What is Literature? Arthur Gibson, 2007 The answer to the question what is literature has not been found This is the first book length attempt to find the answer by one author since Sartre in his 1948 book with the same title The book addresses issues such as how does literature speak to the world what is great writing what is originality what sorts of truths are there if any in creative writing The book uses hundreds of literary examples and confronts them with philosophy The book also explores some big questions about the meaning of life and sets them against a range of literature It asks questions like how does great science relate to literature The book advances the concept of counter intuition as part of the basis for answering the question what is literature The book is also concerned with practical matters such as the ways literature is involved with war corruption rights suffering and hope *Red Dreams* Bob Biderman, 2011 Set in the political turmoil of McCarthy s

America a young man searches for his father gone into hiding to escape the witch hunts Culture Wars Roger Chapman, 2010 Although openness and inclusion are cornerstones of life in the United States intolerance and reactionary politics are also very real As the nation prepares to elect a new president The Culture Wars addresses the key defining issues of contemporar Music in the Age of Anxiety James Wierzbicki, 2016-04-30 Derided for its conformity and consumerism

1950s America paid a price in anxiety Prosperity existed under the shadow of a mushroom cloud Optimism wore a Bucky Beaver smile that masked worry over threats at home and abroad But even dread could not quell the revolutionary changes taking place in virtually every form of mainstream music Music historian James Wierzbicki sheds light on how the Fifties pervasive moods affected its sounds Moving across genres established pop country opera and transfigured experimental rock jazz Wierzbicki delves into the social dynamics that caused forms to emerge or recede thrive or fade away Red scares and white flight sexual politics and racial tensions technological progress and demographic upheaval the influence of each rooted the music of this volatile period to its specific place and time Yet Wierzbicki also reveals the host of underlying connections linking that most apprehensive of times to our own uneasy present **Cults Like Us** Jane Borden, 2025-03-25 For readers of

Fantasyland and Cultish a colorful and enlightening pop history that explains why the eccentric doomsday beliefs of our Puritan founders are still driving American culture today contextualizes the current rise in far right extremism as a natural result of our latent indoctrination and proposes that the United States is the largest cult of all Since the Mayflower sidled up to Plymouth Rock cult ideology has been ingrained in the DNA of the United States In this eye opening book journalist Jane Borden argues that Puritan doomsday belief never went away it went secular and became American culture From our

fascination with cowboys and superheroes to our allegiance to influencers and self help susceptibility to advertising and undying devotion to the self made man Americans remain particularly vulnerable to a specific brand of cult like thinking With in depth research and compelling insight Borden uncovers the American history you didn t learn in school including how we are still being brainwashed making us a nation of easy marks for con artists and strong men Along the way she also revisits some of the most fascinating cults in this country including the Mankind United and Love Has Won presenting them as integral parts of our national psyche rather than aberrations Bulletin of the Public Library of the City of Boston Boston Public Library,1920 **Red Diapers** Judy Kaplan,Linn Shapiro,1998 Red Diapers is the first anthology of autobiographical

writings by the children of American communists These memoirs short stories and poems reflect the joys and perils of growing up in a subculture defined by its opposition to some of society s most deeply held values How red diaper babies have come to terms with their political inheritance is the theme of this compelling anthology Some contributors have fond memories of family activism others recall the past with ambivalence or even pain The authors range in age from their twenties to their eighties Some such as Watergate reporter Carl Bernstein and sixties activist Bettina Aptheker are widely known themselves some are the children of well known American leftists including Jeff Lawson son of blacklisted screenwriter John Howard Lawson and Robert Meeropol son of Ethel and Julius Rosenberg In disparate voices the contributors elaborate on how their parents attempted to pass on to them the torch of radical politics **The Nation** ,1901

Congressional Record United States. Congress,1996 **Authoritarian Populism and the Rural World** Ian Scoones,Marc Edelman,Saturnino M. Borrás Jr.,Lyda Fernanda Forero,Ruth Hall,Wendy Wolford,Ben White,2021-06-29 The rise of authoritarian nationalist forms of populism and the implications for rural actors and settings is one of the most crucial foci for critical agrarian studies today with many consequences for political action Authoritarian Populism and the Rural World reflects on the rural origins and consequences of the emergence of authoritarian and populist leaders across the world as well as on the rise of multi class mobilisation and resistance alongside wider counter movements and alternative practices which together confront authoritarianism and nationalist populism The book includes 20 chapters written by contributors to the Emancipatory Rural Politics Initiative ERPI a global network of academics and activists committed to both reflective analysis and political engagement Debates about populism nationalism authoritarianism and more have exploded recently but relatively little of this has focused on the rural dimensions Yet wherever one looks the rural aspects are key not just in electoral calculus but in understanding underlying drivers of authoritarianism and populism and potential counter movements to these Whether because of land grabs voracious extractivism infrastructural neglect or lack of services rural peoples disillusionment with the status quo has had deeply troubling consequences and occasionally hopeful ones as the chapters in this book show The chapters in this book were originally published in The Journal of Peasant Studies **The Movie Guide** James Monaco,1992 From The Big Sleep to Babette s Feast from Lawrence of Arabia to Drugstore Cowboy The

Movie Guide offers the inside word on 3 500 of the best motion pictures ever made James Monaco is the president and founder of BASELINE the world s leading supplier of information to the film and television industries Among his previous books are The Encyclopedia of Film American Film Now and How to Read a Film **Encyclopedia of American Short Films, 1926-1959** Graham Webb,2020-07-27 Short subject films have a long history in American cinemas These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon a newsreel possibly a serial and a short before launching into the feature film Shorts could tackle any topic of interest an unusual travelogue a comedy musical revues sports nature or popular vaudeville acts With the advent of sound on film in the mid to late 1920s makers of earlier silent short subjects began experimenting with the short films using them as a testing ground for the use of sound in feature movies After the Second World War and the rising popularity of television short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s **The American** Robert Ellis Thompson,Wharton Barker,1889 **The Sounds and Smells of My Childhood** Mike McCarthy,2017-04-05 The Sounds and Smells of My Childhood Part II invites the reader to pause and remember the times of their own youth Like the first book it is a nostalgic journey with fond memories tremendous humor and laughter and at times tears But the author always shares the beauty of the Sault the lovely St Mary s river and the grandeur and power of Lake Superior as well as the pride and resilience of its people Sault Sainte Marie has a unique historic significance in the state of Michigan and the author shares that importance Enjoy once again your own youth as you allow yourself to go back to a simpler time as you recall the sounds and smells of your own childhood **Auto Mania** Tom McCarthy,2007-01-01 The twentieth century American experience with the automobile has much to tell us about the relationship between consumer capitalism and the environment Tom McCarthy contends In Auto Mania he presents the first environmental history of the automobile that shows how consumer desire and manufacturer decisions created impacts across the product lifecycle from raw material extraction to manufacturing to consumer use to disposal From the provocative public antics of young millionaires who owned the first cars early in the twentieth century to the SUV craze of the 1990s Auto Mania explores developments that touched the environment Along the way McCarthy examines how Henry Ford s fetish for waste reduction tempered the environmental impacts of Model T mass production how Elvis Presley s widely shared postwar desire for Cadillacs made matters worse how the 1970s energy crisis hurt small cars and why baby boomers ignored worries about global warming McCarthy shows that problems were recognized early The difficulty was addressing them a matter less of doing scientific research and educating the public than implementing solutions through America s market economy and democratic government Consumer and producer interests have rarely aligned in helpful ways and automakers and consumers have made powerful opponents of regulation The result has been a mixed record of environmental reform with troubling prospects for the future *Cultures*
