The Apothecary's Chest Fabienne Collignon,Konstantina Georganta,Anne-Marie Millim,2009-03-26 The Apothecary's Chest Magic Art and Medication was a one day symposium held at the University of Glasgow on November 24 2007 The symposium called for a discussion on the evolution of the notions of mysticism knowledge and superstition in the way they are intertwined in both science and the literary imagination in the figure of healers such as the apothecary the alchemist the shaman There were three main areas of interest The first involved traditional perceptions of physicians who

combined knowledge and superstition and thus bordered in their practices on the sphere of the occult The second theme evolving from the first proposed an inquiry of the overlapping interests and processes of science magic and prophecy as well as of the implications and consequences of a privileged access to medical knowledge while the third subject of discussion concentrated on the development of the symbolism of the healer in literature history philosophy of science anthropology theology film and art The twelve papers included in this volume papers presented by doctoral candidates and young scholars from across a range of geographical regions and disciplines result in a collection of approaches to an investigative field with topics ranging from mystical traits of mundane materials to the origins of the occult and gender struggles The thirteenth and final essay included in the volume Professor Bill Herbert's From Mere Bellies to the Bad Shaman is an exploration of the modern role of the contemporary poet in the form of an extended conversation initiated at the closing of the conference when Professor Herbert was asked to combine a poetry reading with a few observations on the relationship between the poet and the shaman
