Reconfiguring Modernism Explorations In The Relationship Between Modern Art And Modern Literature:

Reconfiguring Modernism Daniel R. Schwarz, 1997 *Reconfiguring Modernism* explores the relationship between modern literature and modern art. Spanning the high modernist period between the late nineteenth century and World War 2, the cultural interrelationships between painters such as Manet, Gauguin, Cezanne, and Picasso, and writers such as James Conrad, Eliot, and Joyce are explored. The influence of African, Asian, and Pacific cultures on European modernism is also examined. Schwarz considers texts visual and written of the modern period as a contoured textual field without absolute borders, crucial to our understanding of modernism in the last years of the twentieth century. *Reading the Modern European Novel since 1900* Daniel R. Schwarz, 2018-03-14 An exploration of the modern European novel from a renowned English literature scholar, *Reading the Modern European Novel since 1900* is an engaging in-depth examination of the evolution of the modern European novel. Written in Daniel R. Schwarz's precise and highly readable style, this critical study offers compelling discussions on a wide range of major works since 1900 and examines recurring themes within the context of significant historical events, including both World Wars and the Holocaust. The author cites important developments in the evolution of the modern novel and explores how these paradigmatic works of fiction reflect intellectual and cultural history, including developments in painting and cinema. Schwarz focuses on narrative complexity, thematic subtlety, and formal originality, as well as how novels render historical events and cultural developments. Discussing major works by Proust, Camus, Mann, Kafka, Grass, Di Lampedusa, Bassani, Kertész, Pamuk, Kundera, Saramago, Müller, and Ferrante, Schwarz explores how these often experimental masterworks pay homage to their major predecessors. Discussed in Schwarz's ground-breaking *Reading the European Novel to 1900*, even while proposing radical departures from realism in their approach to time and space, they are testing the limits of language and their innovative ways of rendering the human psyche. Written for teachers and students by a highly acclaimed scholar and including valuable study questions, *Reading the Modern European Novel since 1900* offers a guide for a deeper understanding of how these original modern masters respond to both the past and present.

Rereading Conrad Daniel R. Schwarz, 2001 Leading Conradian scholar Daniel R. Schwarz assembles his work from over the past two decades into one crucial volume, providing a significant reexamination of a seminal figure who continues to be a major focus in the twenty-first century. Schwarz touches on virtually all of Joseph Conrad's work, including his masterworks and the later, relatively neglected fiction. In his introduction and in the persuasive and insightful essays that follow, Schwarz explores how the study of Conrad has changed and why Conrad is such a focus of interest in terms of gender, postcolonial, and cultural studies. He also demonstrates how Conrad helps define the modernist cultural tradition. Exploring such essential works as *Heart of Darkness*, *Lord Jim*, *Nostromo*, and *The Secret Sharer*, Schwarz addresses issues raised by recent theory, discussing the ways in which contemporary readers, including of course himself, have come to read Conrad differently. He does so without abandoning crucial Conradian themes such as the disjunction between interior and articulated motives and

the discrepancies between dimly acknowledged needs, obsessions and compulsions and actual behavior. Schwarz also touches on the extent to which Conrad's conservative desires for a few simple moral and political ideas were often at odds with his profound skepticism. A powerful close reader of Conrad's complex texts, Schwarz stresses how from their opening paragraphs Conrad's works establish a grammar of psychological, political and moral cause and effect. Rereading Conrad sheds new light on an author who has spoken to readers for over a century. Schwarz's essays take account of recent developments in theory and cultural studies including postcolonial, feminist, gay and ecological perspectives and show how reading Conrad has changed in the face of the theoretical explosion that has occurred over the past two decades. Because for over three decades Schwarz has been an important figure in defining how we read Conrad and in studying modernism, including how we respond to the relationship between modern literature and modern art, scholars, teachers and students will take great pleasure in this new collection of his work.

Mutual (In)Comprehensions Rosemary Mitchell, 2013-07-26 This collection of essays by French and British humanities scholars explores the complex relationship between the two nations in the long nineteenth century. Both countries contemplated the other with admiration and anxiety, using their best enemy to shape their own national identities. *Mutual In Comprehensions* is unique in the range of its coverage, which includes artistic, literary, economic, educational, social and historical interpretations, interactions and appropriations. British railway engineers consider the character of the French railway worker; a French illustrator portrays with disturbing insight the social divisions of Victorian London; British agricultural writers find cause for reflection in the condition of the French peasantry; and an English Anglo-Catholic considers the lessons for her church in the history of post-Reformation French Catholicism. French architects discover something to admire in the British Gothic Revival, while geographical societies on both sides of the Channel exhibit a spirit of international co-operation. Including the work of both established academics and young scholars, the collection demonstrates the significance of Franco-British interactions over the long nineteenth century and shows that, as ever, British culture can only be fully understood within a Continental framework and vice versa. This volume will appeal to scholars of Victorian culture in particular, French and British nineteenth-century literature and art, as well as to academics interested in the development of national identities and international cultural relations.

Daniel R. Schwarz, 2014-01-02 A groundbreaking study of ten difficult years in the life of America s most important newspaper From false stories about weapons of mass destruction in Iraq to growing competition from online and twenty four hour cable news the first decade of the twenty first century was not particularly kind to the New York Times In this groundbreaking study of the recent life and times of America s most important newspaper Daniel R Schwarz describes the transformation of the Times as it has confronted not only its various scandals and embarrassments but also the rapid rise of the Internet and blogosphere

the ensuing decline in circulation and print advertising and the change in what readers want and how they want to get it. Drawing on more than forty one on one interviews with past and present editors including every living executive editor senior figures on the business and financial side and publisher Arthur Sulzberger Jr Schwarz discusses virtually every aspect of the contemporary Times from columnists to cultural coverage. He explains how in response to continuous online updating and twenty four hour all news radio and television the Times has become much more like a daily magazine than a traditional newspaper with increased analysis as opposed to reporting of the news as well as value added features on health travel investing and food. After carefully tracing the rise of the Times's website Schwarz asks whether the Times can survive as a print newspaper whether it can find a business model to support its vast print and online newsgathering operation and whether the Sulzberger family can survive as controlling owners. He also asks whether the Times in its desperate effort to survive has abandoned its quality standards by publishing what he calls Timeslite and Timestrash. Writing as a skeptical outsider and devoted lifelong reader Schwarz concludes that the Times is the worst newspaper in the world except for all the others. *Endtimes* is a must read for Times readers as well as anyone interested in the radical change in print and broadcast media in the rapidly evolving Internet Age. A balanced grappling with big issues and tumultuous changes in journalism and at The Times between 1999 and 2009. CHOICE Fascinating Schwarz raises many questions about the future of printed newspapers and about how Americans will stay informed about news. *Charleston Gazette Mail* *Endtimes* is a product of brain and heart passion for its subject yes but also clear eyed critique of that subject's strengths and weaknesses. *Huntsville Times* Schwarz is diligent in his research and his interviews. He puts the Times on the couch and gives us a very thorough psychoanalysis. *Washington Independent Review of Books* Struggling to maintain its journalistic preeminence in a world of accelerating change the New York Times has often stumbled but not yet fallen. Scrupulously researched judiciously argued and accessibly written *Endtimes* provides a sympathetically critical account of the Times's strengths and weaknesses as it responds to the economic technological cultural and political challenges of our day. No one alarmed by the threatened survival of quality journalism can afford to ignore this trenchant book. Martin Jay author of *The Virtues of Mendacity* On Lying in Politics Daniel Schwarz's lucid well researched and passionate book reminded me of the saying that the best criticism comes from admirers who are willing to tell us our faults. Benefiting from his own extensive interviews with key players in the Times's story including Max Frankel Arthur Sulzberger Jr and Howell Raines Schwarz offers a complex judicious history of a prominent American cultural institution as it responds to a period of crises and turmoil in print journalism. Pulling no punches Schwarz laments the current version of the paper's fluff lack of gatekeeping and news judgment and failure to stand up to government. At the same time he appreciates how the Times remains after more than a century a preeminent source of information. This is a lover's quarrel at its best. Daniel Morris Purdue University Dan Schwarz is a knowing reader and a master teacher. *Endtimes* shows that he is a great student of journalism as well. He takes us on a

roller coaster ride from the era of the New York Times's cultural ascendancy to the current financial crisis over its very existence And he looks into the Times's future too Everyone who cares about the news in America should read this book Barry Strauss author of *The Spartacus War* Dan Schwarz writes with terrific energy about an important subject the threat posed by today's flood of information to the integrity and even the existence of what is arguably the world's most influential newspaper Not every reader will agree with his criticisms of the paper's leadership or his prescriptions for its survival But every reader will be deeply informed and sharply challenged by his well documented narrative and his provocative argument Steven Knapp The George Washington University

Joyce, "Penelope" and the Body, 2016-08-01 Joyce *Penelope and the Body* is a collection of twelve essays about Penelope the famous final episode of Joyce's *Ulysses* in relation to contemporary literary cultural philosophical and psychoanalytical theories of the body As such it offers an unusually close look at that episode itself and it also becomes the very first book on Joyce that takes the idea of the body as its announced central theme The contributors represented here come from England Ireland Europe and North America and they include some of the best established critics of Joyce alongside newcomers to academic publication The essays include an encouraging diversity of approaches but they have in common a marked intellectual ambition a surprisingly fresh and innovative approach and above all a devoted fascination for Joyce's text Taken together they offer much new potential for the reading of Joyce and Modernism and a range of possibilities for understanding the body and its representation through language and in culture that have resonances across the cultural sphere

The Eye's Mind Karen Jacobs, 2018-09-05 *The Eye's Mind* significantly alters our understanding of modernist literature by showing how changing visual discourses techniques and technologies affected the novels of that period In readings that bring philosophies of vision into dialogue with photography and film as well as the methods of observation used by the social sciences Karen Jacobs identifies distinctly modernist kinds of observers and visual relationships This important reconception of modernism draws upon American British and French literary and extra literary materials from the period 1900-1955 These texts share a sense of crisis about vision's capacity for violence and its inability to deliver reliable knowledge Jacobs looks closely at the ways in which historical understandings of race and gender inflected visual relations in the modernist novel She shows how modernist writers increasingly aware of the body behind the neutral lens of the observer used diverse strategies to displace embodiment onto those others historically perceived as cultural bodies in order to reimagine for themselves or their characters a purified gaze *The Eye's Mind* addresses works by such high modernists as Vladimir Nabokov Virginia Woolf and more distantly Ralph Ellison and Maurice Blanchot as well as those by Henry James Zora Neale Hurston and Nathanael West which have been tentatively placed in the modernist canon although they forgo the full blown experimental techniques often seen as synonymous with literary modernism Jacobs reframes fundamental debates about modernist aesthetic practices by demonstrating how much those practices are indebted to the changing visual cultures of the twentieth century

Wallace Stevens and the Limits of Reading and Writing Bart Eeckhout, 2002 Often considered America's greatest twentieth century poet Wallace Stevens is without a doubt the Anglo modernist poet whose work has been most scrutinized from a philosophical perspective Wallace Stevens and the Limits of Reading and Writing both synthesizes and extends the critical understanding of Stevens's poetry in this respect Arguing that a concern with the establishment and transgression of limits goes to the heart of this poet's work Bart Eeckhout traces both the limits of Stevens's poetry and the limits of writing as they are explored by that poetry Stevens's work has been interpreted so variously and contradictorily that critics must first address the question of limits to the poetry's signifying potential before they can attempt to deepen our appreciation of it In the first half of this book the limits of appropriating and contextualizing Stevens's *The Snow Man* in particular are investigated Eeckhout does not undertake this reading with the negative purpose of disputing earlier interpretations but with the more positive intention of identifying the intrinsic qualities of the poetry that have been responsible for the remarkable amount of critical attention it has received
