The Merging of Two Worlds Roy E. Bourque, 2011-09 Science is a left brained subject It sees the world in mathematical models It is all built on logic Religion is a right brained subject It sees the world in associations It is all built on symbolism Misconceptions are what prevent us from reconciling the associations with the mathematical models Once the misconceptions are revealed the problem goes away The teachings of Eastern Philosophy are interwoven throughout the Old and New Testaments What they have to say explains a great deal about what the Holy Bible is trying to say to us It reveals much of the symbolism used in religion so that it can be understood It takes you beyond the realm of faith and into the realm of knowing The Mayan Calendar and its apparent connection to end time prophecy is also reviewed The evolution of consciousness that it reveals is leading us on a very definite path Taken collectively evolution split brain Eastern Philosophy Christianity and the Mayan Calendar are interwoven to present a worldview that is equally fascinating and very promising

Two-World Literature Rebecca Suter, 2020-05-31 In this study Rebecca Suter aims to complicate our understanding of world literature by examining the creative and critical deployment of cultural stereotypes in the early novels of Kazuo Ishiguro World literature has come under increasing scrutiny in recent years Aamir Mufti called it the result of one world thinking the legacy of an imperial system of cultural mapping from a unified perspective Suter views Ishiguro s fiction as an important alternative to this paradigm Born in Japan raised in the United Kingdom and translated into a broad range of languages Ishiguro has throughout his career consciously used his multiple cultural positioning to produce texts that look at broad human concerns in a significantly

different way Through a close reading of his early narrative strategies Suter explains how Ishiguro has been able to create a two world literature that addresses universal human concerns and avoids the pitfalls of the single Western centric perspective of one world vision Setting his first two novels *A Pale View of Hills* 1982 and *An Artist of the Floating World* 1986 in a Japan explicitly used as a metaphor enabled Ishiguro to parody and subvert Western stereotypes about Japan and by extension challenge the universality of Western values This subversion was amplified in his third novel *The Remains of the Day* 1989 which is perfectly legible through both English and Japanese cultural paradigms Building on this subversion of stereotypes Ishiguro s early work investigates the complex relationship between social conditioning and agency showing how characters behavior is related to their cultural heritage but cannot be reduced to it This approach lies at the core of the author s compelling portrayal of human experience in more recent works such as *Never Let Me Go* 2005 and *The Buried Giant* 2015 which earned Ishiguro a global audience and a Nobel Prize Deprived of the easy explanations of one world thinking readers of Ishiguro s two world literature are forced to appreciate the complexity of the interrelation of individual and collective identity personal and historical memory and influence and agency to gain a more nuanced two world appreciation of human experience

T. S. Eliot Between Two Worlds David Ward, 2015-12-22 The basis of this critical examination of Eliot s work first published in 1973 is the investigation of his transmutation of this and other philosophical mythological and religious motives into the textures of his verse This book focuses on Eliot s peculiar eclectic approach to what he described as the Tradition It also recognises the fact that Eliot for all his attempts at universality was a product of time and place and gives an account of the way in which his education and experience shaped his most important interests This title will be of interest to students of literature

Everything You Know about Indians is Wrong Paul Chaat Smith, 2009 In this sweeping work of memoir and commentary, leading cultural critic Paul Chaat Smith illustrates with dry wit and brutal honesty the contradictions of life in the Indian business. Raised in suburban Maryland and Oklahoma, Smith dove head first into the political radicalism of the 1970s, working with the American Indian Movement until it dissolved into dysfunction and infighting. Afterward, he lived in New York, the city of choice for political exiles, and eventually arrived in Washington, D.C., at the newly minted National Museum of the American Indian, a bad idea whose time has come as a curator. In his journey from fighting activist to federal employee, Smith tells us he has discovered at least two things: there is no one true representation of the American Indian experience, and even the best of intentions sometimes ends in catastrophe. *Everything You Know about Indians Is Wrong* is a highly entertaining and at times searing critique of the deeply disputed role of American Indians in the United States. In *A Place Called Irony*, Smith whizzes through his early life

showing us the ironic pop culture signposts that marked this Native American's coming of age in suburbia We would order Chinese food and slap a favorite video into the machine the Grammy Awards or a Reagan press conference and argue about Cyndi Lauper or who should coach the Knicks In *Lost in Translation* Smith explores why American Indians are so often misunderstood and misrepresented in today's media We're lousy television In *Every Picture Tells a Story* Smith remembers his Comanche grandfather as he muses on the images of American Indians as a half-remembered presence both comforting and dangerous lurking just below the surface Smith walks this tightrope between comforting and dangerous offering unrepentant skepticism and ultimately empathy This book is called *Everything You Know about Indians Is Wrong* but it's a book title folks not to be taken literally Of course I don't mean everything just most things And you really means we as in all of us

Between Two Worlds László Török, 2009 The Egyptological literature usually belittles or ignores the political and intellectual initiative and success of the Nubian Twenty-Fifth Dynasty in the reunification of Egypt while students of Nubian history frequently ignore or misunderstand the impact of Egyptian ideas on the cultural developments in pre and post Twenty-Fifth Dynasty Nubia This book reassesses the textual and archaeological evidence concerning the interaction between Egypt and the polities emerging in Upper Nubia between the Late Neolithic period and 500 AD The investigation is carried out however from the special viewpoint of the political social economic religious and cultural history of the frontier region between Egypt and Nubia and not from the traditional viewpoint of the direct interaction between Egypt and the successive Nubian kingdoms of Kerma Napata and Meroe The result is a new picture of the bipolar acculturation processes occurring in the frontier region of Lower Nubia in particular and in the Upper Nubian centres in general The much debated issue of social and cultural Egyptianization is also reassessed
