Recueil Des Cours Collected Courses Of The Hague Academy Of International Law 2002 Tome 296 De:

Recueil Des Cours, 2007 The author director of the Lauterpacht Center for International Law examines in this course the multilateral rights and obligations in International Law He starts by introducing terms that a priori do not seem to pose any particular problem such as for instance the terms bilateral and multilateral but that on closer inspection deserve to be looked at in more detail He then gives an historical outline of the development of multilateral law making In the next chapter he examines the multilateral treaty as constitution and the United Nation Charter James Crawford then studies the sources of international law as sources of multilateral rights and obligations multilateral rights and obligations as components of general international law and the development of the multilateral categories jus cogens etc In the last chapters Professor Crawford tackles the question of claims for breaches of multilateral obligations and the decriminalization of State responsibility by looking at the peremptory norms and international crimes of State Publisher s description [Recueil Des Cours](#) Hague Academy of International Law, 2003-01-01 The Academy is an institution for the study and teaching of Public and Private International Law and related subjects Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the To access the abstract texts for this volume please click here

Arbitrability Loukas A. Mistelis, 2009-01-01 It often seems today that no dispute is barred from resolution by arbitration Even the fundamental question of whether a dispute falls under the exclusive jurisdiction of a judicial body may itself be arbitrable Arbitrability is thus an elusive concept yet a systematic study of it as this book shows yields innumerable guidelines and insights that are of substantial value to arbitral practice Although the book takes the form of a collection of essays it is designed as a comprehensive commentary on practical issues that emerge from the idea of arbitrability Fifteen leading academics and practitioners from Europe and the United States each explore different facets of arbitrability always with a perspective open to international developments and comparative evaluation of standards The presentation falls into two parts in the first the focus is on the general features of arbitrability its rationale and the laws applicable to it In the second arbitrability is specifically examined in the context of administrative criminal corporate IP financial commercial and criminal law This book has its origins in an International Conference on Arbitrability held at Athens in September 2005 Seven papers presented there are here reviewed and updated and nine others are added The subject of the book and arbitrability and is one that is much talked about but seldom if ever given the in depth treatment presented here Arbitrators and other practitioners in the field will welcome the way the analysis moves logically from theory to practice regarding every issue and academics will recognize a definitive treatment of arbitrability as understood and applied in the settlement of disputes today
