The Magnetic Pulse of Life Alan Cruice, 2019-03-08 Earth's endemic life exists on an active planet and its physical characteristics shape its development by affecting it in many ways. The planet's magnetic field plays its part in that scenario. In this new book, the author concentrates on this little understood aspect of terrestrial life's existence. In an all-pervasive way, Earth's natural magnetism imparts a pulse to the life forms that exist on the planet. From the very simplest to the most complex organisms cannot ignore their natural magnetic environment. A lot of recent research into this phenomenon has been collated and reviewed by the author. In this book, he appraises the evidence from that research in a scientific yet interesting manner.

**The Castle Cross the Magnet Carter** Kia Corthron, 2016-01-26 Winner of the Center for Fiction's 2016 First Novel Prize. The hotly anticipated first novel by lauded playwright and *The Wire* TV writer Kia Corthron. *The Castle Cross the Magnet Carter* sweeps American history from 1941 to the twenty-first century through the lives of four men: two white brothers from rural Alabama and two black brothers from small-town Maryland whose journey culminates in an explosive and devastating encounter between the two families. On the eve of America's entry into World War II in a tiny Alabama town, two brothers come of age in the shadow of the local chapter of the Klan where Randall, a brilliant eighth grader and the son of a sawmill worker, begins teaching sign language to his eighteen-year-old deaf and uneducated brother B.J. Simultaneously in small-town Maryland, the sons of a Pullman Porter, gifted six-year-old Eliot and his artistic twelve-year-old brother Dwight, grow up navigating a world expanded both by a visit from civil and labor rights activist A. Philip Randolph and by the legacy of a lynched great aunt. The four mature into men directly confronting the fierce resistance to the early civil rights movement and are all ultimately uprooted. Corthron's ear for dialogue, honed from years of theater work, brings to life all the major concerns and movements of America's past century through the organic growth of her marginalized characters and embraces a quiet beauty in their everyday existences. Sharing a cultural and literary heritage with the work of Toni Morrison, Alex Haley, and Edward P. Jones, Kia Corthron's *The Castle Cross the Magnet Carter* is a monumental epic deftly bridging the political and the poetic and wrought by one of America's most recently recognized treasures.
