Advancing the Cause of Education Indiana State Teachers Association, 2004 Over the next 150 years members of the Association stood ready to advance the cause of education This advancement was neither steady nor easy The Association endured many crises some financial and some organizational Pushed at times by charismatic leaders and driven at other times by the winds of cultural change the Association was and still is an organization of individuals The

history of ISTA is divided into three eras The first period deals with the defining of the Association and chronicles its quest for universal public education and its efforts to establish professional standards and secure benefits for teachers Although this group of educators was a loosely knit association of individuals they were able to accomplish much Jacket The Death and Resurrection of a Coherent Literature Curriculum Sandra Stotsky, 2012-06-16 This book is addressed to teachers who know that the secondary literature curriculum in our public schools is in shambles Unless experienced and well read English teachers can develop coherent and increasingly demanding literature curricula in their schools average high school students will remain at about the fifth or sixth grade reading level where they now are to judge from several independent sources This book seeks to challenge education policy makers test developers and educators who discourage the assignment of appropriately difficult works to high school students and make construction of a coherent literature curriculum impossible It first traces the history of the literature curriculum in our middle schools and high schools and shows how it has been diminished and distorted in the past half century It then offers examples of coherent literature curricula and spells out the cognitive principles upon which coherence is based Finally it suggests what English teachers in our public schools could do to develop a literature curriculum that gives all their students an adequate basis for participation in an English speaking civic culture *Books In Print 2004-2005* Ed Bowker Staff, Staff Bowker, Ed, 2004 *A History of the Book in America* David Paul Nord, Joan Shelley Rubin, Michael Schudson, 2015-12-01 The fifth volume of A History of the Book in America addresses the economic social and cultural shifts affecting print culture from World War II to the present During this period factors such as the expansion of government the growth of higher education the climate of the Cold War globalization and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier The thirty three contributors to the volume explore the evolution of the publishing industry and the business of bookselling The histories of government publishing law and policy the periodical press literary criticism and reading in settings such as schools libraries book clubs self help programs and collectors societies receive imaginative scrutiny as well The Enduring Book demonstrates that the corporate consolidations of the last half century have left space for the independent publisher that multiplicity continues to define American print culture and that even in the digital age the book endures Contributors David Abrahamson Northwestern University James L Baughman University of Wisconsin Madison Kenneth Cmiel d 2006 James Danky University of Wisconsin Madison Robert DeMaria Jr Vassar College Donald A Downs University of Wisconsin Madison Robert W Frase d 2003 Paul C Gutjahr Indiana University David D Hall Harvard Divinity School John B Hench American Antiquarian Society Patrick Henry New York City College of Technology Dan Lacy d 2001 Marshall Leaffer Indiana University Bruce Lewenstein Cornell University Elizabeth Long Rice University Beth Luey Arizona State University Tom McCarthy Beirut Lebanon Laura J Miller Brandeis University Priscilla Coit Murphy Chapel Hill N C David Paul Nord Indiana University Carol Polsgrove Indiana University David Reinking Clemson University Jane Rhodes

Life after Foster Care Loring Paul Jones, 2018-08-17 This book appraises readers of the present conditions of former and emancipated foster youth provides evidence based best practices regarding their experiences and proposes new policies for ensuring better outcomes for these children upon discharge from foster care For most American youth the transition to adulthood is gradual and aided by support from parents and others In contrast foster youth are expected to arrive at self sufficiency abruptly and without the same level of support Such an expectation may be due in part to what Loring Paul Jones has found in his research that many of the studies conducted thus far have been fragmented and incomplete often focusing on a particular state or agency that may follow policies not applicable nationwide This book connects the dots between these disparate studies to provide child welfare practitioners policy makers and students with a broader picture of the state of American youth following discharge from foster care It examines not only child welfare policies but also related policies in areas such as housing and education that may contribute to the success or failure of foster youth in society It additionally draws lessons from successful programs to provide readers with the tools needed to develop foster and after care systems that more closely mirror the support afforded to youth in the general population
