Red Star Over China:

Red Star Over China Edgar Snow, 1968 The iconic history of the Chinese Communist leaders who forever changed the course of China The first Westerner to meet Mao Tse tung and the Chinese Communist leaders in 1936 Edgar Snow came away with the first authorized account of Mao s life as well as a history of the famous Long March and the men and women who were responsible for the Chinese revolution Out of that experience came Red Star Over China a classic work that remains one of the most important books ever written about the birth of the Communist movement in China This edition includes extensive notes on military and political developments in China further interviews with Mao Tse tung a chronology covering 125 years of Chinese revolution and nearly a hundred detailed biographies of the men and women who were instrumental in making China what it is today *Red Star Over China - The Rise Of The Red Army* Edgar Snow, 2013-04-18 Originally published in 1939 this is both a far reaching history and an eyewitness account of the communist revolution in China Contains a number of excellent historical photographs Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive Hesperides Press are republishing these classic works in affordable high quality modern editions using the original text and artwork Contents Include In Search of Red China The Road To The Red Capital In Defended Peace Genesis of A Communist The Long March Red Star In The North West En Route To The Front With The Red Army With The Red Army War And Peace Back To Pao An White World Again **Red Star Over China** Edgar Snow, 1984-03-01 An historical survey of the ideals and power structure that make up the Chinese Communist movement *Red Star Over China* , 1996 **Summary of Edgar Snow's Red Star over China** Everest Media, 2022-07-07T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Chinese Red Army was a mystery that no one had been able to solve It was a mass of hungry brigands some people said while others claimed that they were fighting for agrarian revolution and against imperialism 2 The Chinese Communists were unlike any other Communists I had ever seen They were not like Stalinists or Trotskyites and they did not read Capital or the works of Lenin They were not internationalists but nationalists who were struggling for an independent China 3 The Chinese Communist movement was a fascinating story that was difficult to understand It was a story of China and it was difficult to get information about it 4 I decided to try and enter Red territory in 1936 I had little to cheer me on my way other than a letter of introduction to Mao Tse tung chairman of the Soviet Government I had to find him **Red Star Over China, by Edgar Snow ...** Edgar Snow, 1944 **Red Star Over China** Edgar Snow, 1944 [How the "Red Star" Rose](#) Ishikawa Yoshihiro, 2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Start over China all alone is in many instances misunderstood even by scholars Mao Zedong s biography has been the subject of an international mountain of commentary in China and elsewhere Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow s 1905 1972 account in Red Star over China for the route Mao traveled

from early childhood through his youth How the Red Star Rose introduces the image of Mao and the biographical information made known to the world through the publication of Red Star and with its publication the circumstances which they fundamentally undermined Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being He desires to help readers to reconsider the historicity of the generation of not only Mao s image but of that of historical materials With a title that evokes Gao Hua s seminal study of Mao Zedong s rise in the Chinese Communist Party Ishikawa Yoshihiro asks two critical questions What did the world know of Mao before the publication of Edgar Snow s Red Star over China How did Red Star change that understanding With the meticulous research careful documentation and fair minded judgment that characterizes all of Ishikawa s work he shows how little even Moscow and the Communist International knew about Mao before 1936 This study is full of unexpected insights into the origins of early visual images of Mao the background to Snow s historic trip to northern Shaanxi and the evolution of the classic study that he left In a world where balanced judgment of the rise of Mao is increasingly difficult to find Ishikawa s scholarship stands out as a rare model of judicious balance Joseph W Esherick Emeritus Professor Hwei chih and Julia Hsiu Chair in Chinese Studies University of California San Diego This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter Ishikawa captures a moment of a past gearing up in anticipation of a future that never came This book is a must read for all with an interest in Mao journalism and the history of books Wen hsin Yeh Richard H and Laurie C Morrison Chair Professor in History University of California Berkeley Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow s famous biography in 1936 and then how Snow s images of Mao were translated and transmuted into Chinese Russian and Japanese Joshua Fogel s careful translation brings this impeccable example of Japanese sinology to the English reading public Timothy Cheek Professor and Louis Cha Chair in Chinese Research University of British Columbia

Going to the Countryside Yu Zhang, 2020-03-03 Since the beginning of the twentieth century modern Chinese intellectuals reformers revolutionaries leftist journalists and idealistic youth had often crossed the increasing gap between the city and the countryside which made the act of going to the countryside a distinctively modern experience and a continuous practice in China Such a spatial crossing eventually culminated in the socialist state program of down to the villages movements during the 1960s and 1970s What then was the special significance of going to the countryside before that era Going to the Countryside deals with the cultural representations and practices of this practice between 1915 and

1965 focusing on individual homecoming rural reconstruction revolutionary journeys to Yan an the revolutionary going down to the people as well as going to the frontiers and rural hometowns for socialist construction As part of the larger discourses of enlightenment revolution and socialist industrialization going to the countryside entailed new ways of looking at the world and ordinary people brought about new experiences of space and time initiated new means of human communication and interaction generated new forms of cultural production revealed a fundamental epistemic shift in modern China and ultimately created a new aesthetic social and political landscape As a critical response to the urban turn in the past few decades this book brings the rural back to the central concern of Chinese cultural studies and aims to bridge the city and the countryside as two types of important geographical entities which have often remained as disparate scholarly subjects of inquiry in the current state of China studies Chinese modernity has been characterized by a dual process that created problems from the vast gap between the city and the countryside but simultaneously initiated constant efforts to cope with the gap personally collectively and institutionally The process of crossing two distinct geographical spaces was often presented as continuous explorations of various ways of establishing the connectivity interaction and relationship of these two imagined geographical entities Going to the Countryside argues that this new body of cultural productions did not merely turn the rural into a constantly changing representational space most importantly the rural has been constructed as a distinct modern experiential and aesthetic realm characterized by revolutionary changes in human conceptions and sentiments

Journalist Robert M. Farnsworth,1996 Beginning with Snow's youthful ambition to travel the globe and concluding with his notable if unobtrusive role in the reestablishment of diplomatic ties between America and China Farnsworth weaves a spellbinding narrative Snow's adventure in Asia began in Yokohama where he landed as a stowaway from Hawaii Then just steps ahead of Japanese port police he made his way to China where he soon empathized with the suffering of the Chinese people and became curious about the role Communism might play in the rebellion against colonialism As he traveled

throughout the continent during the next thirteen years Snow established contacts with many important people and won extraordinary personal access to the leaders of the Chinese Communist Party In 1936 he became the first Western journalist to visit the Chinese Red forces and report on a detailed interview with Mao Tse tung after the completion of the epic Long March

Stalin, Japan, and the Struggle for Supremacy over China, 1894-1945 Hiroaki Kuromiya, 2022-12-27 Stalin was a master of deception disinformation and camouflage by means of which he gained supremacy over China and defeated imperialism on Chinese soil This book examines Stalin s covert operations in his hunt for supremacy By the late 1920s Britain had ceded place to Japan as Stalin s main enemy in Asia By seducing Japan deeply into China Stalin successfully turned Japan s aggression into a weapon of its own destruction The book examines Stalin s covert operations from the murder of the Manchurian warlord Zhang Zuolin in 1928 and the publication of the forged Tanaka Memorial in 1929 to Stalin s hidden role in Japan s invasion of Manchuria in 1931 the outbreak of all out war between China and Japan in 1937 and Japan s defeat in 1945 In the shadow of these and other events we find Stalin and his secret operatives including many Chinese and Japanese collaborators most notably Zhang Xueliang and K moto Daisaku the self professed assassin of Zhang Zuolin The book challenges accounts of the turbulent history of inter war East Asia that have ignored or minimized Stalin s presence and instead exposes and analyzes Stalin s secret modus operandi modernized as hybrid war in today s Russia The book is essential for students and specialists of Stalin China the Soviet Union Japan and East Asia

The Long March 1934-35 Benjamin Lai, 2019-09-19 This study tells the epic story of how a routed group of Chinese Communists marched tens of thousands of miles with Mao on a journey that would lead to their eventual triumph and rule of the whole of China Every nation has its founding myth and for modern China it is the Long March In the autumn of 1934 the Chinese Nationalists under Chiang Kai shek routed the Chinese Communists and some 80 000 men women and children left their homes to walk with Mao Zedong into the unknown Mao s force had to endure starvation harsh climates and challenging terrain whilst under constant aerial bombardment and threatened by daily skirmishes The Long March survivors had to cross 24 rivers and 18 mountain ranges through freezing snow and disease ridden wilderness to reach their safe haven of Yan an In military terms the Long March was the longest continuous march in the history of warfare and it came at a terrible cost after one year 6 000 miles and countless battles fewer than 4 000 of the original marchers were left Illustrated with stunning full colour artwork this enthralling book tells the full story this epic display of resilience and shows how from the desert plateau of Yan an these survivors would grow the army that conquered China 14 years on changing history forever

A Century of Student Movements in China Xiaobing Li, Qiang Fang, 2019-12-02 In this book the authors offer their unique perspectives on the important roles Chinese students and intellectuals played in the shaping of the twentieth century China Their answers to these pivotal questions explore new nationalistic spirit modern world views and willingness of self sacrifice which had attributed to the spontaneous actions of the students as a New Culture emerged during the May Fourth Movement These

articles show how China nurtured these spontaneous student movements even though the Nationalist Party in the Republic of China and the Communist Party in the People's Republic had exerted tight control over schools. Both governments established organizations as well as operations among students that effectively turned some of the student movements into a political instrument by the parties for their own agenda.
