Mews, 2016-09-23 This new edition offers fascinating insights into one of the most celebrated love affairs of the Middle Ages A new chapter charts the debate about the letters and offers fresh evidence to attribute them to Abelard and Heloise The complete Latin text is reproduced with an annotated translation by Chiavaroli and Mews

The Lost Love Letters of Heloise and Abelard C. J. Mews, 1999 [Making Love in the Twelfth Century](#) , 2016-04-29 New sparkling translations of the Letters of Two Lovers the Tegernsee Letters and selections from the Regensburg Songs Nine hundred years ago in Paris a teacher and his brilliant female student fell in love and chronicled their affair in a passionate correspondence Their 116 surviving letters some whole and some fragmentary are composed in eloquent highly rhetorical Latin Since their discovery in the late twentieth century the Letters of Two Lovers have aroused much attention because of their extreme rarity They constitute the longest correspondence by far between any two persons from the entire Middle Ages and they are private rather than institutional which means that according to all we know about the transmission of medieval letters they should not have survived at all Adding to their mystery the letters are copied anonymously in a single late fifteenth century manuscript although their style and range of reference place them squarely in the early twelfth century Can this collection of correspondence be the previously lost love letters of Abelard and Heloise And even if not what does it tell us about the lived experience of love in the twelfth century Barbara Newman contends that these teacher student exchanges bear witness to a culture that linked Latin pedagogy with the practice of ennobling love and the cult of friendship during a relatively brief period when women played an active part in that world Newman presents a new translation of these extraordinary letters along with a full commentary and two extended essays that parse their literary and intellectual contexts and chart the course of the doomed affair Included too are two other sets of twelfth century love epistles the Tegernsee Letters and selections from the Regensburg Songs Taken together they constitute a stunning contribution to the study of the history of emotions by one of our most prominent medievalists [Friendship in the Middle Ages and Early Modern Age](#) Albrecht Classen, Marilyn Sandidge, 2011-03-29 Although it seems that erotic love generally was the prevailing topic in the medieval world and the Early Modern Age parallel to this the Ciceronian ideal of friendship also dominated the public discourse as this collection of essays demonstrates Following an extensive introduction the individual contributions explore the functions and the character of friendship from Late Antiquity Augustine to the 17th century They show the spectrum of variety in which this topic appeared not only in literature but also in politics and even in painting

Conversation, Friendship and Transformation Jennifer Constantine Jackson, 2016-12-08 Conversation is the central spiritual exercise in philosophical and theological reflection on language and love Groundbreaking in its interdisciplinary approach Conversation Friendship and Transformation invites readers to an exploration of theological reflection on conversation and friendship as transformative ways of knowing self others and God Contemporary contributions

in the areas of rhetorical theory friendship studies and gender collaboration provide a fruitful lens through which conversation as discourse may be understood as a pathway for theological inquiry Augustine's *De doctrina christiana* and *Confessions* manifest a foundational example of reflection on the nature of language and love in the context of basic questions of Christianity and culture Two texts from the medieval tradition are brought forth to confirm and develop Augustine's contributions The Letters of Heloise and Abelard have received substantial scholarly attention from the work of medievalists historians and literary critics but require more intentional theological reflection about the relation between the truths of the Christian faith and the collaborative participation of men and women Thomas Aquinas' discussion of oratio in the *Summa Theologiae* is presented for the first time as a pivotal treatise in this profoundly influential text in the history of Western thought

Nuns' Priests' Tales Fiona J. Griffiths,2025-02-01 During the Middle Ages female monasteries relied on priests to provide for their spiritual care chiefly to celebrate Mass in their chapels but also to hear the confessions of their nuns and give last rites to their sick and dying These men were essential to the flourishing of female monasticism during the eleventh and twelfth centuries yet they rarely appear in scholarly accounts of the period Medieval sources are hardly more forthcoming Although medieval churchmen consistently acknowledged the necessity of male spiritual supervision in female monasteries they also warned against the dangers to men of association with women Nuns Priests Tales investigates gendered spiritual hierarchies from the perspective of nuns priests ordained men often local monks who served the spiritual needs of monastic

women Celibacy misogyny and the presumption of men's withdrawal from women within the religious life have often been seen as markers of male spirituality during the period of church reform Yet as Fiona J Griffiths illustrates men's support and care for religious women could be central to male spirituality and pious practice Nuns priests frequently turned to women for prayer and intercession viewing women's prayers as superior to their own since they were the prayers of Christ's brides Casting nuns as the brides of Christ and adopting for themselves the role of paranympheus bridesman or friend of the bridegroom these men constructed a triangular spiritual relationship in which service to nuns was part of their dedication to Christ Focusing on men's spiritual ideas about women and their spiritual service to them Nuns Priests Tales reveals a clerical counter discourse in which spiritual care for women was depicted as a holy service and an act of devotion and obedience to Christ

European Women's Letter-writing from the 11th to the 20th Centuries Clare Monagle, Carolyn James, David Garrioch, Barbara Caine, 2025-10-01 This book reveals the importance of personal letters in the history of European women between the year 1000 and the advent of the telephone It explores the changing ways that women used correspondence for self expression and political mobilization over this period enabling them to navigate the myriad gendered restrictions that limited women's engagement in the world Whether written from the medieval cloister or the renaissance court or the artisan's workshop or the drawing room letters crossed geographical and social distance and were mobile in ways that women themselves could not always be Women wrote to govern to argue to plead and to demand They also wrote to express love and intimacy and in so doing to explain and to understand themselves This book argues that the personal letter was a crucial place for European women's self fashioning and that exploring the history of their letters offers a profound insight into their subjectivity and agency over time

The Idea of the Theater in Latin Christian Thought Donnalee Dox, 2009-12-18 Through well informed and nuanced readings of key documents from the fourth through fourteenth centuries this book challenges historians long held beliefs about how concepts of Greco Roman theater survived the fall of Rome and the Middle Ages and contributed to the dramatic triumphs of the Renaissance Dox's work is a significant contribution to the history of ideas that will change forever the standard narrative of the birth and development of theatrical activity in medieval Europe Margaret Knapp Arizona State University an elegantly concise survey of the way classical notions of theater have been interpreted in the Latin Middle Ages Dox convincingly demonstrates that far from there being a single medieval attitude towards theater there was in fact much debate about how theater could be understood to function within Christian tradition even in the so called dark ages of Western culture This book makes an innovative contribution to studies of the history of the theater seen in terms of the history of ideas rather than of practice Constant Mews Director Centre for the Study of Religion Theology University of Monash Australia In the centuries between St Augustine and Bartholomew of Bruges Christian thought gradually moved from a brusque rejection of classical theater to a progressively nuanced and positive assessment of its value In this lucidly written study Donnalee Dox adds an important facet to our understanding of the Christian reaction to and

adaptation of classical culture in the centuries between the Church Fathers and the rediscovery of Aristotle Philipp W Rosemann University of Dallas This book considers medieval texts that deal with ancient theater as documents of Latin Christianity's intellectual history As an exercise in medieval historiography this study also examines biases in modern scholarship that seek links between these texts and performance practices The effort to bring these texts together and place them in their intellectual contexts reveals a much more nuanced and contested discourse on Greco Roman theater and medieval theatrical practice than has been acknowledged The book is arranged chronologically and shows the medieval foundations for the Early Modern integration of dramatic theory and theatrical performance The Idea of the Theater in Latin Christian Thought will be of interest to theater historians intellectual historians and those who work on points of contact between the European Middle Ages and Renaissance The broad range of documents discussed liturgical treatises scholastic commentaries philosophical tracts and letters spanning many centuries renders individual chapters useful to philosophers aestheticians and liturgists as well as to historians and historiographers For theater historians this study offers an alternative reading of familiar texts which may alter our understanding of the emergence of dramatic and theatrical traditions in the West Because theater is rarely considered as a component of intellectual projects in the Middle Ages this study opens a new topic in the writing of medieval intellectual history

Violent Passions T. Adams, 2005-09-03 This book re-evaluates the perception of courtly love in Old French verse Adams traces how these verses explore the emotional trials of amour and propose coping methods for the lovelorn

Medieval People: Vivid Lives in a Distant Landscape Michael Prestwich, 2014-11-11 A rich and revelatory exploration of the medieval world conveyed through intimate biographies by a renowned historian This engrossing exquisitely illustrated often witty account tells the life stories of some seventy individuals who made the Middle Ages There are kings and queens popes and politicians soldiers and merchants scholars authors and visionaries They range from the important such as El Cid or Frederick Barbarossa to the little known such as the dissolute Venetian nun Clara Sanuto Some were astonishingly successful the empire created by Chinggis Khan was one of the most extensive ever seen Some such as Charles the Bold the over ambitious 15th century duke of Burgundy were failures Contrary to modern myth medieval people did not believe the earth was flat torture was far less common than in later centuries and technological advances included guns printing blast furnaces spectacles stirrups and the compass Full of insights such as these this book shows how medieval people lived in an era that was more one of invention and innovation than of superstition and backwardness It will appeal to all those who want a truer picture of a world often erroneously portrayed by bestselling novelists of today

Mary Hays's 'Female Biography' Mary Spongberg, Gina Luria Walker, 2020-06-04 The essays included in Mary Hays's Female Biography Collective Biography as Enlightenment Feminism emerge from the authors collaboration in producing the first modern edition of Hays's work in the Chawton House Library Edition 2013 2014 This book explores Hays's larger ambitions to lay the foundation for an encyclopaedic work by for and about women The scholars

contributions to this volume engage with some of the multiple problems and possibilities that *Female Biography* presented. Drawing on this effort individual scholars examine Hays's attempts to correct existing masculinist constructs which framed the universe of knowledge then and persist in our time. Hays perceived that these had the cumulative effect of rendering women invisible. She responded to such absence by providing examples of the extent of female worth across Western society. Other contributions focus specifically on the subjects of Hays's entries looking at how she used source material and laid the groundwork for future biographical studies of women's lives. Both *Female Biography* and Hays herself have continually presented difficulties in categorization not quite Enlightenment not quite Victorian either. This book recontextualizes her work demonstrating the radicalism and originality of her feminism even in its post Wollstonecraftian phase as well as the longevity of her influence. As such it will be of interest to those conducting research into Hays her subjects and the evolution of life writing by women. This book was originally published as a special issue of *Women's Writing*.
