Voices from the Carpathia: Rescuing RMS Titanic George Behe,2015-05-04 When Titanic began sending out distress calls one of the first to reply was the Cunard liner Carpathia As it turned out Carpathia was the only vessel to reach the scene in time to save the

lives of any of Titanic's passengers and after she arrived in New York reporters crowded the pier and vied with each other to obtain interviews with the survivors of the disaster. In their zeal to interview survivors though the reporters brushed past other people who could have provided their own eyewitness accounts namely Carpathia's own passengers largely left to their own devices as to how and when they discussed their participation in events. A few wrote letters to relatives others wrote accounts intended for publication. The author's collection of these rare written accounts and interviews sheds new light on the tragic way the lives of so many were impacted by the loss of the largest passenger liner in the world. On Board RMS Titanic George Behe, 2012-02-29 It would make the stones cry to hear those on board shrieking Daniel Buckley third class passenger. For the first time in this moving new book Titanic's passengers and crewmen are permitted to tell the story of that lamentable disaster entirely in their own words. Included are letters postcards diary entries and memoirs that were written before during and immediately after the maiden voyage itself. Many of the pre-sailing documents were composed by people who later lost their lives in the sinking and represent the last communications that these people ever had with their friends and loved ones at home. The subsequent letters and postcards give an unparalleled description of the events that occurred during the five days that Titanic was at sea and the correspondence by survivors after the tragedy describes the horror of the disaster itself and the heartbreak they experienced at the loss of those they loved. This poignant compilation by Titanic expert George Behe also contains brief biographies of the passengers and crewmen victims as well as survivors who wrote the documents in question. Premonitions of the Titanic Disaster Terry Keefe, 2021-03-28 Passengers cancelling their tickets for Titanic's maiden voyage out of apprehension a famous social reformer who died on Titanic warned in 1911 that he would be in danger from water in April 1912 inhabitants of the remote islands of Fiji aware of the sinking before reports of the collision reached the Pacific a dying girl who on 14 April 1912 sees a big ship sinking in the water and mysteriously knows the name of the violinist in Titanic's orchestra. These are just a few of the numerous claims to psychic foreknowledge of the ship's sinking. Within days of the widely publicised disaster of 1912 stories began circulating of extraordinary omens and individuals who supposedly had supernatural premonitions of the disaster. Furthermore four fictional works one dating as far back as twenty six years came to be seen as anticipating the disaster. Between 1960 and 2006 five major commentators published extended analyses of the alleged premonitions none of which is now easily accessible to an English readership. This book examines them all in detail. The whole treatment of the matter opens up fascinating questions concerning the paranormal but also raises and leaves unresolved crucial issues specific to premonitions and how they can be legitimately examined. Readers are left to make their own judgement on Titanic premonitions. **The Titanic** Eugene L. Rasor, 2001-09-30 Promoted as virtually unsinkable the ultimate luxury liner the largest ship in the world the RMS Titanic sank on its maiden voyage in April 1912 taking some 1 500 people to their death. Aboard the ship were the wealthy and famous as well as hundreds of immigrants seeking a new life in America. The most dramatic marine disaster of modern times.

the Titanic tragedy captured the interest and imagination of the entire world The intensity of interest in the catastrophe has increased particularly after discovery of the wreck off the coast of Newfoundland in the mid 1980s The resulting literature is vast including both scholarly and popular sources Covering more than the published literature the book also surveys memorabilia artifacts cultural icons music film and exhibitions Divided into three sections the work opens with a historiographical survey of the literature then includes descriptive lists of more peripheral material and concludes with a bibliography of 674 entries All items covered in the historiographical survey are included in the bibliography This useful guide will appeal to researchers both laymen and scholars interested in the Titanic
