Despite the growing interest in Apuleius Apologia or Pro se de magia a speech he delivered in AD 158 159 to defend himself against the charge of being a magus the only comprehensive study on this speech and magic to date is that by Adam Abt 1908 The aim of this volume is to shed new light on the extent to which Apuleius speech reveals his own knowledge of magic and on the implications of the dangerous allegations brought against Apuleius By analysing the Apologia sequentially the author does not only reassess Abt s analysis but proposes a new reconstruction of the prosecution s case arguing that it is heavily distorted by Apuleius Since ancient magic is the main topic of this speech an extensive discussion of the topic is provided offering a new semantic taxonomy of magus and its cognates Finally this volume also explores Apuleius forensic techniques and the Platonic ideology underpinning his speech It is proposed that a Platonising reasoning distinguishing between higher and lower concepts lies at the core of Apuleius rhetorical strategy and that Apuleius aims to charm the judge the audience and ultimately his readers with the irresistible power of his arguments *The Magic Seashell* Makerita
