Recovering History Constructing Race:

Recovering History, Constructing Race Martha Menchaca, 2002-01-15 An unprecedented tour de force A sweeping historical overview and interpretation of the racial formation and racial history of Mexican Americans Antonia I Casta eda Associate Professor of History St Mary's University Winner A Choice Outstanding Academic Book The history of Mexican Americans is a history of the intermingling of races Indian White and Black This racial history underlies a legacy of racial discrimination against Mexican Americans and their Mexican ancestors that stretches from the Spanish conquest to current battles over ending affirmative action and other assistance programs for ethnic minorities Asserting the centrality of race in Mexican American history Martha Menchaca here offers the first interpretive racial history of Mexican Americans focusing on racial foundations and race relations from preHispanic times to the present Menchaca uses the concept of racialization to describe the process through which Spanish Mexican and U S authorities constructed racial status hierarchies that marginalized Mexicans of color and restricted their rights of land ownership She traces this process from the Spanish colonial period and the introduction of slavery through racial laws affecting Mexican Americans into the late twentieth century This re viewing of familiar history through the lens of race recovers Blacks as important historical actors links Indians and the mission system in the Southwest to the Mexican American present and reveals the legal and illegal means by which Mexican Americans lost their land grants Martha Menchaca has begun an intellectual insurrection by challenging the pristine aboriginal origins of Mexican Americans as historically inaccurate Menchaca revisits the process of racial formation in the northern part of Greater Mexico from the Spanish conquest to the present Hispanic American Historical Review

Recovering History, Constructing Race Martha Menchaca, 2001 In this book it is my intent to write about the Mexican American people's Indian White and Black racial history In doing so I offer an interpretive historical analysis of the experiences of the Mexican Americans ancestors in Mexico and the United States This analysis begins with the Mexican Americans prehistoric foundations and continues into the late twentieth century My focus however is on exploring the legacy of racial discrimination that was established in the aftermath of the Spanish conquest and was later intensified by the United States government when in 1848 it conquered northern Mexico presently the U S Southwest and annexed it to the United States Menchaca 1999 3 The central period of study ranges from 1570 to 1898 Page 1

Blood Lines Sheila Marie Contreras, 2009-07-21 2009 Runner up Modern Language Association Prize in United States Latina and Latino and Chicana and Chicano Literary and Cultural Studies Blood Lines Myth Indigenism and Chicana o Literature examines a broad array of texts that have contributed to the formation of an indigenous strand of Chicano cultural politics In particular this book exposes the ethnographic and poetic discourses that shaped the aesthetics and stylistics of Chicano nationalism and Chicana feminism Contreras offers original perspectives on writers ranging from Alurista and Gloria Anzald a to Lorna Dee Cervantes and Alma Luz Villanueva effectively marking the invocation of a Chicano indigeneity whose foundations and formulations can

be linked to U S and British modernist writing By highlighting intertextualities such as those between Anzald a and D H Lawrence Contreras critiques the resilience of primitivism in the Mexican borderlands She questions established cultural perspectives on the native which paradoxically challenge and reaffirm racialized representations of Indians in the Americas In doing so Blood Lines brings a new understanding to the contradictory and richly textured literary relationship that links the projects of European modernism and Anglo American authors on the one hand and the imaginary of the post revolutionary Mexican state and Chicano a writers on the other hand *The Mexican Outsiders* Martha

Menchaca,2010-01-01 People of Mexican descent and Anglo Americans have lived together in the U S Southwest for over a hundred years yet relations between them remain strained as shown by recent controversies over social services for undocumented aliens in California In this study covering the Spanish colonial period to the present day Martha Menchaca delves deeply into interethnic relations in Santa Paula California to document how the residential social and school segregation of Mexican origin people became institutionalized in a representative California town Menchaca lived in Santa Paula during the 1980s and interviews with residents add a vivid human dimension to her book She argues that social segregation in Santa Paula has evolved into a system of social apartness that is a cultural system controlled by Anglo Americans that designates the proper times and places where Mexican origin people can socially interact with Anglos This first historical ethnographic case study of a Mexican origin community will be important reading across a spectrum of disciplines including anthropology sociology race and ethnicity Latino studies and American culture **Making Black Los**

Angeles Marne L. Campbell,2016-09-27 Black Los Angeles started small The first census of the newly formed Los Angeles County in 1850 recorded only twelve Americans of African descent alongside a population of more than 3 500 Anglo Americans Over the following seventy years however the African American founding families of Los Angeles forged a vibrant community within the increasingly segregated and stratified city In this book historian Marne L Campbell examines the intersections of race class and gender to produce a social history of community formation and cultural expression in Los Angeles Expanding on the traditional narrative of middle class uplift Campbell demonstrates that the black working class largely through the efforts of women fought to secure their own economic and social freedom by forging communal bonds with black elites and other communities of color This women led black working class agency and cross racial community building Campbell argues was markedly more successful in Los Angeles than in any other region in the country Drawing from an extensive database of all African American households between 1850 and 1910 Campbell vividly tells the story of how middle class African Americans were able to live work and establish a community of their own in the growing city of Los Angeles Racial Dynamics in Early Twentieth-Century Austin, Texas Jason McDonald,2012-06-14 This pioneering study sheds new light on racial dynamics in the urban Southwest at a critical juncture in the history of the region and the nation It focuses upon the experiences of ethnoracial minorities particularly African Americans and Mexican immigrants in Austin

Texas from the dawn of the Progressive Era to the onset of the Great Depression Through this lens McDonald explores the issues of migration proletarianization marginalization adaptation identity and community He reveals how in response to the exponential growth of the local ethnic Mexican population the white elite of the Lone Star State's capital adapted the city's bipartite system of segregation which had traditionally separated blacks from whites to incorporate Mexicans as a third and separate element neither black nor white As well as examining how African Americans and Mexican Americans responded to life in a racially stratified society McDonald examines the often fraught relationship between these groups **Latino**

Integrations Lawrence Blum, Zoë Burkholder, 2021-05-11 The promise of a free high quality public education is supposed to guarantee every child a shot at the American dream But our widely segregated schools mean that many children of color do not have access to educational opportunities equal to those of their white peers In Integrations historian Zo Burkholder and philosopher Lawrence Blum investigate what this country's long history of school segregation means for achieving just and equitable educational opportunities in the United States Integrations focuses on multiple marginalized groups in American schooling African Americans Native Americans Latinxs and Asian Americans The authors show that in order to grapple with integration in a meaningful way we must think of integration in the plural both in its multiple histories and in

the many possible definitions of and courses of action for integration Ultimately the authors show integration cannot guarantee educational equality and justice but it is an essential component of civic education that prepares students for life in our multiracial democracy

An African American and Latinx History of the United States Paul Ortiz, 2018-01-30 An intersectional history of the shared struggle for African American and Latinx civil rights Spanning more than two hundred years An African American and Latinx History of the United States is a revolutionary politically charged narrative history arguing that the Global South was crucial to the development of America as we know it Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like manifest destiny and Jacksonian democracy and shows how placing African American Latinx and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism Drawing on rich narratives and primary source documents Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century to May 1 2006 known as International Workers Day when migrant laborers Chicana/os Afrocubanos and immigrants from every continent on earth united in resistance on the first Day Without Immigrants As African American civil rights
