Resonances: Neurobiology, Evolution and Theology Markus Mühling, 2014-09-17 Markus Mühling presents an epistemological theory of revelation as perception and a relational narrative theological ontology based on the concept of dramatic coherence in which the triune life is understood not as an anomaly within ontology but rather as the decisive condition of its possibility Mühling further demonstrates that potential for resolving certain theological problems arises if new insights from the natural sciences such as the theory of the ecological brain in the neurosciences and the theory of niche construction in evolutionary theory are taken into account Similarly he also proposes that neuroscience and evolutionary biology can procure advantages from a dialogue with theology *By what Authority?* Richard R. Gaillardetz, 2003 Authority is exercised in many ways and forms in the Catholic Church today By What Authority offers a helpful introduction to the forms of Church authority that are concerned with authentic Christian belief Gaillardetz's book explains what it means to say that the Bible is inspired how Scripture and tradition are related to one another the role of the Pope and bishops in preserving the Christian faith the levels of Church teaching authority how to deal with disagreements with Church teaching the distinctive role of the theologians and the contribution of all the baptized in the formation of Church teaching This book introduces readers to a basic understanding of the nature and exercise of authority in the Catholic Church as understood within the Vision of the Church offered by the Second Vatican Council The chapters conclude by outlining disputed issues regarding the topic of that chapter and a select list of opportunities for further reading Chapters in Part One The Authority of Scripture and Tradition are What Does It Mean to Say the Bible is Inspired What Is the Canon of the Bible and What Is the Relationship Between Scripture and Tradition Chapters in Part Two The Authority of Church Teaching and the Church's

in Theology,2023-06-22 People of faith ask the question what does it mean to be religious There are so many religions or philosophies which make it hard to choose the right one even if that is possible Thus selecting the right religion takes a person to perform research and obtain knowledge to determine what it means to be a genuinely religious person and what faith in God through religion means There are three parts of this book to help enlighten your thoughts about understanding religion and spiritual faith The book examined humankind s minds and choices made under different influences or choices and without being influenced As human beings we are influenced to make choices that might be right or might be wrong that can be helpful in some ways or harmful in others This book aims to see how the mine materialized and the pushing factors that assist our decision making **Christian Theology** Alister E. DeHoff,2018-02-13 This book presents a new paradigm for distinguishing psychotic and mystical religious experiences In order to explore how Presbyterian pastors differentiate such events Susan L DeHoff draws from Reformed theology psychological theory and robust qualitative research Following a conversation among multidisciplinary voices she presents a new paradigm

considering the similarities differences and possible overlap of psychotic and mystical religious experiences **The Entangled Trinity** Ernest L. Simmons,2014 The Doctrine of the Trinity is an exercise in wonder It is drawn from the wonder of our own existence and the diverse experiences of the divine encountered by the early Christian community From the earliest days of Christianity theologians of the church have drawn upon the most sophisticated language and understandings of their time in an attempt to clarify and express that faith In this volume Ernest Simmons ssks what the current scientific understanding of the natural world might contribute to our reflection upon the relationship of God and the world in a Triune fashion Elasticized Ecclesiology Ulrich Schmiedel,2017-01-17 This study confronts the current crisis of churches In critical and creative conversation with the German theologian Ernst Troeltsch 1865 1923 Ulrich Schmiedel argues that churches need to be elasticized in order to engage the other Examining contested concepts of religiosity community and identity Schmiedel explores how the closure of church against the sociological other corresponds to the closure of church against the theological other Taking trust as a central category he advocates for a turn in the interpretation of Christianity from propositional possession to performative project so that the identity of Christianity is done rather than described Through explorations of classical and contemporary scholarship in philosophy sociology and theology Schmiedel retrieves Troeltsch s interdisciplinary thinking for use in relation to the controversies that encircle the construction of community today The study opens up innovative and instructive approaches to the investigation of the practices of Christianity past and present Eventually church emerges as a work in movement continually constituted through encounters with the sociological and the theological other **The Millennial Harbinger Abridged** ,1902 *Transcendence* Margaret Scotford Archer,Andrew Collier,Douglas V. Porpora,2004 The book explores religious experience as a justifiable reason for religious belief demonstrating that the three pillars of Critical Realism ontological intransitivity epistemic relativity and judgemental rationality can be applied to religion **Suffering and the Vulnerable Rule of God** Kathleen McManus, OP,2022-04-25 How is the reign of God revealed through the suffering experience of women and the marginalized That is the question Kathleen McManus seeks to answer She employs the Lukan image of the bent over woman standing up straight as the paradigm for all who are marginalized because of gender sexual orientation or race Her viewpoint arises from encounters with individuals and communities who suffer exclusion negation diminishment and violence in relation to a patriarchal church in a still patriarchal world Engaging Edward Schillebeeckx s method of negative contrast experience McManus explores what may be known in the space of encounter between the institutional church and these suffering others and draws out latent possibilities for mutual conversion and transformation She reflects on the meaning of Schillebeeckx s insight into the superior power of God s defenseless vulnerability in creation and on the cross and asks what it might mean for the church to embody the vulnerable rule of God in its own structures doctrines symbols and rituals *The God Debates* John R. Shook,2011-08-02 The God Debates presents a comprehensive non technical survey of the quest for knowledge of God

allowing readers to participate in a debate about the existence of God and gain understanding and appreciation of religion s conceptual foundations Explains key arguments for and against God s existence in clear ways for readers at all levels Brings theological debates up to the present with current ideas from modernism postmodernism fideism evidentialism presuppositionalism and mysticism Updates criticism of theology by dealing with the latest terms of the God debates instead of outdated caricatures of religion Helps nonbelievers to learn important theological standpoints while noting their shortcomings Encourages believers and nonbelievers to enjoy informed dialogue with each other Concludes with an overview of religious and nonreligious worldviews and predictions about the future of faith and reason *Staying Alive* Jason K.

Swedene,2009-09-09 *Staying Alive* explores the desire to live forever which manifests itself in many forms and forums Many throughout history have measured their self worth by the metric of how they will stay alive one wants fame another needs children One wants to leave behind a personalized legacy another wants to leave behind the world and enjoy the bliss of heaven The author s self expressed aim has been simply to write a readable book that will afford the reader an increased sensitivity to the many ways the desire for immortality has shaped history philosophy art and literature The thought that this analysis of human longing and culture provokes transcends any one way of approaching these disciplines It searches for and connects deeply personal pursuits with greater collective trends **Locke's Religious Epistemology and Its Critics**

Nathan Rockwood,2025-10-21 This book offers a sustained defense of Locke s religious epistemology It puts Locke into conversation with leading figures in contemporary religious epistemology and shows that Locke s views are more plausible than many philosophers of religion and epistemologists realize Locke has become the villain in contemporary religious epistemology In recent years Locke has often been singled out and criticized for insisting that religious belief requires evidence and for failing to provide adequate evidence that would support rational belief in God and Christianity This book defends a broadly Lockean religious epistemology The author argues that we need evidence for religion and that there is good evidence supporting belief in God and Christianity He discusses Locke s views on the evidence from natural theology religious experience the testimony of miracles and scripture In each chapter the author contrasts Locke s view on a type of evidence with one of his critics Michael Bergmann David Hume Alvin Plantinga Richard Swinburne and Linda Zagzebski At the end of each chapter the author shows how a Bayesian analysis of evidence can support Locke s evidence for religious belief specifically a belief in Christianity This defense of Locke s position shows how his religious epistemology continues to be relevant in contemporary debates *Locke's Religious Epistemology and Its Critics* is a historically informed contribution to religious epistemology It will appeal to researchers and graduate students working in epistemology philosophy of religion and history of philosophy **The Church Quarterly Review** ,1924 *Building Bridges Not Walls* Peter Bold,2020-05-15
