Commission on Coal United States. President's Commission on Coal, 1978 **Presidential Travel** Richard J. Ellis, 2008-04-22 In office less than half a year President George Washington undertook an arduous month long tour of New England to promote his new government and to dispel fears of monarchy More than two hundred years later American presidents still regularly traverse the country to advance their political goals and demonstrate their connection to the people In this first book length study of the history of presidential travel Richard Ellis explores how travel has reflected and shaped the changing relationship between American presidents and the American people Tracing the evolution of the president from First Citizen to First Celebrity he spins a lively narrative that details what happens when our leaders hit the road to meet the

people Presidents Ellis shows have long placed travel at the service of politics Rutherford the Rover Hayes visited thirty states and six territories and was the first president to reach the Pacific while William Howard Taft logged an average of 30 000 rail miles a year Unearthing previously untold stories of our peripatetic presidents Ellis also reveals when the public started paying for presidential travel why nineteenth century presidents never left the country and why earlier presidents such as Andrew Jackson once punched in the nose on a riverboat journeyed without protection Ellis marks the fine line between accessibility and safety from John Quincy Adams skinny dipping in the Potomac to George W clearing brush in Crawford Particularly important Ellis notes is the advent of air travel While presidents now travel more widely they have paradoxically become more remote from the people as Air Force One flies over towns through which presidential trains once rumbled to rousing cheers Designed to close the gap between president and people travel now dramatizes the distance that separates the president from the people and reinforces the image of a regal presidency As entertaining as it is informative Ellis s book is a sprightly account that takes readers along on presidential jaunts through the years as our leaders press flesh and kiss babies ride carriages and trains plot strategies on board ships and planes and try to connect with the citizens they represent Paving the Way for Madam President Nichola D. Gutgold,2006-01-01 This book chronicles the lives communication styles and presidential bids of five remarkable women_Margaret Chase Smith Shirley Chisholm Patricia Schroeder Elizabeth Dole and Carol Moseley Braun_while also addressing the obstacles and opportunities for women as presidential contenders
