Entrepreneurship in Spain Juan Manuel Matés-Barco,Leonardo Caruana de las Cagigas,2020-12-28 The figure of the entrepreneur has become a relevant factor that explains the process of growth and economic development Rising unemployment rates have generated among institutional and private agents a significant interest in promoting entrepreneurship as a formula to eradicate this social scourge of unemployment Active policies that favor business culture and initiative are being promoted in all areas In the university world academic research has multiplied the work on entrepreneurship a term that includes a triple meaning the figure of the entrepreneur the business function and the creation of companies This versatile meaning must be based on a consistent theory about the company and the entrepreneur This book presents specific cases of companies and entrepreneurs that have had their role throughout the history of Spain The intention is to show the techniques and learning acquired by those agents which have allowed a considerable advance in the knowledge of the structure and business development This book brings together the research carried out by its authors with primary sources and makes it accessible to a wide audience Spanish and Latin American and will be of value to researchers academics and students with an interest in Spanish entrepreneurship business and management history **A Practical Spanish Grammar with Exercises and Themes** Eugene West Manning,1891 Cosas de España Mrs. Wm. Pitt Byrne,1866 *iVino!* Karl J. Trybus,2023-10 *Vino* explores the history and identity of Spanish wine production from the mid nineteenth century to today Nineteenth century infestations of oidium fungus and phylloxera aphids devastated French and

Italian vineyards but didn't extend to the Iberian Peninsula at first giving Spanish vintners the opportunity to increase their international sales. Once French and Italian wineries rebounded however Spanish wine producers had to up their game. Spain could not produce only table wine; it needed a quality product to compete with the supposedly superior French wines. After the Spanish Civil War, the totalitarian Franco regime turned its attention to Spain's devastated agricultural sector, but the country's wine industry did not rebound until well after World War II. In the postwar years it rebranded itself to compete in a more integrated European and international marketplace with the creation of a new wine identity. As European integration continued, Spanish wine producers and the tourism industry worked together to promote the uniqueness of Spain and the quality of its wines. Karl J. Trybus explores the development of Spanish wine in the context of national and global events, tracing how the wine industry has fared and ultimately prospered despite civil war, regional concerns, foreign problems, and changing tastes. **Gourmetour**, 2008. *Companies and Entrepreneurs in the History of Spain* María

Vázquez-Fariñas, Pedro Pablo Ortúñez-Goicolea, Mariano Castro-Valdivia, 2021-02-15. This book analyses the economic history of the company and entrepreneurship in Spain from the 15th century to the present. It evaluates the economic theory, the formation of the figure of the entrepreneur, as well as the structure of the companies. This exploration of the businessmen in Spain over several centuries is something that has not been done until now. Joining the great Spanish historiographical debate about the existence or not of entrepreneurship, the book brings together research in very different historical contexts and junctures. It presents a selection of cases of companies and entrepreneurs from Spain from different sectors, regions, and periods, from boom to crisis, from the wine businessman to the railway sector, from private banking to the pioneers of the Spanish travel agency business. It will be of interest to academics and students in economic history, business, and management history, as well as researchers in entrepreneurship, small business management.
