Early Women

Dramatists 1550-1801 Margarete Rubik,2016-01-14 A comprehensive survey of women s drama between the Renaissance and the end of the eighteenth century assessing the plays characteristic features and the ruptures in the text indicating the writers precarious social and artistic position and ambiguous stances to their own creativity and sex Chapters are devoted to individual writers as well as to general developments in specific periods The most significant plays are analysed in detail and related to the male literary canon of the time in order to stress both their originality and the existence of an albeit tentative female literary tradition

The History of British Women's Writing, 1610-1690 M. Suzuki,2011-01-19 During the seventeenth century in response to political and social upheavals such as the English Civil Wars women produced writings in both manuscript and print This volume represents recent scholarship that has uncovered new texts as well as introduced new paradigms to further our understanding of women s literary history during this period

Beyond the Persecuting Society John Christian Laursen,Cary J. Nederman,2011-07-18 There is a myth easily shattered that Western societies since the Enlightenment have been dedicated to the ideal of protecting the differences between individuals and groups and another too readily accepted that before the rise of secularism in the modern period intolerance and persecution held sway throughout Europe In *Beyond the Persecuting Society* John Christian Laursen Cary J Nederman and nine other scholars dismantle this second generalization If intolerance and religious persecution have been at the root of some of the greatest suffering in human history it is nevertheless the case that toleration was practiced and theorized in medieval and early modern Europe on a scale few have realized Christians and Jews the English French Germans Dutch Swiss Italians and Spanish had their proponents of and experiments with tolerance well before John Locke penned his famous Letter Concerning Toleration Moving from Abelard to Aphra Behn from the apology for the gentiles of the fourteenth century Talmudic scholar Menahem ben Solomon Ha Meiri to the rejection of intolerance in the New Israel of the Massachusetts Bay Colony *Beyond the Persecuting Society* offers a detailed and decisive correction to a vision of the past as any less complex in its embrace and abhorrence of diversity than the present

Comparative Practices Nadine Böhm-Schnitker,Marcus Hartner,2022-01-05 Comparisons not only prove fundamental in the epistemological foundation of modernity Foucault Luhmann but they fulfil a central function in social life and the production of art Taking a cue from the Practice Turn in sociology the contributors are investigating the role of comparative practices in the formation of eighteenth century literature and culture The book conceives of social practices of comparing as being entrenched in networks of circulation of bodies artefacts discourses and ideas and aims to investigate how such practices ordered and changed British literature and culture during the long eighteenth century

Legacies of Slavery Maria Suzette Fernandes Dias,2021-03-04 The proclamation by the United Nations General Assembly of the International Year to Commemorate the

Struggle against Slavery and its Abolition during 2004 marked the culmination of recent efforts to re engage with slavery s past and create an intellectual social political and ethical climate conducive to a sustained and meaningful dialogue among cultures and civilisations The past decade witnessed an upsurge of national and international exhibitions and conferences on the impact of slavery and the overwhelming and enduring cultural miscegenation and the demographic socio political and spiritual hybridisation that the phenomenon consciously or unconsciously initiated the celebration of efforts by Abolitionists to publicise the savagery of this inhumane practice a revival of interest in and the glorification of the often ignored or historically negatively represented resistance to slavery by slaves themselves and numerous endeavours to address the negative legacies of slavery like racism racial discrimination xenophobia and related intolerance which continue to impinge upon our present as part of contemporary politics Yet these ventures aimed at raising awareness of the horrors of slave trade and slavery at honouring struggles for the emancipation of the enslaved at examining the aftermath of slavery like the emergence of a new historic consciousness at restoring broken links and solidarity between the historically dislocated diasporas and their countries of origin at commemorating sites of memory and at celebrating artistic and cultural m tissage such as the UNESCO s Slave Route Project have largely focused on the Atlantic World and the deportation of slaves from Africa to other parts of the World raising questions about the legacy of slavery in other societies like those in Asia the Pacific and Europe where slavery still remains on the margins of national and post colonial histories This edited volume is an attempt to reconsider slavery as a global human institution which has coexisted with other socio political economic legal and cultural institutions As a temporally and spatially ubiquitous phenomenon it has generated and continues to engender legacies be they historical oral or visual which need to be compared and discussed to facilitate dialogue between cultures and civilisations and to mitigate the wounds of the past which continue to scar our present It brings together writings by scholars from history literature anthropology and cultural studies who examine the indelible mark left by slavery in its various forms on societies cultures and peoples all over the world and attempts by artistes and writers to alleviate this stigmata of History This volume consists of two sections The first section entitled Connecting Histories explores some of the varied forms in which slavery presented itself in the last four centuries and the need to reengage with its legacies Adhering to Manning s contention that slavery is an enduring metaphor for inequities in the treatment of humans this section focuses on identifying the legacy of slavery and its significance in scholarship Manning alternate perspectives on slavery through the examination of forced labour and the dehumanising treatment of indigenous people in Australia Read enforced migration and labour exploitation of convicts in penal colonies Maxwell Stewart and a historical overview of Lusitanian slavery in India D Souza and the hybridisation of pre colonial slavery traditions in the perpetuation of the perkerniersstelse or a profitably managed European settler colony based on the global monopoly of nutmeg production by the Dutch Winn The second section of the book entitled Centering Discourses Identity Image and Text begins with a postcolonialist reading of Caribbean slavery

as a legacy of capitalism imperialism and plantation culture and above all the globalization of sugar consumption Ashcroft The two chapters that follow resuscitate two of the many categories of slaves who were victims of historical silence namely children in the sugar plantations of the West Indies Teelucksingh and Martiniquan maroons Fernandes Dias Articulating with the discourse on identity and cultural appropriation introduced in the preceding essay chapter nine provides an overview of the power struggle at work in the construction of Creole identity and its political legitimization through a topical analysis of the process of commemoration of a site of memory Le Morne Brabant symbol of slavery and marronage in the Mauritian collective memory Carmignani The final two chapters explore the problematics of presenting slavery through the adoption of a counter hegemonic discourse particularly through the arts Aphra Behn s Oroonoko which exalts the Black slave as a hero without making any explicit case for the abolition of slavery continues to occupy the terrain of sympathist abolitionist ambiguity Landford while the Amistad case despite its numerous positive legacies demonstrates how excessive popularization of the incident as an Abolitionist cause could result in an overload of historical memory to the point of obscuring historical reality Fernandes Dias Despite the volume s overarching desire to provide a global and comparative overview of the historical ideological economical and cultural factors that contributed to the evolution of slavery and the legacies that the institution generated this volume is limited in the thematic chronological and geographic terrain that it has covered We attribute this shortcoming to the complexity of slavery itself as an institution the problematic of defining what constitutes slavery and the historical silence maintained over its dehumanizing effects Yet the story of slavery is also a tale of survival of resistance and of the resilience of the human spirit to transcend oppression and preserve its inherent dignity It is the celebration of the rich cultural fusion and m tissage that rose from the ashes of human suffering The wounds of the past need to be healed perhaps initially at a mythopoetic level through the articulation of repressed collective angst and its legacies through the arts and through scholarship

Early Modern Women's Writing Paul Salzman, 2000-03-16 In a famous passage in A Room of One's Own Virginia Woolf asked why women did not write poetry in the Elizabethan age She went on to speculate about an imaginary Judith Shakespeare who might have been destined for a career as illustrious as that of her brother William except that she had none of his chances The truth is that many women wrote during the sixteenth and seventeenth centuries and this collection will serve to introduce modern readers to the full variety of women's writing in this period from poems prose and fiction to prophecies letters tracts and philosophy The collection begins with the poetry of Isabella Whitney who worked in a gentlewoman's household in London in the late 1560s and ends with Aphra Behn who was employed as a spy in Amsterdam by Charles II Here are examples of the work of twelve women writers allowing the reader to sample the diverse and lively output of all classes and opinions from artistcrats such as Mary Wroth Anne Clifford and Margaret Cavendish to women of obscure background caught up in the
