Postmodernity in Latin America Santiago Colás, 1994-11-07 Postmodernity in Latin America contests the prevailing understanding of the relationship between postmodernity and Latin America by focusing on recent developments in Latin American and particularly Argentine political and literary culture While European and North American theorists of postmodernity generally view Latin American fiction without regard for its political and cultural context Latin Americanists often either uncritically apply the concept of postmodernity to Latin American literature and society or reject it in an equally uncritical fashion The result has been both a limited understanding of the literature and an impoverished notion of postmodernity Santiago Col s challenges both of these approaches and corrects their consequent distortions by locating Argentine postmodernity in the cultural dynamics of resistance as it operates within and against local expressions of late capitalism Focusing on literature Col s uses Julio Cort zar s Hopscotch to characterize modernity for Latin America as a whole Manuel Puig s Kiss of the Spider Woman to identify the transition to a more localized postmodernity and Ricardo Piglia s Artificial Respiration to exemplify the cultural coordinates of postmodernity in Argentina Informed by the cycle of political transformation beginning with the Cuban Revolution including its effects on Peronism to the period of dictatorship and finally to redemocratization Col s s examination of this literary progression leads to the reconstruction of three significant moments in the history of Argentina His analysis provokes both a revised understanding of that history and the recognition that multiple meanings of postmodernity must be understood in ways that incorporate the complexity of regional differences

Offering a new voice in the debate over postmodernity one that challenges that debate's leading thinkers Postmodernity in Latin America will be of particular interest to students of Latin American literature and to scholars in all disciplines concerned with theories of the postmodern

**A Companion to Modern Spanish American Fiction** Donald Leslie Shaw, 2002 With such figures as Jorge Luis Borges Miguel ngel Asturias and Gabriel Garc a M rquez both the latter Nobel Prizewinners Spanish American fiction is now unquestionably an integral part of the mainstream of Western literature This book draws on the most recent research in describing the origins and development of narrative in Spanish America during the nineteenth and twentieth centuries tracing the pattern from Romanticism and Realism through Modernismo Naturalism and Regionalism to the Boom and beyond It shows how while seldom moving completely away from satire social criticism and protest Spanish American fiction has evolved through successive phases in which both the conceptions of the writer's task and presumptions about narrative and reality have undergone radical alterations DONALD SHAW holds the Brown Forman Chair of Spanish American literature in the University of Virginia

**The Censorship Files** Alejandro Herrero-Olaizola, 2012-02-01 Drawing on extensive research in the Spanish National Archive Alejandro Herrero Olaizola examines the role played by the censorship apparatus of Franco's Spain in bringing about the Latin American literary Boom of the 1960s and 1970s He reveals the negotiations and behind the scenes maneuvering among those involved in the Spanish publishing industry Converging interests made strange bedfellows of the often left wing authors and the staid officials appointed to stand guard over Francoist morality and to defend the supposed purity of Castilian Spanish Between these two uneasily allied groups circulated larger than life real world characters like the Barcelona publisher Carlos Barral and the all powerful literary agent Carmen Balcells The author details the fascinating story of how novels by Mario Vargas Llosa Guillermo Cabrera Infante Gabriel Garc a M rquez and Manuel Puig achieved publication in Spain and in doing so reached a worldwide market This colorful account underpins a compelling claim that even the most innovative and aesthetically challenging literature has its roots in the economics of the book trade as well as the institutions of government and the exigencies of everyday politics and ideology
