**The Road to Victory** David P. Colley, 2014-06-10 This important contribution to WWII history reveals the trucking convoy manned by unsung black soldiers who helped defeat the Nazis Publishers Weekly After the D Day landings in Normandy Allied forces faced a golden opportunity and a critical challenge They had broken across enemy lines but there was no infrastructure to supply troops as they pushed into Germany The US Army improvised a perilous solution a convoy of trucks marked with red balls that would carry desperately needed ammunition rations and fuel deep into occupied Europe The so called Red Ball Express lasted eighty one days and at its height numbered nearly six thousand trucks The mission risked attacks by the Luftwaffe and German ground forces making it one of the GIs most daring gambits Without the soldiers who successfully executed this operation World War II would have dragged on in Europe at a terrible cost of Allied lives Yet the service of these brave drivers most of whom were African American has been largely overlooked by history The first book length study of the subject The Road to Victory chronicles the exploits of these soldiers in vivid detail It s a story of a fight not only against the Nazis but against an enemy closer to home racism Red Ball Express Pat Ware, 2007 The Red Ball Express was the name given to the massive convoy effort which supplied the Allied armies moving through Europe after D Day Its success was a major factor in the rapid defeat of the German army Some 28 Divisions were advancing across France and Belgium Each division ordinarily required 700 750 tons of supplies per day a total daily consumption of about 20 000 tons To achieve this the Red Ball Express was conceived The name came from a US railway term to Red Ball was to ship goods express The operation lasted only three months from 25 August to 16 November 1944 and was critical in ensuring that the Allied advance did not grind to a halt as a result of lack of supplies At its peak the Red Ball Express utilized some 6 000 vehicles and shipped in excess of 12 000 tons of supplies to forward depots daily Initially the Red Ball Express got bogged down amongst other traffic but quickly two dedicated routes were designated from the beachhead to the city of Chartres From these routes all other traffic was banned and to ensure the smooth operation of the Red Ball Express strict rules were laid down trucks were to travel in convoy each convoy was to comprise no fewer than five trucks each truck had a designated number and position within the convoy there were lead and follow up jeeps to maintain progress the trucks were to stay 60ft apart and travel at 35mph But these rules were more often breached than observed with drivers making unauthorized modifications to the engines of their trucks to increase speed for example and drivers hawking their loads around at the front rather than heading for the main depots In his latest book for Ian Allan Publishing anoted expert on the history of military transport and vehicles Pat Ware examines in detail the history and operation of the Red Ball Express during these critical months when if the supply chain had been broken there was every possibility that the powerful German forces defending Normandy could have driven the Allies back into the sea Concentrating primarily on the 6 000 trucks utilized for the service the book includes some 220 color and black and white images to supplement the authors well informed and detailed
