Arthurian Intertextualities Fiona Tolhurst,K.S. Whetter,2025-09-02 Readers encountering the Middle English Arthurian tradition are confronted by three texts with confusingly similar titles an anonymous poem in alliterative verse called Morte Arthure an anonymous poem in eight line stanzas entitled Le Morte Arthur and Sir Thomas Malory s influential prose Arthuriad LeMorte Darthur sic To add to the confusion Malory made use of both English poems to augment his French sources in composing his Morte Darthur so specialists often speak of two or more of these English Mortes in the same breath Yet each Morte poem deserves to be studied on its own merits Arthurian Intertextualities offers new readings of Malory s Morte as well as the two English poems that most influenced him Tolhurst and Whetter situate Malory s Arthur story in the context of fourteenth and fifteenth century England Combining these contexts with intertextual analysis of scenes and characters from Le Morte Darthur and both sources the authors illustrate the full extent of Malory s debt to these two English poems while making a stronger case for Malory s artistry and the stanzaic poet s artistry than previous scholarship has acknowledged These new readings demand a reassessment of Arthurian women kingship and warfare and heroism including reconsidering the alliterative poet s attitude to war and to Arthur as conqueror The authors also offer a spirited defense of Malory s Guenevere who remains frequently maligned by scholars and argue for Palomydes s acceptance by his Round Table Fellowship Arthurian Intertextualities will appeal to readers who are interested in the book that serves as the source for most of the Arthuriana whether novels plays works of art or films in today s world Le Morte Darthur

Magic and Magicians in the Middle Ages and the Early Modern Time Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic astrology necromancy medicine and even sciences in the pre modern world Under the umbrella term magic the contributors to this volume examine a wide range of texts both literary and religious both medical and philosophical in which the topic is discussed from many different perspectives The fundamental concerns address issue such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large
