Wagner and Venice Fictionalized John W. Barker, 2012 The first account of how Wagner's last years and his death in Venice have been mythologized in novels and other works of the creative imagination The vast literature about Richard Wagner and his works includes a surprising number of fictional works including novels plays satires and an opera Many of these deal with his last years and his death in Venice in 1883 and even a fabricated eleventh hour romance These fictional treatments many presented here in English for the first time reveal a striking evolution in the way that Wagner's character and reputation have been viewed over more than a century They offer insights into changing contexts in Western intellectual and cultural history And they make clear how much Wagner's associations with Venice have become part of the accumulated mythology of the floating city John Barker's *Wagner and Venice Fictionalized Variations on a Theme* will be of interest to all lovers of opera Venice and European culture generally John W Barker is Emeritus Professor of History at the University of Wisconsin Madison specializing in medieval including Venetian history He is also a passionate music lover and record collector and an active music critic and journalist
