Media Marathoning Lisa Glebatis Perks, 2014-12-11 Media Marathoning Immersions in Morality is a scholarly study of the intense relationship between reader and story world analyzing the way audiences become absorbed in a fictive text and dedicate many hours to exploring its narrative contours Rather than view these media experiences as mindless indulgences media marathoning connotes a conjoined triumph of commitment and stamina Compared to more traditional slower paced media engagement patterns media marathoning affords readers greater depth of story world engagement maximizing the emotional and cognitive rewards of the media experience Through immersive marathoning experiences audiences can seriously engage with mediated questions about human nature and society refining our orientation toward morality through internal dialogue about the story and communication with other readers as we process the meaningful journey As digital technologies facilitate easier user centered access to media texts narratives increase in complexity and more readers seek immersive story world experiences marathoning looks to be the new normal of media engagement Drawing from qualitative studies of book film and television marathoners along with textual analysis of commonly marathoned stories Media Marathoning presents a holistic look at marathoning s cultural impact *The ^AScience of Real-Time Data Capture* Arthur Stone, Saul Shiffman, Audie Atienza, Linda Nebeling, 2007-04-19 The National Cancer Institute NCI has designated the topic of real time data capture as an important and innovative research area As such the NCI sponsored a national meeting of distinguished research scientists to discuss the state of the science in this emerging and burgeoning field This book reflects the findings of the conference and discusses the state of the science of real time data capture and its application to health and cancer research It provides a conceptual framework for minute by minute data capture ecological momentary assessments EMA and discusses health related topics where these assessments have been applied In addition future directions in real time data capture assessment interventions methodology and technology are discussed *Ten Commandments of YouTube* Matt Gielen, 2016-08-30 Want to develop a rabid and devoted fan base on YouTube Want millions of subscribers After reaching 1 million subscribers in a year on our YouTube channel Cartoon Hangover and spending years studying the best of the best including Hannah Hart Shay Carl Michelle Phan and more the 1 programming team in the world at Frederator Networks has compiled tried and true methods into the most comprehensive YouTube how to guide This book covers everything from program scheduling and branding to title and thumbnail design Follow these 10 commandments and you too can succeed on YouTube Frederator Loves You **Clause Chaining in the Languages of the World** Hannah S. Sarvasy, Alexandra Y. Aikhenvald, 2025-02-25 The languages of the world make use of a variety of techniques for describing events and putting sentences together This volume takes a typological approach to clause chaining a fascinating feature of the grammar of hundreds of languages outside Europe especially in the Asia Pacific region East Africa across Central Asia and the Americas Clause chains consist of several dependent clauses and one main clause and are used to organize discourse

and to foreground or background events and participants they often go together with switch reference marking an indication of whether upcoming subjects will be co referential with preceding subjects or not The introductory chapter features a discussion of the typological properties of clause chaining with a brief overview of previous approaches to and investigations of clause chains followed by an overview of their recurrent grammatical features it ends with an appendix featuring notes for fieldworkers The first part of the book explores general issues in clause chaining including prosody acquisition and language contact and history later parts then examine clause chaining and related phenomena in a wide range of languages from around the world

Mrs. Paddy's Political Parodies Mrs Paddy,Paddy,2009-05 Mrs Paddy s Political Parodies A Tea Party Songbook for the New Revolution was born from the author s blog on Townhall com Mrs Paddy takes swipes at our politicians and culture often with a humorous tone Personalities from Obama to McCain are lampooned as well as political hot buttons like Global Warming Immigration and Tax and Spend policies It is both a retrospective of the last election cycle and a running commentary on current events all set to familiar tunes

Interface Frictions Neta Alexander,2025-07-18 Neta Alexander explores how ubiquitous design features in digital platforms such as playback speed autoplay and night mode reshape condition and break our bodies

The Linguistic Individual Barbara Johnstone,1996 Linguists usually discuss language or dialects in terms of groups of speakers Believing that patterns can be seen more clearly in the group than the individual researchers often present group scores with no indication of the variation within the group Even though linguists acknowledge that no two individuals speak alike few study individual variation and voice Barbara Johnstone makes a case for the individual s importance and idiosyncrasies in language and linguistics Using theoretical arguments and discourse analysis along with linguistic examples from a variety of speakers and settings Johnstone illustrates how speakers draw on linguistic models associated with class ethnicity gender and region among others to construct an individual voice In doing so Johnstone shows that certain important questions in sociolinguistics and pragmatics can only be answered with reference to individual speakers Johnstone s study is important both for the understanding of speech as expressive of self and for the study of variation and mechanisms of linguistic choice and change

Meaningful Technologies Eric Chown,Fernando Nascimento,2023-01-09 As smartphones mediate more of our activities they are changing our relationship with meaning To a teenager for example a conversation is just as likely to refer to an exchange of text messages as it is a face to face discussion Meanwhile Facebook has redefined what friendship means Snapchat what a memory means etc The kinds of changes smartphones bring are happening at rapid pace TikTok reached a billion users in just over three years whereas it took the telephone 75 years to reach a tenth of that number of people Meaningful

Technologies How Digital Metaphors Change the Way We Think and Live by Eric Chown and Fernando Nascimento offers systematic reconsideration of the ways in which digital technologies impact our lives both individually and collectively Metaphors aren't just a clever way to describe technology they are also changing the way we think When we click on a picture of a shopping cart it connects a complex set of technologies to represent a simple idea that we're all familiar with A heart icon under a photo is understood as an easy way to express appreciation We aren't required to understand how technology works just how we interact with it The ambiguity of metaphors and the complexity of technology can also hide important realities about what is being described The cloud for example actually consists of very real data centers which consume huge amounts of natural resources to keep running Meanwhile pressing that heart icon on a photo is a signal to the artificial intelligences running in your app that you want to see more things like that photo and that it should adjust what it knows about you accordingly There is a constant feedback loop between us and the digital technologies we use We are constantly using them and they are changing us through their usage Meaningful Technologies focuses on this loop from the perspectives of hermeneutic philosophy and cognitive science Through the former the authors examine meaning and how it changes over time Through the latter they gain understanding of how this feedback loop impacts individuals especially in terms of learning and attention Chown and Nascimento argue that on the one hand apps have a kind of agency never before possible in a technology but also that armed with a critical framework for examining such apps we can regain some of our own agency This book will appeal to scholars of digital media digital and computational studies and those interested in issues related to ethical impacts of digital technologies

Big Podcast - Grow Your Podcast Audience, Build Listener Loyalty, and Get Everybody Talking About Your Show David Hooper, 2019-03-12 Is it worth doing a podcast if nobody listens You started your podcast because you want to Spread an important message Share your passion Make money But your podcast hasn't quite taken off like you thought it would What happened This book is for podcasters who can't quite figure out what they're doing wrong and are ready to do things right You'll learn Why your natural personality may be repelling to people and how to make it attract listeners to your podcast like a magnet See p198 What to do when a company tries to lowball you on advertising fees do nothing except send them the email on p424 It's easy to screw up an interview To be sure you don't run into any problems use my guest contract on p311 A six word trick learned from a 20 year radio veteran that will instantly make you a better host it's on p210 9 reasons to kill an interview before it happens ignore these red flags and you'll be sorry p299 What Victoria's Secret models know about podcasting even though you never hear them talk this lesson starts on p208 Nervous on the mic You have lots of company 75% of podcasters to be exact I give you a 5 step way to cure your stage fright on p229 If you're scared of getting bad reviews don't worry I have three simple ways to handle critics on p236 two of which can turn critics into fans Why copying top podcasters may be killing your podcast I share the story on p116 and how to develop a podcasting style that works for you and will attract more listeners My 3 step episode teaser formula it's boring but

it works get it on p110 Thinking of doing a daily podcast You must read p103 before you start Want to impress a guest See the chapter starting on p321 for my 3 step followup ritual that will make being on your podcast unforgettable and encourage guests to promote your episodes And that s just the start This book contains my complete system on how to attract listeners deliver your message effectively and build a big podcast You can t build a big podcast on hope But you can build a big podcast And if you re ready to do just that read this book Inference and Learning from Data Ali H. Smallest Mimes. Defaced Representation and Media Epistemology Paul Majkut,2014-05-20 This book proposes an alternate theory of media evolution that accounts for the appearance of a new medium in the malpractice of older media Smallest Mimes addresses complex issues of media transition the inherent confusion of media definition by use of metaphor instead of phenomenological description and the impact of individual media function and structure on both textual and imagistic content Bringing together Majkut s past speculations on media Smallest Mimes interweaves a general theory of media a theory of historical media change and transmission and a theory of media genesis in technological adequacy inadequacy

Innovative Applications and Changing Framework in Digital Broadcasting Bolat, Nursel,2025-06-10 In conjunction with digitalization the media and publishing sector has undergone a radical transformation paving the way for new content production and consumption norms The traditional broadcasting approach is being replaced by more flexible accessible and user oriented models using the opportunities provided by technology Artificial intelligence supported algorithms offer personalized content recommendations while big data analytics enable a better understanding of user behavior and shape content strategies accordingly At the same time the proliferation of smart devices and the increase in high speed internet access have eliminated the physical boundaries of broadcasting and made it possible to reach a global audience Innovative Applications and Changing Framework in Digital Broadcasting examines in depth the impact of innovative practices in digital broadcasting on the sector and analyzes how these effects redefine the traditional framework of broadcasting In addition a comprehensive perspective on the future of digital broadcasting is presented by evaluating the opportunities and challenges in this framework shaped by new technologies Covering topics such as virtual universe narratives digital publishing ecosystems and binge watching this book is an excellent resource for producers authors broadcasters professionals researchers scholars academicians and more

Robin Williams - When the Laughter Stops 1951-2014 Emily Herbert,2014-10-12 With his twinkling eyes boundless energy and unrivalled natural wit Robin Williams was the comedian who brought laughter to a generation Through roles in cherished films such as Mrs Doubtfire Jumanji Aladdin and Hook he became the genial face of family comedy His child like enthusiasm was infectious sweeping viewers away Allied to his lightning quick improvisation and ability to riff lewdly off any cue thrown at him Robin was that rare thing a true comic genius who appealed to adults and children equally He could also play it straight and empathetic depth came to him naturally A poignant performance in Good Will Hunting won him an Academy Award whilst his masterfully

chilling turn in psychological thriller *Insomnia* shocked audiences and hinted at a darker side What truly caught the imagination though was his good heartedness Warmth radiated from him on screen but he was legendary for his off screen acts of selfless generosity Where most Hollywood A listers demand outrageous pampering in their contract riders he always insisted that the production company hire a full quota of homeless people to help make his movies But behind the laughter lay a deeply troubled man and tragedy would follow At midday on 11 August 2014 Robin Williams was pronounced dead at his California home The verdict was suicide He had battled depression and addiction for many years and was allegedly beset by financial difficulties Virginia Blackburn s sensitive and thoughtful biography celebrates his genius and warmth but also attempts to understand what could have driven such a gentle and gifted man to so tragic an end This is Robin Williams the life the laughter and the deep sorrow of the man who made the world smile
