Magnificence Onstage at the Met Robert Jacobson,1990-12-01 Provides a detailed illustrated survey of twenty major productions in the repertory of the Metropolitan Opera from the past two decades *Opera* Guy A. Marco,2002-05-03 *Opera* is the only guide to the research writings on all aspects of opera This second edition presents 2 833 titles over 2 000 more than the first edition of books parts of books articles and dissertations with full bibliographic descriptions and critical annotations Users will find the core literature on the operas of 320 individual composers and details of operatic life in 43 countries All relevant works through to November 1999 have been considered covering more than fifteen years of literature since the first edition was published **Scenographic Imagination** Darwin Reid Payne,1993 In this enlarged and thoroughly revised third edition of his widely used text Darwin Reid Payne explores the principles and philosophies that shape the visual elements of theatre Payne sets out to discover who scenographers are and to define their responsibilities He sees scenographers as not merely craftspersons but artists with a special vision that spans all the arts Such artists are in a position to extend and amplify underlying meanings of the production The proper goal of beginning scenographers according to Payne is one day to be able to approach the job as artists in full command of their craft Payne seeks to instill in beginning scenographers a basic core of knowledge an understanding of theatre history and the development of drama a knowledge of art history and an understanding of periods and styles of architecture painting sculpture furnishings and costume and a familiarity with the principles techniques and materials of pictorial and three dimensional design This new edition contains 248 illustrations 38 more than the second edition Payne s goal certainly is to teach students what to do and how to do it equally important however is Payne s view that scenographers must know why To Payne Scenography is an art whose scope is nothing less than the whole world outside the theatre Scenographers must read not only in their own field but in others as well Payne has incorporated into his text many suggestions for outside readings quoting passages and even entire chapters from important works Stressing research Payne argues that without knowledge of the literature of their own and related arts scenographers cannot grow And that is the emphasis of this book to present aspiring scenographers with an approach and a set of concepts that will enable them to grow Toward that end Payne establishes five priorities the first of which is to develop in students what he calls time vision or the ability to see the historical past as a living place with living inhabitants The second priority is to bring about an awareness that allows students to see beneath the surface of objects and events Third students must be helped to recognize and appreciate the difference between the concept of space as it exists outside the theatre and the concept of space as it is used within the theatre The fourth priority is to ingrain in students an understanding of the importance of imagery to the scenographer and the final priority is to teach those technical skills necessary to carry out the concepts of the scenographer Fritz Reiner, Maestro and Martinet Kenneth Morgan,2010-10-01 This award

winning book now available in paperback is the first solid appraisal of the legendary career of the eminent Hungarian born conductor Fritz Reiner 1888 1963 Personally enigmatic and often described as difficult to work with he was nevertheless renowned for the dynamic galvanization of the orchestras he led a nearly unrivaled technical ability and high professional standards Reiner's influence in the United States began in the early 1920s and lasted until his death Reiner was also deeply committed to serious music in American life especially through the promotion of new scores In Fritz Reiner Maestro and Martinet Kenneth Morgan paints a very real portrait of a man who was both his own worst enemy and one of the true titans of his profession

The Opera Theatre of Jean-Pierre Ponnelle Kristina Bendikas, 2004 Bendikas research work is particularly praiseworthy given the difficulty of recreating the ephemeral experience of any staged production Her examples are specific grounded in impeccable scholarship and employed to make important forays into matters of twentieth century stage practice and theory as well as suggesting important questions about aesthetics and artistry in general For theatre practitioners the implications of Ponnelle's work for performance are immensely valuable Langdon Brown University at Albany This work is the first full length analysis of the major productions of Jean Pierre Ponnelle 1932 1988 who has been
