol abuse, how to nurture a culture of healing from such disorders, and how we are called to celebrate God's gift of wine to grow into a fuller understanding of the gospel as we await the return of the Bridegroom Jesus Christ. In this book, Gisela shows Christians that wine is a gift from God that we are to receive with gratitude and enjoy in wholesome communal and redemptive ways. Features include: Instructions for holding a wine tasting as a spiritual practice; A biblical and theological reflection on the True Vine of John 15; A discussion guide for developing a healthy drinking culture.

The Eminent Monk John Kieschnick, 1997-07-01. In an attempt to reconstruct an elusive aspect of the medieval Chinese imagination, *The Eminent Monk* examines biographies of Chinese Buddhist monks from the uncompromising ascetic to the unfathomable wonder worker. While analyzing images of the monk in medieval China, the author addresses some questions encountered along the way: What are we to make of accounts in eminent monk collections of deviant monks who violate monastic precepts? Who wrote biographies of monks and who read them? How did different segments of Chinese society contend for the image of the monk and which image prevailed? By placing biographies of monks in the context of Chinese political and religious rhetoric, *The Eminent Monk* explores both the role of Buddhist literature in Chinese history and the monastic imagination that inspired this literature.

The Napa Valley Wine Industry Ian Malcolm Taplin, 2021-06-15. This book examines how Napa became a pre eminent site for the production of great and sometimes iconic wines in a short space of time. Unlike its Old World counterparts whose development took place over centuries, Napa's inception didn't start until the beginning of the 19th century and even then struggled to identify appropriate grape varieties and find a market for such wine only to be frustrated when Prohibition occurred in the early 20th century and practically shut down the industry. It was in the 1960s that winegrowing would re emerge on a scale and quality that began to be noticed by informed critics and neophyte consumers. In the following decades, critical information sharing networks of owners and winemakers emerged, facilitating a collective organization learning that fostered a commitment to quality and consistency that would cement Napa's reputation. During these decades, technical skills were embraced, institutional support harnessed, and demand for premium wine in America grew. This book is a story about this evolving wine market, about how key individuals were able to shape its organization and build a brand that would increasingly be identified as amongst the best in the world. It starts with an early discussion of what constitutes quality and how wine has been evaluated over the centuries.

and ends by exploring Napa's apotheosis and the current critical issues facing the industry in that area *Flans and Wine* David Snowden, 2015-07-18 A collection of 70 fourteenth century recipes from the Cellarer's accounts of Evesham Abbey ready to cook today The Letters of Abelard and Heloise Peter Abelard, 1925 *French Wine* Rod Phillips, 2020-04-07 A fascinating book that belongs on every wine lover's bookshelf The Wine Economist It's a book to read for its unstoppable torrent of fascinating and often surprising details Andrew Jefford Decanter For centuries wine has been associated with France more than with any other country France remains one of the world's leading wine producers by volume and enjoys unrivaled cultural recognition for its wine If any wine regions are global household names they are French regions such as Champagne Bordeaux and Burgundy Within the wine world products from French regions are still benchmarks for many wines French Wine is the first synthetic history of wine in France from Etruscan Greek and Roman imports and the adoption of wine by beer drinking Gauls to its present status within the global marketplace Rod Phillips places the history of grape growing and winemaking in each of the country's major regions within broad historical and cultural contexts Examining a range of influences on the wine industry wine trade and wine itself the book explores religion economics politics revolution and war as well as climate and vine diseases French Wine is the essential reference on French wine for collectors consumers sommeliers and industry professionals **Monks and Their Decline** George Zurcher, 1898 **Inventing Wine: A New History of One of the World's Most Ancient Pleasures** Paul Lukacs, 2012-12-03 Lukacs chronicles wine's transformation from a source of sustenance to a consciously pursued pleasure in the process offering a new way to view the present as well as the past
