The Little Magazine Others and the Renovation of Modern American Poetry Suzanne W. Churchill, 2017-03-02 Suzanne Churchill's well researched and superbly crafted study is the first book length treatment of *Others* an important and neglected little magazine that served as a laboratory for modernist poetic experimentation In discussions of influential poets such as Mina Loy Marianne Moore and William Carlos Williams whose careers *Others* helped launch Churchill counters the notion of Modernism as aesthetically self isolating and socially disengaged Rather she traces a correspondence between

formal innovation and social change in American modernist poetry and argues that this dimension of modernist formalism is lost when poems are studied in isolation Others provides a framework for reassessing the scope and significance of modernist formalism The little magazine not only anchors modernist poetry in a social context but also leads to new insight into major modernist texts Churchill s commitment to her subject s broad cultural contexts makes her book important for students and teachers of Modernism as well as for those working in the fields of American poetry and poetics gender studies queer theory periodical studies and cultural studies

Reading Machines in the Modernist Transatlantic White Eric White, 2020-06-18 A revisionist account of technology s role in the aesthetics spaces and politics of transatlantic avant gardes Explores of a range of key avant garde formations in the modernist transatlantic period from the Italian futurists and English Vorticists to the Dada surrealist and post Harlem Renaissance African American experimentalists Explores writers and artists inventions as well as their texts and involves them directly in the messy transductions of technology in culture Draws on previously unknown photos manuscripts and other evidence that reveals the untold story of Bob and Rose Brown s reading machine a cross disciplinary meta

formational and transnational project that proposed to transform the everyday act of reading

Reading Machines in the Modernist Transatlantic provides a new account of aesthetic and technological innovation from the Machine Age to the Information Age Drawing on a wealth of archival discoveries it argues that modernist avant gardes used technology not only as a means of analysing culture but as a way of feeding back into it As well as uncovering a new invention by Mina Loy the untold story of Bob Brown s reading machine and the radical technicities of African American experimentalists including Gwendolyn Bennett and Ralph Ellison the book places avant gardes at the centre of innovation across a variety of fields From dazzle camouflage to microfilm and from rail networks to broadcast systems White explores how vanguardists harnessed socio technics to provoke social change *Reading Machines in the Modernist Transatlantic* Eric B White,2020-06-18

Reading Machines in the Modernist Transatlantic provides a new account of aesthetic and technological innovation from the Machine Age to the Information Age **Transformations of Trauma in Women's Writing** Laura Alexander,2023-01-10

This volume examines the ways in which trauma alters women s identities While some of the chapters look deeply at individual experiences many of the contributions look to national traumas and the consequences of political abuses including colonial subjugation and genocide for women The book shows that language has a transformative power to change us to give us a great capacity for inner and outer dialogues and for healing and self love As shown here women have historically employed autobiography and memoir to free themselves and others rather than seeing the limit of form they reinvent the parameters to offer a new relationship with language **Revisiting the Poetics and Politics of Modernism** Tamlyn Avery,Sascha Morrell,2025-12-02

This book revisits women s literature in 1922 long hailed as the miracle year of literary modernism a landmark year of avant garde innovations in publications that included James Joyce s *Ulysses* T S Eliot s *The Waste Land* and Ezra Pound s *The Cantos* Yet if 1922 has been considered a modernist annus mirabilis it was many things besides In 1922 or thereabouts according to Willa Cather the literary world broke in two sequestering traditional writers from those considered modern Many women writers produced work that year across a spectrum of genres forms and politics that would not be accepted into Hugh Kenner s modernist canon Nor however did they readily fit into Cather s categories in some cases rupturing and in other cases affirming a consensus of modernism as a masculinist culturally imperialist interwar enterprise Considering 1922 s historical significance the essays in this collection seek greater inclusion of women in our memory of this year including writers from a range of global and regional contexts and cultural backgrounds Extending other attempts to examine the gender politics of modernism modernity over the past thirty years the project draws connections between the significance of 1922 as it has been understood in the new modernist studies and feminist literary criticism that utilizes single year approaches to revisit and reflect on women s history and the gender politics of modernism
