Psychobiology And Psychopharmacology:

Psychobiology and Psychopharmacology Frederic F. Flach,1988 *Drugs, Brain and Behavior* Joel Elkes,Amiram Carmon,Daniel Dagan,1976* *Psychobiology* Chris Chandler,2016-08-22 Psychobiology provides a comprehensive yet accessible introduction to the study of psychobiology and the key concepts topics and research that are core to understanding the brain and the biological basis of our behaviour Assuming no prior knowledge of biology the text emphasises the interaction of psychobiology with other core areas of psychology and disciplines Through the use of exciting and engaging examples the role of psychobiology in the real world is explored and emphasised to allow students to connect theory to practice in this fascinating subject

Psychobiological Issues in Substance Use and Misuse Philip Murphy,2020-12-29 In this book Murphy brings together a team of international experts to review cutting edge scientific literature from the field of psychobiology and related disciplines which addresses important questions and broadens our understanding of substance use behaviours The reader is introduced to the multi faceted nature of substance use and misuse and its growing need to be discussed across diverse disciplines and perspectives The book also addresses important questions regarding public policy and professional practice in the context of different social and cultural environments and comments on the methodological and ethical issues in substance use and misuse Chapters explore a spectrum of substances which include cocaine alcohol ecstasy MDMA methamphetamine synthetic cannabinoids tobacco ketamine novel psychoactive substances and vaping products The use of these substances poses important questions for science and for society This book is written to help academics practitioners and students in a variety of academic and professional disciplines answer those questions while staying up to date with the psychobiological literature This is a vital resource for professionals and upper level undergraduate and postgraduate students undertaking research in areas related to biological psychology biology health studies and medicine

Developmental Psychobiology George F. Michel,Celia L. Moore,1995 This text is the first to provide a coherent theoretical treatment of the flourishing new field of developmental psychobiology which has arisen in recent years on the crest of exciting advances in evolutionary biology developmental neuroscience and dynamic systems theory Michel and Moore two of the field s key pioneers and researchers integrate primary source information from research in both biological and psychological disciplines in a clear account of the frontier of biopsychological investigation and theorizing Explicitly conceptual and historical the first three chapters set the stage for a clear understanding of the field and its research with particular attention to the nature nurture question The next three chapters each provide information about a basic subfield in biology genetics evolution embryology that is particularly relevant for developmental studies of behavior These are followed by extended treatments of three spheres of inquiry behavioral embryology cognitive neuroscience animal behavior in terms of how a successful interdisciplinary approach to behavioral development might look A final chapter comments on some of the unique aspects of development study From this detailed and clearly organized text

students will achieve a firm grasp of some of science's most fertile questions about the relation between evolution and development the relation between brain and cognitive development the value of a natural history approach to animal behavior and what it teaches us about humans and much more Each chapter contains material that questions the conventional wisdom held in many subdisciplines of biology and psychology Throughout the text challenges students to think creatively as it thoroughly grounds them in the field's approach to such topics as behavioral genetic analysis the concept of innateness molecular genetics and development neuroembryology behavioral embryology maturation cognition and ethology
