Reese, 2010-04-01 First published in 1963 this study examines the colony of Georgia's first thirty five years from the perspective of the British Empire Being the last of the thirteen colonies Georgia is well suited for a study on imperial administration because Britain had over a century of experience dealing with the other colonies at the time of its founding This work explores British motives behind the founding of Georgia Indian relations from the context of European wars diplomacy politics and economic development Trevor R Reese presents the early history and settlement of Georgia as a clear example of the objects methods and failings of the old colonial system of the British Empire **This Torrent of Indians** Larry E.
