clientele among New York City's elite and she further captivated her customers through her seductive letters which mixed elements of traditional feminine demureness with sexual boldness. But she was to meet her match and her nemesis in a youth called Richard Robinson. He was one of an unprecedented number of young men who flooded into America's burgeoning cities in the 1830s to satisfy the new business society's seemingly infinite need for clerks. The son of an established Connecticut family, he was intense, arrogant, and given to posturing. He became Helen Jewett's lover in a tempestuous affair and ten months later was arrested for her murder. He stood trial in a five-day courtroom drama that ended with his acquittal amid the cheers of hundreds of fellow clerks and other spectators. With no conviction for murder nor closure of any sort, the case continued to tantalize the public even though Richard Robinson disappeared from view. Through the Erie Canal down the Ohio and the Mississippi and by way of New Orleans, he reached the wilds of Texas and a new life under a new name. Through her meticulous and ingenious research, Patricia Cline Cohen traces his life there and the many twists and turns of the lingering mystery of the murder. Her stunning portrayals of Helen Jewett, Robinson, and their raffish, colorful nineteenth-century world make vivid a frenetic city life and sexual morality whose complexities, contradictions, and concerns resonate with those of our own time.

The Wild Child Jeffrey Moussaieff Masson, 2010-05-11. Kept in a dungeon for his entire childhood, Kaspar Hauser appeared in Nuremberg, Germany, in 1828 at age sixteen, barely able to walk or talk. When he was killed in 1833, his true identity and the motives for his unsolved murder became the subjects of intense speculation. This provocative essay sheds new light on this mystery and delves into fundamental questions about the long-term effects of child abuse.

If You Can't Trust Your Mother, Whom Can You Trust? Leonard Shengold, 2018-05-01. The main theme of this book concerns the

continuing psychic centrality of parents for their children. Several chapters examine an author and his works, outlining that author's relationships with parents, good and bad, and making descriptive comments about these based both on information gleaned from the author's life and writings as well as from observations found in autobiographies, biographies, and critical works. Since these studies in part concern stories of child abuse and deprivation, the book predominantly illustrates bad parenting that seems to have contributed to the child's psychopathology. Yet in most cases, there has also been an evocation by the trauma and deprivation of adaptive and even creative reactions; this positive effect, also of course largely attributable to concomitant good parenting, and yet there are some cases where little of this seems to have existed, and yet the children still turn out to be able to make something of themselves. The conditions that make for psychic health in a traumatized childhood are mysterious and can't always be accounted for.
