**Europe and the World, 1650-1830**

Professor Jeremy Black, Jeremy Black, 2013-10-08 Europe and the World 1650-1830 is an important thematic study of the first age of globalisation. It surveys the interaction of Europe's growing colonies and other major global powers such as the Ottoman Empire, China, India, and Japan. Focusing on Europe's impact on the world, Jeremy Black analyses European attitudes, exploration, trade, and acquisition of knowledge.

*A Draught of the South Land* Paul Moon, 2024-01-01 The story of how the map of New Zealand emerged is a fascinating one. The first full map of the islands was published in London in 1773, which might seem the natural starting point, but over the preceding 150 years, fragments of charts and intelligence about New Zealand ricocheted around various parts of the world. In *A Draught of the South Land*, Paul Moon provides the first comprehensive account of this piecemeal process. Moon's investigation covers several continents over more than a century and reveals the personalities, blunders, strategic miscalculations, scientific brilliance, and imperial power plays that were involved. Above all, he examines the roles played by explorers and traders, Mori and European rulers, scientific societies, and military groups, as well as specialist cartographers and publishers. At a time when maps as colonial tools, enablers of trade, and objects of curiosity are being studied anew, his careful analysis and engaging narrative will be of interest to scholars everywhere.

**Strangers in the South Seas** Richard Lansdown, 2006-04-30 Long before Magellan entered the Pacific in 1521, Westerners entertained ideas of undiscovered oceans, mighty continents, and paradisaical islands at the far ends of the earth. First set down by Egyptian storytellers, Greek philosophers, and Latin poets, such ideas would have a long life and a deep impact in both the Pacific and the West. With the discovery of Tahiti in 1767, another powerful myth was added to this collection: the noble savage. For the first time, Westerners were confronted by a people who seemed happier than themselves. This revolution in the human sciences was accompanied by one in the natural sciences as the region revealed gaps and anomalies in the great chain of being that Charles Darwin would begin to address after his momentous visit to the Galapagos Islands. The Pacific produced similar challenges for nineteenth-century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe. Although most missionary efforts ultimately met with success, others ended in ignominious retreat. As the century wore on, the region presented opportunities and dilemmas for the imperial powers, leading to a guilty desire on the part of some to pull out, along with an equally guilty desire on the part of others to stay and help. This process was accelerated by the Pacific War between 1941 and 1945. After more than two millennia of fantasies, the story of the West's fascination with the insular Pacific graduated to a marked sense of disillusion that is equally visible in the paintings of Gauguin and the journalism of the nuclear Pacific.

*Strangers in the South Seas* recounts and illustrates this story using a wealth of primary texts. It includes generous excerpts from the work of explorers, soldiers, naturalists, anthropologists, artists, and writers, some famous, some obscure. It begins in 1521 with an account of Guam by Antonio Pigafetta, one of the few men to survive Magellan's circumnavigation voyage, and ends in the late 1980s with the writing of an American woman, Joana McIntyre Varawa, as she faces the personal and cultural insecurities of marriage and

settlement in Fiji It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance Comprehensively illustrated and annotated this anthology will introduce readers to a region central to the development of modern Western ideas This is a carefully conceived anthology covering an excellent range of subjects The selections are well chosen and interesting and the introductory materials are both scholarly and accessible It should be widely used in university courses dealing with almost any aspect of the Pacific Rod Edmond University of Kent at Canterbury

*Double Ghosts* David A. Chappell, 2016-09-16 This narrative recounts the 18th and 19th century shipping out of Pacific islanders aboard European and American vessels a kind of counter exploring that echoed the ancient voyages of settlement of their island ancestors

*Preserving the Self in the South Seas, 1680-1840* Jonathan Lamb, 2001-06-15 The violence wonder and nostalgia of voyaging are nowhere more vivid than in the literature of South Seas exploration Preserving the Self in the South Seas charts the sensibilities of the lonely figures that encountered the new and exotic in terra incognita Jonathan Lamb introduces us to the writings of South Seas explorers and finds in them unexpected and poignant tales of selves alarmed and transformed Lamb contends that European exploration of the South Seas was less confident and mindful than we have assumed It was instead conducted in moods of distraction and infatuation that were hard to make sense of and difficult to narrate and it prompted reactions among indigenous peoples that were equally passionate and irregular Preserving the Self in the South Seas also examines these common crises of exploration in the context of a metropolitan audience that eagerly consumed narratives of the Pacific while doubting their truth Lamb considers why these halting and incredible journals were so popular with the reading public and suggests that they dramatized anxieties and bafflements rankling at the heart of commercial society

**Australia in Maps** National Library of Australia, 2007 Richly illustrated with exquisite manuscript maps and editions from celebrated European cartographic publishers of 17th century to familiar contemporary products such as tourist maps Discover the stories behind these maps the technological changes in map making and changes in human knowledge and representation of the world

*Background to Discovery* Derek Howse, 2023-11-10 Background to Discovery recounts the great voyages of discovery from Dampier to Cook that excited such fervent political and popular interest in eighteenth century Europe Perhaps this book s greatest strength lies in its remarkable synthesis of both the achievements of European maritime exploration and the political economic and scientific motives behind it Writing essays on the literary and artistic response to the voyages as well the contributors collectively provide a rich source for historians geographers and anyone interested in the history of voyage and travel This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

*Ireland's Farthest Shores* Malcolm Campbell, 2022-01-20

Irish people have had a long and complex engagement with the lands and waters encompassing the Pacific world. As the European presence in the Pacific intensified from the late eighteenth century, the Irish entered this oceanic space as beachcombers, missionaries, traders, and colonizers. During the nineteenth century, economic distress in Ireland and rapid population growth on the Pacific Ocean's eastern and western shores set in motion large-scale migration that exerted a deep political, social, and economic impact across the Pacific. Malcolm Campbell examines the rich history of Irish experiences on land and at sea, offering new perspectives on migration and mobility in the Pacific world and of the Irish role in the establishment and maintenance of the British Empire. This volume investigates the extensive transnational connections that developed among Irish immigrants and their descendants across this vast and unique oceanic space, ties that illuminate how the Irish participated in the making of the Pacific world and how the Pacific world made them.

**Documents of Modern Political Thought** T. E. Utlley, J. Stuart MacLure, 2013-08-22 Originally published in 1957, this book collects together large sections of important tracts from a variety of political documents, particularly those concerned with democracy, communism, Protestantism, or Catholicism. The extracts come from a wide range of authors, including Bertrand Russell, Karl Marx, John Locke, and Pope Pius XII. Explorations and Entanglements Hartmut Berghoff, Frank Biess, Ulrike Strasser, 2018-11-16 Traditionally, Germany has been considered a minor player in Pacific history; its presence there was more limited than that of other European nations, and whereas its European rivals established themselves as imperial forces beginning in the early modern era, Germany did not seriously pursue colonialism until the nineteenth century. Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters, it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific. The studies gathered here offer fascinating research into German missionary, commercial, scientific, and imperial activity against the backdrop of the Pacific's overlapping cultural circuits and complex oceanic transits.

Women and English Piracy, 1540-1720 John C. Appleby, 2013 Drawing on a wide body of evidence, the book argues that the support of women was vital to the persistence of piracy around the British Isles at least until the early seventeenth century. The emergence of long-distance and globalized predation had far-reaching consequences for female agency. Piracy was one of the most gendered criminal activities during the early modern period. As a form of maritime enterprise and organized criminality, it attracted thousands of male recruits whose venturing acquired a global dimension as piratical activity spread across the oceans and seas of the world. At the same time, piracy affected the lives of women in varied ways. Adopting a fresh approach to the subject, this study explores the relationships and contacts between women and pirates during a prolonged period of intense and shifting enterprise. Drawing on a wide body of evidence and based on English and Anglo-American patterns of activity, it argues that the support of female receivers and maintainers was vital to the persistence of piracy around the British Isles at least until the early seventeenth century. The emergence of

long distance and globalized predation had far reaching consequences for female agency Within colonial America women continued to play a role in networks of support for mixed groups of pirates and sea rovers at the same time such groups of predators established contacts with women of varied backgrounds in the Caribbean and the Indian Ocean As such female agency formed part of the economic and social infrastructure which supported maritime enterprise of contested legality But it co existed with the victimisation of women by pirates including the Barbary corsairs As this study demonstrates the interplay between agency and victimhood was manifest in a campaign of petitioning which challenged male perceptions of women s status as victims Against this background the book also examines the role of a small number of women pirates including the lives of Mary Read and Ann Bonny while addressing the broader issue of limited female recruitment into piracy
