It will soothe your soul. An excellent, readable, bright guide to the night sky. Dara O Briain. A superb introduction to astronomy. Chris Packham. **Star-land** Robert Stawell Ball, 1889. **Chicago Daily News Almanac**, 1917. **Philippine Education Magazine**, 1906. **The Christian Sky** Mark Edward Dodson, 2004. Why live under a pagan sky? For thousands of years humankind has dwelled under a dome of stars that have been grouped and identified according to ancient superstitions. Today the official star constellations pay homage to the pagan gods and goddesses of a dark and chaotic world, a world before Christ, and yet these are the constellations that scouting groups and school children all around the world have been encouraged to learn for hundreds of years. Now for the first time the sky has been mapped in accordance with easy-to-find star patterns that tell the stories of the Christian faith. No telescope required. No sophisticated instruments needed. After presenting a few simple but very effective techniques for finding your way through the sky at night, the author takes you on a tour of the Christian constellations. Using new constellations inspired by stories from the Bible, you will be able to locate stars, planets, star clusters and galaxies during any time of the night and at any time of the year. If you have ever wanted to know more about God's grandest creation but have never felt comfortable learning about ancient pagan idols, then this book will provide you with a healthy fresh start. *The Midnight Sky* Edwin Dunkin, 1891.
