[Planning Asian Cities](#) Stephen Hamnett, Dean Forbes, 2012-03-29 In Planning Asian Cities Risks and Resilience Stephen Hamnett and Dean Forbes have brought together some of the region's most distinguished urbanists to explore the planning history and recent development of Pacific Asia's major cities They show how globalization and the competition to achieve global city status has had a profound effect on all these cities Tokyo is an archetypal world city Singapore Hong Kong and Seoul have acquired world city characteristics Taipei and Kuala Lumpur have been at the centre of expanding economies in which nationalism and global aspirations have been intertwined and expressed in the built environment Beijing Hong Kong and Shanghai have played key sometimes competing roles in China's rapid economic growth Bangkok's amenity economy is currently threatened by political instability while Jakarta and Manila are the core city regions of less developed countries with sluggish economies and significant unrealized potential But how resilient are these cities to the risks that they face How can they manage continuing pressures for development and growth while reducing their vulnerability to a range of potential crises How well prepared are they for climate change How can they build social capital so important to a city's recovery from shocks and disasters What forms of governance and planning are appropriate for the vast mega regions that are emerging And given the tradition of top down centralized state directed planning which drove the economic growth of many of these cities in the last century what prospects are there of them becoming more inclusive and sensitive to the diverse needs of their populations and to the importance of culture heritage and local places in creating liveable cities

Tokyo Life, New York Dreams Mitziko Sawada, 2023-11-15 Tokyo Life New York Dreams is a bicultural study focusing on Japanese immigrants in New York and the ideas they had about what they would find there. It is one of the first works to consider Japanese immigration to the East Coast where immigrants were of a different class and social background from the laborers who came to the West Coast and Hawaii. Beginning with a portrait of immigrants' lives in New York City, Mitziko Sawada returns to Tokyo to examine the pre-immigration experience in depth, using rich sources of popular Japanese literature to trace the origins of immigrant perceptions of the U.S. Along with discussions of economics and politics in Tokyo, Sawada explores the prevalent images, ideologies, social myths, and attitudes of late Meiji and Early Taisho Japan. Her lively narrative draws on guide books, magazines, success literature, and popular novels to illuminate the formation of ideas about work, class, gender, relations, and freedom in American society. This study analyzes the Japanese construction of a mythic America perceived as a homogeneous and exotic other. Drawing on a large body of previously unpublished paintings, collaborative works, and book illustrations by this highly successful yet neglected figure, Buckland traces how Katei transformed his art and practice based in modes derived from China in order to fulfil the needs of the modern nation-state at large-scale exhibitions and at the imperial court. She provides a rare examination of the vibrant world of Chinese-inspired culture during the 1880s and the hostility which it faced in the following decade.
