**The Dream Assassin Volume (1)** Roman Harambura, 2019-02-20 Humanity s Greatest Gift Imagination Roman expresses that we as humans have the ability to think by thought power as humans on this most precious Earth we each have the power within us to create through manifestation anything we choose simply by the power of our own thoughts Roman believes we are all thinking beings that every thought we each have has the possibilities of becoming our own reality be it negative thoughts or positive thoughts which in turn creates our personal existence either in a negative way or a positive way he says we are not in reality physical it only appears

to be that way because we are so highly conditioned by our own beliefs systems we are in fact Living Energy in the making of becoming Living Consciousness The main reason he wrote and created his new book The Dream Assassin was to show all of humanity that Imagination is real and at the same time create magnificent imaginative magic that would not only bring awareness but ignite the true inner passion of every individual that reads this book but also to see the movie when it is created in the future to come As Albert Einstein the great Theoretical Physicist said on many occasions Reality is merely an Illusion all be it a very persistent one It s like saying just because you cannot touch something doesn t mean it is not real because it may be vibrating simply at another level of consciousness Jewish Mysticism and Magic Maureen

that attacks individual and social apathy toward the suffering of others making it clear that those who deny or ignore the existence of acts of aggression are as culpable as the perpetrator It shines an often uncomfortable light on the way that blind adherence to tradition and devotion to the status quo silence the oppressed and perpetuate abuse With or without the help of dragons healing can only begin with speaking and being heard *The Transformations of Magic* Frank Klaassen, 2013-01-02

In this original provocative well reasoned and thoroughly documented book Frank Klaassen proposes that two principal genres of illicit learned magic occur in late medieval manuscripts image magic which could be interpreted and justified in scholastic terms and ritual magic in its extreme form overt necromancy which could not Image magic tended to be recopied faithfully ritual magic tended to be adapted and reworked These two forms of magic did not usually become intermingled in the manuscripts but were presented separately While image magic was often copied in the fourteenth and fifteenth centuries The Transformations of Magic demonstrates that interest in it as an independent genre declined precipitously around 1500 Instead what persisted was the other more problematic form of magic ritual magic Klaassen shows that texts of medieval ritual magic were cherished in the sixteenth century and writers of new magical treatises such as Agrippa von Nettesheim and John Dee were far more deeply indebted to medieval tradition and specifically to the medieval tradition of ritual magic than previous scholars have thought them to be Apocalyptic and Merkavah Mysticism Gruenwald, 2018-11-26 Preliminary
