Recruiting People of Color for Teacher Education, 1993 *Proceedings of the National Association for Multicultural Education* Carl A. Grant, 2012-12-06 The National Association for Multicultural Education NAME held its 7th Annual Conference in 1997 with a theme of Daring to Educate for Equity and Excellence A Multicultural and Bilingual Mandate for the 21st Century The conference generated scholarship in the form of keynote speeches and conference papers and stimulating discussions among the membership The conference's southwest location of Albuquerque New Mexico provided an excellent back drop to discuss the interconnections between multicultural education and bilingual education as well as provide an opportunity for proponents of both of these important ideas to engage in useful and important discussions The essays comprised in this book capture much of the written record of the conference They convey ideas beliefs and research findings that were presented at the formal sessions at the conference Just as with NAME's previous proceedings it is expected that these proceedings will become not only a written record of the conference but a live curriculum to help pre K through college educators to prepare themselves and those they teach for the 21st century **After Civil Rights** John D. Skrentny, 2015-11-24 A provocative new approach to race in the workplace What role should racial difference play in the American workplace As a nation we rely on civil rights law to address this question and the monumental Civil Rights Act of 1964 seemingly answered it race must not be a factor in workplace decisions In *After Civil Rights* John Skrentny contends that after decades of mass immigration many employers Democratic and Republican political leaders and advocates have adopted a new strategy to manage race and work Race is now relevant not only in negative cases of discrimination but in more positive ways as well In today's workplace employers routinely practice racial realism where they view race as real as a job qualification Many believe employee racial differences and sometimes immigrant status correspond to unique abilities or evoke desirable reactions from clients or citizens They also see racial diversity as a way to increase workplace dynamism The problem is that when employers see race as useful for organizational effectiveness they are often in violation of civil rights law *After Civil Rights* examines this emerging strategy in a wide range of employment situations including the low skilled sector professional and white collar jobs and entertainment and media In this important book Skrentny urges us to acknowledge the racial realism already occurring and lays out a series of reforms that if enacted would bring the law and lived experience more in line yet still remain respectful of the need to protect the civil rights of all workers Speaking the Unpleasant Rudolfo Chávez Chávez, Rudolfo Chavez Chavez, James O'Donnell, 1998-01-01 Discusses the issue of engagement and nonengagement of students in multicultural education programs **Gifted Students and Inclusion** Sarah Schaffer, 1996 Contains journal articles and excerpts from books published between 1993 and 1996 **Teacher Education: Professionalism, social justice and teacher education** David Hartley, Maurice Whitehead, 2006 **Educating Culturally Responsive Teachers** Ana Maria Villegas, Tamara Lucas, 2002-01-01 Provides a coherent framework for
