E. Braathen, M. Bøås, G. Saether

Losing Mogadishu Testing U S Policy In Somalia:

Losing Mogadishu Jonathan Stevenson, 1995 To determine the causes of Operation Restore Hope's ultimate failure a journalist who reported on Somalia in 1992 and 1993 examines U S involvement there from the Cold War through the country's civil war and famine to the present Part reportage part analysis Jonathan Stevenson's book aims both to inform and to provoke opinion His dissection of the operation's disappointing results and his suggestions about how American efforts might have been more effective should stimulate pointed discussion at a time when the Congress is shying away from humanitarian and military commitments overseas Battle Of Mogadishu: Anatomy Of A Failure Major Roger N.

Sangvic, 2015-11-06 By applying Cohen and Gooch's model to the Battle of Mogadishu this paper shows that the failure of the TFR mission on 3-4 October 1993 was the result of a system failure Secretary Aspin received far more blame than he deserved for making the decision Misperception of the real impact tanks and APCs could have had on the overall mission is the real cause of this disproportionate blame GEN Hoar and GEN Powell in addition bear as much responsibility as Secretary Aspin for the decision Neither of these generals strongly advocated the deployment to Aspin even though the worsening situation on the ground merited their strong support Both Hoar and Powell's approval recommendations can be characterized as lukewarm Aspin's real failure was of not being more critical of the conduct of the TFR operations In light of Secretary Aspin's acknowledged concern over the number of similar operations conducted by TFR and his knowledge that the Administration was seeking a political solution he should have notified MG Garrison of the policy shift though the JCS and CINCCENT and provided additional guidance on risk Had Aspin either reassessed the risk of each TFR operation more thoroughly or done a better job coordinating the policy shift in light of the increased risks it is likely that the three October raid would not have occurred Joint Force Quarterly, 1995 Joint Force Quarterly is published for the Chairman Joint Chiefs of Staff by the Institute for National Strategic Studies National Defense University to promote understanding of the integrated employment of land sea air space and special operations forces The journal focuses on joint doctrine coalition warfare contingency planning combat operations conducted by the unified commands and joint force development

Americans and Asymmetric Conflict Adam B. Lowther, 2007-07-30 As the War in Iraq continues to rage many in the White House State Department Department of Defense and outside government are left to wonder if it was possible to foresee the difficulty the United States is currently having with Sunni nationalists and Islamic extremists Recent American military experience offers significant insight into this question With the fog of the Cold War finally lifting and clarity returning to the nature of conflict the dominance of asymmetry in the military experience of the United States is all too evident Lebanon 1982 1984 Somalia 1992 1994 and Afghanistan 2001 2004 offer recent and relevant insight into successes and failures of American attempts to fight adversaries utilizing asymmetric conflict to combat the United States when it intervened in these three states The results illustrate the difficulty of engaging adversaries unwilling to wage a conventional war and the need

for improved strategic and tactical doctrine It is easy Lowther writes for Americans to forget the lessons of past conflicts as the politics of the present dominate His purpose here is to highlight some of history s recent lessons so that we may move forward with an awareness of what experience offers

Withdrawing Under Fire Joshua L. Gleis,2011 The post 9 11 world has witnessed a rebirth of irregular and asymmetrical warfare which in turn has led to an increase in conflicts between conventional armies and non state armed groups In their haste to respond to the threat from insurgencies nations often fail to plan effectively not only for combat operations but also for withdrawal which is inevitable win or lose In order to answer the question of how to withdraw from engagement with an insurgency Gleis examines how insurgencies are conducted and what if anything is unique about an Islamist insurgency He then proposes ways to combat these groups successfully and to disentangle one s military forces from the war once strategic objectives have been met or once it is clear that they cannot be Because this type of warfare is dynamic and ever changing this book is not meant to suggest a set of cookie cutter solutions for how to withdraw from insurgencies Rather the author analyzes six counterinsurgency operations that have taken place in the past with the intention of gleaning from them as many lessons as possible to better prepare for future withdrawals The literature on how wars end has failed to explore irregular warfare This much needed reexamination serves as an indispensable starting point

Destabilising Interventions in Somalia Debora Valentina Malito,2019-11-05 This book is a critical reading of contemporary interventionism exploring how interventions shape the course of conflicts and reconciliation processes in Somalia In a critical departure from the state capacity consensus that has dominated the debate on terrorism and state failure this book argues that conflict and sovereignty transformations in Somalia cannot be understood as the result of a gap in state capacity as multiple interventions have compromised the autonomy of the target state and society to act as sovereign *Destabilising Interventions in Somalia* focuses on the humanitarian intervention of the mid 1990s the Ethiopia Eritrean regional proxy war in the late 1990s and the Global War on Terror in the 2000s Examining the politics and mechanisms of multiple interventions this book shows how interveners complicate and amplify existing conflicts how they reiterate the international dimension of the conflict itself and how they orient the target state towards the outsourcing of sovereignty functions Key to this process has been the violent and exclusionary nature of interventions grounded in the aspiration of transforming existing political orders *Destabilising Interventions in Somalia* will be of interest to students of African peace and conflict studies international intervention and International Relations

US Intervention Policy and Army Innovation Richard Lock-Pullan,2004-08-02 This book examines how the US Army rebuilt itself after the Vietnam War and how this has effected US intervention policy after the Cold War

Somali Piracy and Terrorism in the Horn of Africa Christopher L. Daniels,2012-04-05 The first contribution to Global Flashpoints A Scarecrow Press Series Christopher Daniels *Somali Piracy and Terrorism in the Horn of Africa* provides readers with a comprehensive and in depth analysis of the spate of piracy and terrorism plaguing the waters of Somalia and the global threat posed by this activity Contesting the commonly

held perception that the piracy and terrorism occurring in Somalia are two separate and unrelated activities Daniels reveals how the collapse of the Somali state and the chaos that has ensued created the environment for piracy and terrorism to flourish in combination He also notes how the failure to restore a functioning central government has allowed both to become dangerous threats not only to the people of Somalia but the entire world Underscoring Somalia's dire state Somali Piracy and Terrorism in the Horn of Africa lays out for readers such significant topics as the reasons behind the collapse of the Somali state and the secession of Somaliland Puntland and Jubaland the rise of internationally linked terrorist groups such as Al Shabaab and Hizbul Islam and the dramatic spike in pirate attacks off the Somali coast Daniels concludes by critiquing the methods that have been used to help alleviate these global security challenges and gives policy recommendations for future consideration Designed to enhance readers grasp of this global flashpoint this volume includes a timeline a glossary of terms biographical entries on key individual and institutional actors in this conflict and selected primary sources It is the ideal introduction to students and scholars of international relations African history and politics terrorism and maritime studies

Vietnam Shadows Arnold R. Isaacs, 2000-04-14 Isaacs talks to the veterans unable to forget the war no one wanted to talk about He explores the class divisions deepened by a conflict in which the privileged avoided service that an earlier generation had embraced as a duty And he shows how the Vietnam Syndrome continues to affect nearly every major U S foreign policy decision from the Persian Gulf to Somalia Bosnia and Haiti

The Encyclopedia of Middle East Wars

Spencer C. Tucker, 2010-10-08 This in depth study of U S involvement in the modern Middle East carefully weighs the interplay of domestic cultural religious diplomatic international and military events in one of the world's most troubled regions The monumental five volume *The Encyclopedia of Middle East Wars The United States in the Persian Gulf Afghanistan and Iraq Conflicts* is a must have resource for anyone seeking to comprehend U S actions in this volatile region Under the expert editorship of Spencer C Tucker the encyclopedia traces 20th and 21st century U S involvement in the Middle East and south central Asia concentrating on the last three decades Beginning with the 1980 1988 Iran Iraq War it covers the 1979 1989 Soviet occupation of Afghanistan the 1991 Persian Gulf War allied punitive actions against Iraq during the 1990s the Afghanistan War the Iraq War and the Global War on Terror Many smaller military actions against Iran Iraq Libya Afghanistan and other regimes that have been involved in international terrorism are also included Diplomacy religion as it pertains to Middle East conflict and social cultural developments are other key subjects of analysis as is the interplay of politics with military policy in the United States and other nations involved in the region

The Encyclopedia of the Cold War Spencer C. Tucker, 2007-09-12 A comprehensive five volume reference on the defining conflict of the second half of the 20th century covering all aspects of the Cold War as it influenced events around the world The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references Under the direction of internationally known military

historian Spencer Tucker ABC CLIO's The Encyclopedia of the Cold War A Political Social and Military History offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe From the Second World War to the collapse of the Soviet Union The Encyclopedia of the Cold War provides authoritative information on all military conflicts battlefield and surveillance technologies diplomatic initiatives important individuals and organizations national histories economic developments societal and cultural events and more The nearly 1 300 entries plus topical essays and an extraordinarily rich documents volume draw heavily on recently opened Russian Eastern European and Chinese archives The work is a definitive cornerstone reference on one of the most important historical topics of our time

The Corporate Warrior James P. Farwell, 2022-02-04 You make critical strategic and leadership decisions in real time You need clear concise timely information to meet goals improve performance and increase profitability With threats technology and competition changing the game at cyber speed you as a corporate leader and strategist are constantly faced with life or death business challenges Leading international military strategists who have learned survival lessons the hard way on the front lines and yet emerged victoriously can be your guides to winning strategies The Corporate Warrior is a practical book loaded with direct actionable strategies Thanks to James Farwell's direct relationships and experiences working with these well known military leaders you will learn powerful strategies and tactics to enable your enterprise to confront insurmountable challenges and conquer competition while winning valuable customer recognition and support for your brand

Ethnicity Kills? E. Braathen, M. Bøås, G. Saether, 2000-02-11 The book examines among other issues the emergence of civil war as a result of political struggles The construction of Africa as the other has meant that factors commonly used to explain war elsewhere have been neglected in SubSaharan Africa The political power struggle which evolved around the state is at the forefront of the analysis of civil war and societal conflict

Understanding Modern Warfare David Jordan, James D. Kiras, David J. Lonsdale, Ian Speller, Christopher Tuck, C. Dale Walton, 2008-09-18 A major study of the theory and practice of warfare in the twentieth and twenty first centuries Using relevant examples from recent history this book provides a complete introduction to the issues ideas concepts context and vocabulary of modern warfare The expert team of authors explore the conduct of war across land sea air and space in addition to addressing key issues relating to contemporary strategy weapons of mass destruction and irregular warfare including insurgency terrorism and civil war They provide an incisive and structured grounding in military theory and argue for the importance of understanding warfare within the joint inter service context and as an evolutionary rather than a revolutionary phenomenon By providing the tools required to truly understand contemporary military doctrine this accessible survey will be an invaluable resource for any student of military history or international relations as well as for military professionals

Navy Medicine, 2000

Africa in the New World Order Olayiwola Abegunrin, 2014-07-08 This book examines the role of the emerging African nations in the new international order of the twenty first century Since the end of the Cold War little significance has been

placed on the African continent in the security and political considerations of the Western world However post 9 11 international security has been redefined and new challenges have been identified Thus at the beginning of the twenty first century Africa is facing a variety of new security challenges Africa has become an increasingly important battleground in the fight against terrorism Since the beginning of 2011 the new revolutions now known as the Arab Spring that swept through North Africa have created new challenges for the African continent and are compounding the African peoples struggles for poverty alleviation state stability security socio political and socio economic development democracy and good governance In addition to these crises of civil war ethnic conflict state insecurity and rampant corruption at all levels the HIV AIDS pandemic has ravaged the continent for the past four decades The only major pan African organization the African Union is unable to lead and defend the continent effectively At this crucial period when the continent is confronted with these myriad of security challenges it needs effective strong leadership that possesses both human and natural resources to play a leadership role in Africa and lead the continent in the new global order of the twenty first century The contributors to this volume analyze many of these issues and place them in the wider context of global security *Humanitarian Military Intervention* Taylor B. Seybolt, 2007 Military intervention in a conflict without a reasonable prospect of success is unjustifiable especially when it is done in the name of humanity Couched in the debate on the responsibility to protect civilians from violence and drawing on traditional just war principles the central premise of this book is that humanitarian military intervention can be justified as a policy option only if decision makers can be reasonably sure that intervention will do more good than harm This book asks Have past humanitarian military interventions been successful It defines success as saving lives and sets out a methodology for estimating the number of lives saved by a particular military intervention Analysis of 17 military operations in six conflict areas that were the defining cases of the 1990s northern Iraq after the Gulf War Somalia Bosnia and Herzegovina Rwanda Kosovo and East Timor shows that the majority were successful by this measure In every conflict studied however some military interventions succeeded while others failed raising the question Why have some past interventions been more successful than others This book argues that the central factors determining whether a humanitarian intervention succeeds are the objectives of the intervention and the military strategy employed by the intervening states Four types of humanitarian military intervention are offered helping to deliver emergency aid protecting aid operations saving the victims of violence and defeating the perpetrators of violence The focus on strategy within these four types allows an exploration of the political and military dimensions of humanitarian intervention and highlights the advantages and disadvantages of each of the four types Humanitarian military intervention is controversial Scepticism is always in order about the need to use military force because the consequences can be so dire Yet it has become equally controversial not to intervene when a government subjects its citizens to massive violation of their basic human rights This book recognizes the limits of humanitarian intervention but does not shy away from suggesting how military force can save

lives in extreme circumstances American Military History Janet G. Valentine, 2016-05-23 This book offers a chronology subheadings and terms to provide the reader a pedagogical framework for understanding the central themes and events in the American military experience and their relation to American history It serves as a foundation for undergraduate courses in military history Conflict and Change in the Horn of Africa Odi Moghalu, 2015-09-09 The Horn of Africa consists of five nations with unique historical experiences from lofty and distinguishing to awful and tarnishing North East Africa is a region shaped by history from migrations and invasions to modern global politics and internal dynamics of historical ethnic and religious sectarian divisions Aside Ethiopia the other nations of Africa's horn have been significantly shaped by the delineation of boundaries by Islamic and later European empires That has defined its political and economic antecedents Its location as a regional nexus to inevitable trade routes between three continents had made concerns by world powers over its affairs to endure This historical account concentrates on the 20th century political and economic challenges that had characterized individual nations in the region to the new millennium Their quite spectacular and thought provoking internal and external legacies while transforming national life also remain enduring in certain aspects **Parameters** ,1995
