Magical Medicine Una Maclean, 1974 Magical Medicine Una Maclean, 1971 **Healing Insanity: a Study of Igbo Medicine in Contemporary Nigeria** Patrick E. Iroegbu, 2010-06-08

Healing Insanity A Study of Igbo Medicine in Contemporary Nigeria is an original and in depth study on endogenous medical system in an African society It is craftily written and provides solid insight through case studies and theory into how insanity affects patients and the society Particularly it explores various collective representations and strategies regarding insanity and healing as it examines the healing institutions healers and ritual cults The central question is given the patterns of healing how do the Igbo shape the incidence and symptoms of insanity define its aetiology and provide healers with culture specific resources and skills to address this illness The focus became increasingly centred on bodily semantics and endogenous knowledge systems and practices Dr Patrick Iroegbus work is a very valuable and rare study and has appeared at a desirable time It is for an African society a comprehensive study of the many ways Igbo people in their practical routinelike attitudes and body centred experiences as well as in their more reflective aetiologic knowledge and healing institutions relate to the phenomenon of insanity or ara in the cultural parlance As the first of its kind reminiscent of and assured by the various remarks of Igbo scholars and leaders at various meetings and discourses the task this work has set out to accomplish is a very brave one The authors account of his fieldwork experiences and adopted techniques illustrates his initiation revealing him as a genuine ethnographer who is a friend of people and at ease with his field With both the far seeing and inspiring analysis of Igbo medicine life and culture accounted for in the work the book stands out for ethnographers teachers students leaders policymakers and the general public This is a book that deserves to be read as it shapes the critical path toward understanding ways of healing insanity in a culture specific context crosscutting perspectives for a relationship between indigenous healing and the biomedical sphere Prof Ren Devisch Africa Research Centre University of Leuven This book is written with a clear purpose for everyone to read to understand and heal insanity and indeed provides a thick piece of cultural philosophy and vernacular of Igbo medicine in hopes of putting cultural wisdom in pursuit of integral health care development Prof Pantaleon Iroegbu Professor of Philosophy Major Seminary Ekpoma January 2006 To read this book as I did is to get the benefit of Dr Patrick Iroegbus ethnographic insight for an archetypical African healing system in Igboland It offers a fascinating theory of symbolic release that speaks of African symbolic action and knowledge system Dr Paul Komba Esq University of Cambridge **African Traditional Medicine** DAVID OYEBOLA MD, 2020-02-10 This book is written to provide information on various aspects of Yoruba and indeed African traditional medicine The writer s research on Yoruba traditional medicine provides the bulk of the materials in the book The book consists of eleven chapters Chapters 1 and 2 provide the background to the book Chapters 3 to 10 encapsulate the different aspects of Yoruba traditional medicine such as classification of healers methods of training of healers methods of diagnosis and investigation of diseases treatment of

diseases Yoruba pharmacopoeia midwifery bone setting and other forms of traditional surgery Chapter 11 describes the meeting point of hospitals and healers this meeting point in the opinion of the author should be how best to serve the interests of the patients The best form of relationship that should exist between hospitals and healers is also discussed The two systems of medicine exist side by side in Nigeria and most African countries yet remain functionally unrelated in any intentional sense It is argued that no medical system is perfect and no single care system has all the answers to all human health and related problems Each of the two systems has its strong and weak points The often talked about integration of the two systems has potential pitfalls and may be undesirable The book concludes that the best form of relationship may well be one of genuine cooperation and mutual respect between the two systems since this will lead in the ultimate to advancement of medical knowledge and overall improvement of patient care All levels of government in Nigeria have decisive roles to play in achieving this mutually beneficial cooperation of the two systems Conflicts in the National Health Service Keith Barnard, Kenneth Lee, 2022-05-24 Originally published in 1977 this book explored some of the major problems besetting the Health Service during the second half of the twentieth century Now as then they offer both historical perspective on contemporary difficulties and invite debate about the future development of health services The main themes are the medical care system and its organisational structures the managers and the providers of the system their tasks and responses the resources available whether financial human or material and finally the consumers and their influence upon the overall direction of the system **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1972 First multi year cumulation covers six years 1965 70 **Spirit Possession and Spirit Mediumship in Africa and Afro-America** Irving Zaretsky, Cynthia Shambaugh, 2019-06-19 Originally published in 1978 Spirit Possession and Spirit Mediumship in Africa and Afro America is an incredibly diverse and comprehensive bibliography on published works containing ethnographic data on and analysis of spirit possession and spirit mediumship in North and Sub Saharan Africa and in some Afro American communities in the Western Hemisphere The sources on Western Afro American communities were chosen to shed light on the African continent and the Americas The bibliography while not exhaustive provides extensive research on the area of research in spiritualism in Africa and Afro America The bibliography also provides unique sources on spirit cults ritual or ethnic groups and will be of especial interest to researchers Although published in the late 70s this book will still provide an incredibly useful research tool for academics in the area of religion with a focus on spiritualism and non western religions Epidemics and Ideas Terence Ranger, Paul Slack, 1992 From plague to AIDS epidemics have been the most spectacular diseases to afflict human societies This volume examines the way in which these great crises have influenced ideas how they have helped to shape theological political and social thought and how they have been interpreted and understood in the intellectual context of their time *The African Philosophy Reader* Pieter Hendrik Coetzee, A. The African City Anthony O'Connor,2013-01-11 This book explores various characteristics of tropical African cities with special reference to change in the post independence period It stresses the diversity of urban forms and urban experience to be found within the region distinguishing the more general features from those peculiar to individual cities Much has been written about urban Africa but nearly all relates to particular cities this book provides a context for such studies This review provides an essential foundation both for theoretical clarification of the processes of urbanization and for practical planning decisions The topics covered range from rural urban migration and national urban systems to the urban economy housing and the spatial structure of cities The sharp contrasts between indigenous and colonial urban traditions are emphasized but so also is the evidence for convergence today as indigenization takes place in the colonial cities while Westernization proceeds in those of indigenous origin This book was first published in 1983
