Magical State Nature Money And Modernity In Venezuela:

The Magical State Fernando Coronil, 1997-11-10 In 1935 after the death of dictator General Juan Vicente Gómez Venezuela consolidated its position as the world's major oil exporter and began to establish what today is South America's longest lasting democratic regime. Endowed with the power of state oil wealth successive presidents appeared as transcendent figures who could magically transform Venezuela into a modern nation. During the 1974-78 oil boom dazzling development projects promised finally to effect this transformation. Yet now the state must struggle to appease its foreign creditors, counter a declining economy and contain a discontented citizenry. In critical dialogue with contemporary social theory Fernando Coronil examines key transformations in Venezuela's polity, culture and economy, recasting theories of development and highlighting the relevance of these processes for other postcolonial nations. The result is a timely and compelling historical ethnography of political power at the cutting edge of interdisciplinary reflections on modernity and the state.

Populism in Venezuela Ryan Brading, 2013 *Populism in Venezuela* analyses the emergence, formation, reproduction and resistance to a left-wing populist project in a major world oil producer. For readers who seek to understand the historical, economical and sociological contexts that gave rise to a 38-year-old mestizo mulatto Lieutenant Colonel who stormed the presidential palace in a bloody coup d'état in 1992, subsequently returned to the same palace in 1998 but this time as a democratically elected President and has been in power since, this book is the right place to start. In spite of opposition attempts to oust President Hugo Chávez and his political machinery from power, this socialism of the twenty-first century hegemonic project has succeeded in creating an institutional structure designed to improve the lives of the previously excluded population. An in-depth fieldwork study of a Cuban healthcare programme named Barrio Adentro deep in the slums in Venezuela's poor and rural areas and the non-violence *Manos Blancas* (white hands) opposition student movement provides a descriptive and analytical account of people's problems from both sides in a deeply polarised society. The concluding chapter of this book examines Chávez's intention to stay in power until 2031. An original resource for scholars, students and general readers, this book not only furthers our understanding of populism in Venezuela but also provides a sound method to analyse populist practices in other contexts.

International Mediation in Venezuela Jennifer McCoy, Francisco Diez, 2011 *International Mediation in Venezuela* analyzes the effort of the Carter Center and the broader international community to prevent violent conflict, to reconcile a deeply divided society and to preserve democratic processes. From their perspective as facilitators of the intervention and as representatives of the Carter Center, Jennifer McCoy and Francisco Diez present an insider account of mediation at the national and international level.

Populist Moments and Extractivist States in Venezuela and Ecuador Teresa Kramarz, Donald Kingsbury, 2021-06-07 This book addresses the intersection of extractivism, populism and accountability. Although populist politics are often portrayed as a driver of poor environmental governance, *Populist Moments and Extractivist States* identifies it as an intervening variable at best, one that emerges in response to the

accountability deficits of extractive states Case studies in Venezuela for many the prototypical petrostate and Ecuador which exchanged agribusiness dependency for oil decades later illustrate how extractive states are oriented by a colonial logic of export and service This logic regulates state society nature relationships and circumscribes avenues for local stakeholders to hold public officials and extractive industries to account for environmental and human harms Populist moments of the early 21st century across Latin America responded to these conditions promising more equitable and sustainable futures However rather than reversing the technocracy verticalism and exclusion of the recent past populist moments often intensified and legitimated them in the drive to maximize and distribute resource rents The result has been cyclical as populist moments of hope and rupture fall prey to the extractivist states they tried and failed to replace New Perspectives on Witchcraft, Magic, and Demonology: Witchcraft in the modern world Brian Paul Levack, 2001 **The Unraveling of Representative Democracy in Venezuela** Jennifer L. McCoy, David J. Myers, 2006-03-01 For four decades Venezuela prided itself for having one of the most stable representative democracies in Latin America Then in 1992 Hugo Chavez attempted an unsuccessful military coup Six years later he was elected president Once in power Chavez redrafted the 1961 constitution dissolved the Congress dismissed judges and marginalized rival political parties In a bid to create direct democracy other Latin American democracies watched with mixed reactions if representative democracy could break down so quickly in Venezuela it could easily happen in countries with less established traditions On the other hand would Chavez create a new form of democracy to redress the plight of the marginalized poor In this volume of essays leading scholars from Venezuela and the United States ask why representative democracy in Venezuela unraveled so swiftly and whether it can be restored Its thirteen chapters examine the crisis in three periods the unraveling of Punto Fijo democracy Chavez's Bolivarian Revolution and the course of participatory democracy under Chavez The contributors analyze such factors as the vulnerability of Venezuelan democracy before Chavez the role of political parties organized labor the urban poor the military and businessmen and the impact of public and economic policy This timely volume offers important lessons for comparative regime change within hybrid democracies Contributors Damarys Canache Florida State University Rafael de la Cruz Inter American Development Bank Jos Antonio Gil Yepes Datanalisis Richard S Hillman St John Fisher College Janet Kelly Graduate Institute of Business Caracas Jos E Molina University of Zulia Mosés Naím Foreign Policy Nelson Ortiz Caracas Stock Exchange Pedro A Palma Graduate Institute of Business Caracas Carlos A Romero and Luis Salamanca Central University of Venezuela Harold Trinkunas Naval Postgraduate School *A Living Past* John Soluri, Claudia Leal, José Augusto Pádua, 2018-02-19 Though still a relatively young field the study of Latin American environmental history is blossoming as the contributions to this definitive volume demonstrate Bringing together thirteen leading experts on the region *A Living Past* synthesizes a wide range of scholarship to offer new perspectives on environmental change in Latin America and the Spanish Caribbean since the nineteenth century Each chapter provides insightful up to date syntheses of current scholarship on

history of the twentieth century and to the underlying conflict between producers and consumers of these natural resources

A Blessing and a Curse Matt Wilde, 2023-10-10 *A Blessing and a Curse* examines the lived experience of political change, moral uncertainty, and economic crisis amid Venezuela's controversial Bolivarian Revolution. Drawing on ethnographic research conducted in an urban barrio over the course of a decade, Matt Wilde argues that everyday life in this period was intimately shaped by a critical contradiction: that in their efforts to capture a larger portion of oil money and distribute it more widely among the population, the governments of Hugo Chávez and Nicolás Maduro pursued policies that ultimately entrenched Venezuela in the very position of dependency they sought to overcome. Offering a new synthesis between anthropological work on energy, politics, and morality, the book explores how the use of oil money to fund the revolution's social programs and political reforms produced profound cultural anxieties about the contaminating effects of petroleum revenues in everyday settings. Tracing how these anxieties rippled out into community life, family networks, and local politics, Wilde shows how questions about how to live a good life came to be intimately shaped by Venezuela's contradictory relationship with oil. In doing so, he brings a vital perspective to contemporary debates about energy transitions by proposing a new way of thinking about the political and moral economies of natural resources in postcolonial settings.

Deadline Robert Samet, 2019-07-08 Since 2006, Venezuela has had the highest homicide rate in South America and one of the highest levels of gun violence in the world. Former president Hugo Chávez, who died in 2013, downplayed the extent of violent crime and instead emphasized rehabilitation. His successor, President Nicolás Maduro, took the opposite approach, declaring an all-out war on crime (*mano dura*). What accounts for this drastic shift toward more punitive measures? In *Deadline*, anthropologist Robert Samet answers this question by focusing on the relationship between populism, the press, and what he calls the will to security. Drawing on nearly a decade of ethnographic research alongside journalists on the Caracas crime beat, he shows how the media shaped the politics of security from the ground up. Paradoxically, Venezuela's punitive turn was not the product of dictatorship but rather an outgrowth of practices and institutions normally associated with democracy. Samet reckons with this apparent contradiction by exploring the circulation of extralegal denuncias (accusations by crime journalists, editors, sources, and audiences). Denuncias are a form of public shaming or exposé that channels popular anger against the powers that be. By showing how denuncias mobilize dissent, *Deadline* weaves a much larger tale about the relationship between the press, popular outrage, and the politics of security in the twenty-first century. **Venezuela** Miguel

Tinker Salas, 2015-04-02 Among the top ten oil exporters in the world and a founding member of OPEC, Venezuela currently supplies 11 percent of U.S. crude oil imports.
