groundbreaking book tracks the history of news in ten countries over the course of four centuries. It evaluates the unexpected variety of ways in which information was transmitted in the premodern world as well as the impact of expanding news media on contemporary events and the lives of an ever more informed public. Andrew Pettegree investigates who controlled the news and who reported it, the use of news as a tool of political protest and religious reform, issues of privacy and titillation, the persistent need for news to be current and journalists trustworthy, and people's changed sense of themselves as they experienced newly opened windows on the world. By the close of the eighteenth century, Pettegree concludes, transmission of news had become so efficient and widespread that European citizens now aware of wars, revolutions, crime, disasters, scandals, and other events were poised to emerge as actors in the great events unfolding around them.

Sites of Discourse - Public and Private Spheres - Legal Culture, 2022-05-09

The present collection of essays grew out of a conference held in Dresden in December 2001, exploring the relationship between the public sphere and legal culture. The conference was held in connection with the ongoing research undertaken by the Sonderforschungsbereich 537 Institutionalisation and Historical Change and in particular by the project Circulation of Legal Norms and Values in British Culture from 1688 to 1900. The conference papers include essays on the theory of the public sphere from a systematic and historical point of view by Gert Melville, by Peter Uwe Hohendahl, and by Jürgen Schläeger, all of whom try to re-evaluate and/or improve upon Jürgen Habermas's seminal contribution to the discussion of the emergence of modernism. Alastair Mann's contribution investigates the situation in Scotland, particularly censorship and the oath of allegiance. Annette Pankratz focuses on the king's body as a site of the public sphere. Heinz Joachim Mollenbrock looks into the widespread culture of contention at the beginning of the eighteenth century, and Eckhart Hellmuth considers the reform movement at the end of the century and the radical democrats' insistence on the right to discuss the constitution. Ian Bell, who took part in the conference, suggested the inclusion of part of the first chapter of his seminal study *Literature and Crime in Augustan England* (1991). Beth Swan, Anna Christina Giovanopoulos, and Christoph Houswitschka respectively analyse the ideologies of justice, the interrelation between journalism and crime, and the juridical evaluation of the crime of incest and its representation in public. Greta Olson investigates keyholes as liminal spaces between the public and the private. Juliet Wightman focuses on theatre and the bear pit. Uwe Bär examines the court room and prison as public sites of discourse, and York-Göthart Mix discusses the German emigrant culture in North America.

Ugliness and Judgment, Timothy Hyde, 2023-01-31

A novel interpretation of architecture, ugliness, and the social consequences of aesthetic judgment. When buildings are deemed ugly, what are the consequences? In *Ugliness and Judgment*, Timothy Hyde considers the role of aesthetic judgment and its concern for ugliness in architectural debates and their resulting social effects across three centuries of British architectural history. From eighteenth-century ideas about Stonehenge to Prince Charles's opinions about the National Gallery, Hyde uncovers a new story of aesthetic judgment where arguments about architectural ugliness do not pertain solely to buildings or assessments.

of style but intrude into other spheres of civil society Hyde explores how accidental and willful conditions of ugliness including the gothic revival Houses of Parliament the brutalist concrete of the South Bank and the historicist novelty of Number One Poultry have been debated in parliamentary committees courtrooms and public inquiries He recounts how architects such as Christopher Wren John Soane James Stirling and Ludwig Mies van der Rohe have been summoned by tribunals of aesthetic judgment With his novel scrutiny of lawsuits for libel changing paradigms of nuisance law and conventions of monarchical privilege he shows how aesthetic judgments have become entangled in wider assessments of art science religion political economy and the state Moving beyond superficialities of taste in order to see how architectural improprieties enable architecture to participate in social transformations Ugliness and Judgment sheds new light on the role of aesthetic measurement in our world

The History of the Provincial Press in England Rachel Matthews, 2017-05-18 Regional newspapers around the globe are fighting to survive in the face of challenges to their economic model due to the constant influx of new technology At the same time while studies of the national press have created a continuous narrative on the newspaper the history of the regional press has been subject to relatively little academic scrutiny despite being a significant industry in terms of a readership circulation and profit By focusing on provincial English newspapers Matthews makes the case for the larger issue of the future of local newspapers worldwide She argues that a comprehensive approach to the history of the regional press can result in a conceptualization of the industry in terms of the shift in emphasis between the key elements of state control ownership social influence and production techniques They can be categorized into six distinct stages the local newspaper as opportunistic creation the characterization of the local newspaper as fourth estate the impact of New Journalism the growth of chain control the shock of the free paper and new technology and finally the current picture the search for a new business model

The Social Life of Coffee Brian Cowan, 2008-10-01 What induced the British to adopt foreign coffee drinking customs in the seventeenth century Why did an entirely new social institution the coffeehouse emerge as the primary place for consumption of this new drink In this lively book Brian Cowan locates the answers to these questions in the particularly British combination of curiosity commerce and civil society Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart century Britain's virtuosi gentlemanly patrons of the arts and sciences were profoundly interested in things strange and exotic Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses As the coffeehouse evolved rising to take a central role in British commercial and civil society the virtuosi were also transformed by their own invention

Bare-Knuckle Britons and Fighting Irish Adam Chill, 2017-09-12 Boxing was phenomenally popular in 18th and 19th century Britain Aristocrats attended matches and patronized boxers and the most important fights drew tens of thousands of spectators Promoters of the sport claimed that it showcased the timeless and authentic ideal of English manhood a rock of

stability in changing times Yet many of the best fighters of the era were Irish Jewish or black This history focuses on how boxers journalists politicians pub owners and others used national religious and racial identities to promote pugilism and its pure English pedigree even as ethnic minorities won distinction in the sport putting the diversity of the Empire on display

Mediating Cultural Memory in Britain and Ireland Leith Davis, 2022-03-17 The first book to analyze the interplay of cultural memory politics and the changing media ecology of early eighteenth century Britain Charles Dibdin and Late Georgian Culture Oskar Cox Jensen, David Kennerley, Ian Newman, 2018-01-19 Charles Dibdin 1745 1814 was one of the most popular and influential creative forces in late Georgian Britain producing a diversity of works that defy simple categorisation He was an actor lyricist composer singer songwriter comedian theatre manager journalist artist music tutor speculator and author of novels historical works polemical pamphlets and guides to musical education This collection of essays illuminates the social and cultural conditions that made such a varied career possible offering fresh insights into previously unexplored aspects of late Georgian culture society and politics Tracing the transitions in the cultural economy from an eighteenth century system of miscellany to a nineteenth century regime of specialisation Charles Dibdin and Late Georgian Culture illustrates the variety of Dibdin s cultural output as characteristic of late eighteenth century entertainment while also addressing the challenge mounted by a growing preoccupation with specialisation in the early nineteenth century The chapters written by some of the leading experts in their individual disciplines examine Dibdin s extraordinarily wide ranging career spanning cultural spaces from the theatres at Drury Lane and Covent Garden through Ranelagh Gardens Sadler s Wells and the Royal Circus to singing on board ships and in elegant Regency parlours from broadside ballads and graphic satires to newspaper journalism mezzotint etchings painting and decorative pottery Together they demonstrate connections between forms of cultural production that have often been treated as distinct and provide a model for a more integrated approach to the fabric of late Georgian cultural production The Cambridge Companion to John Wesley Randy L. Maddox, Jason E. Vickers, 2010 This is a general comprehensive introduction to John Wesley s life and work and to his theological and ecclesiastical legacy Written from various disciplinary perspectives this volume will be an invaluable aid to scholars and students including those encountering the work and thought of Wesley for the first time **Savages within the Empire** Troy Bickham, 2005-12-08 In 1720s London a well known band of young ruffians gave themselves crescent tattoos and adorned turbans in honour of their so called mohamattan Muslim Indian namesakes the Mohawk Few Britons noticed the gang s mistaken muddling of North American and Indian subcontinent geographies and cultures Even fewer cared in an age in which Indian was a catch all term applied to theatre characters philosophies and objects whose only common characteristic often was that they were not European Yet just thirty years later when the North American empire had entered centre stage Londoners bought Iroquois tomahawks at auctions provincial newspapers debated Cherokee politics women shopkeepers read aloud newspaper accounts of frontier battles as their husbands counted the takings church

congregations listened to the sermons of American Indian converts families toured museum exhibits of American Indian artefacts and Oxford dons wagered their bottles of port on the outcome of American wars Focusing on the question How did the British who remained in Britain perceive American Indians and how did these perceptions reflect and affect British culture *Savages within the Empire* explores both how Britons engaged with the peripheries of their Atlantic empire without leaving home and equally important how their forged understanding significantly affected the British and their rapidly expanding world It draws from a wide range of evidence to consider an array of eighteenth century contexts including material culture print culture imperial government policy the Church of England s missionary endeavours the Scottish Enlightenment and the public outcry over the use of American Indians as allies during the American War of Independence By chronicling and exploring discussions and representations of American Indians in these contexts Troy Bickham reveals the proliferation of empire related subjects in eighteenth century British culture as well as the prevailing pragmatism with which Britons approached them *Transatlantic Abolitionism in the Age of Revolution* J. R. Oldfield, 2013-08-08 An in depth comparative study of transatlantic abolitionism in the late eighteenth and early nineteenth centuries **Selling Science in the Age of Newton** Jeffrey R. Wigelsworth, 2016-04-01 Selling Science in the Age of Newton explores an often ignored avenue in the popularization of science It is an investigation of how advertisements in London newspapers from approximately 1687 to 1727 enticed consumers to purchase products relating to science books lecture series and instruments London s readers were among the first in Europe to be exposed to regular newspapers and the advertisements contained in them This occurred just as science began to captivate the nation s imagination due in part to Isaac Newton s rising popularity following the publication of his Principia 1687 This unique moment allows us to see how advertising helped shape the initial public reception of science This book fills a substantial gap in our understanding of science and the culture in which it developed by examining the medium of advertising and its function in the discourse of both early modern science and commerce It answers questions such as what happens to science once it is a commodity how are consumers tempted to purchase science amidst a sea of other commodities how is the reading public encouraged to give social acceptance to facts of nature and how did marketing campaigns craft newspapers readers into a source of validation for the items of science advertised In an age where the production of scientific knowledge increasingly relied upon sales to many rather than the endorsement of a single wealthy patron marketing was the key to success *China and the Writing of English Literary Modernity, 1690-1770* Eun Kyung Min, 2018-04-19 Argues that eighteenth century literature defined itself as English and modern by engaging with debates about Chinese history and culture
