Scaperlanda, Teresa Stanton Collett, 2007-06 This book presents an engaging collection of essays exploring catholic and Catholic perspectives on American law catholic in their claims of universal truths and Catholic in their grounding in the teachings of the Roman Catholic Church *Regaining Your Self* Ira Sacker, 2010-12-23 You are not what you don't eat Never has there been a mental disorder so controversial in the theories surrounding its causes treatments and recovery than that of the eating disorder Its mysterious nature onset and lack of predictability make this an elusive epidemic that causes

frustration and fear in those who are afflicted and those who love and treat them This is exactly why patients families and treatment professionals need to be privy to the observations of one of the foremost eating disorder specialists in the world and bestselling author of *Dying to Be Thin* Ira M Sacker M D It is he who continues to be at the forefront of true treatment breakthroughs the latest of which is evidenced in his latest book *Regaining Your Self* Over the last several decades as theories and books circulated and speculated on whether it is perfectionism trauma genetics biology or social pressures of the media that has caused the rapid spread of anorexia bulimia and related disorders Dr Sacker was busy making a breakthrough in identifying the true culprit in eating disorders The Eating Disorder Identity With Eating Disorder Identities victims attach to their disorder and view it as part of who they are ultimately coming to identify with that persona exclusively Sometimes individuals will even name the disease Ana Mia or Ed in order to personify the new identity Just as a musician cannot live without his instruments an eating disorder individual will feel inauthentic and lost if ever they give up their eating disorder contributing to a higher rate of relapse In *Regaining Your Self* Dr Sacker explains the phenomenon of the Eating Disorder Identity and describes why this is the least identified concept in traditional treatment methods yet most detrimental aspect of the disorder Further Sacker explains how in an attempt to substitute their former identity many eating disorder patients adopt their eating disorder as a more acceptable definition of who they are therefore blurring the lines between their disorder and their self Like any thing that is viewed as intrinsic the eating disorder becomes nearly impossible to cut off and turn away from To combat this crisis Sacker lays out his effective program called PIRT or Personal Interaction Rational Therapy which assists families clinicians medical doctors and therapists in identifying the issue of identity the lack of one the disdain for the one they have exhibited by patients and offers them techniques on replacing the eating disorder identity with a new and healthier one the major component in facilitating recovery In addition Dr Sacker created a brand new workbook section exclusively for this paperback edition which offers both interactive and introspective exercises to help treatment professionals and patients successfully execute the bold new approach of *Regaining Your Self* **Recovering the Self,**

Sensing the Self Sheila M. Reindl, 2001

Hearing about the destructive compulsion of bulimia nervosa outsiders may wonder How could you ever start Those suffering from the eating disorder ask themselves in despair How can I ever stop How do you break the cycle of bingeing vomiting laxative abuse and shame While many books describe the descent into eating disorders and the resulting emotional and physical damage this book describes recovery Psychologist Sheila Reindl has listened intently to women s accounts of recovering Reindl argues compellingly that people with bulimia nervosa avoid turning their attention inward to consult their needs desires feelings and aggressive strivings because to do so is to encounter an annihilating sense of shame Disconnected from internal sensed experience bulimic women rely upon external gauges to guide their choices To recover bulimic women need to develop a sense of self to attune to their physical psychic and social self experience They also need to learn that one s neediness desire pain and aggression are not sources of shame to be kept hidden but essential aspects of humanity necessary for zestful life The young women with whom Reindl speaks describe with great feeling their efforts to know and trust their own experience Perceptive lucid and above all humane this book will be welcomed not only by professionals but by people who struggle with an eating disorder and by those who love them *Recovering the Self* Ernest Dempsey, 2010-06-01

The Self on the Shelf Gary Greenberg, 1994-08-04 The Self on the Shelf examines the cultural and philosophical determinants of popular recovery books Greenberg argues that this literature can be read as documents of the prevailing understanding of the self in American society The construction of the self promoted by recovery literature is seen as a nihilistic one insofar as it denies the significance of what continental philosophy calls the Other In this sense the self help books are correct in their assertion that we have lost sight of how to love but their proposed solution shows up as a recapitulation and strengthening of the conditions that gave rise to this situation in the first place Greenberg s critique provides a commentary on the difficulties that face our culture in achieving any sense of meaningful community and on the way that this problem surfaces in a highly popular discourse

The Alcoholic Society Reece McGee, 2017-07-12 Offering a unique theoretical foundation to understanding the lived experience of the active alcoholic Denzin asserts that alcoholism is a disease in which negative emotions divide the self into warring inner factions fueled and distorted by alcoholic intoxication The work is solidly anchored in a long term study of the socialization experiences that began in alcoholism treatment centers and continue in Alcoholics Anonymous recovery programs It covers the treatment process the restructuring of self the alcoholic s interaction with his recovery treatment program and the modalities of self transcendence that result from treatment
