**The Magus of the North** Isaiah Berlin, 1993      **The Magus of the North** Isaiah Berlin, Henry Hardy, 1993 The Königsberg lay theologian and philosopher J G Hamann 1730-88 is undeniably an obscure figure A solitary isolated thinker inclined to mysticism he lived all his life in poverty and neglect despite the admiration of Herder and Goethe Yet this neglect Isaiah Berlin argues is undeserved Hamann was a man of profoundly original opinions whose importance has only become apparent in our own time He was the first out and out opponent of the Enlightenment the father of modern European irrationalism and a crucial forerunner of romanticism and existentialism a uniquely independent thinker who deserves to be rescued from the comparative oblivion in which at any rate in the English speaking world he has languished since his death two centuries ago      Three Critics of the Enlightenment Isaiah Berlin, 2000-10 Princeton is pleased to return to print Isaiah Berlin's essays on three uncelebrated thinkers Vico Hamann and Herder which have been edited by Hardy to introduce this important work to a broader readership These essays are not marginal ruminations but rather Berlin's most important studies in the history of ideas      Working for the Public Good Leslie F. Weber Jr., 2025-10-21 Weber demonstrates conclusively that despite historical critiques of quietism European Lutherans developed a social ethics in the centuries following the Reformation that brought about fundamental systemic and structural changes in social services law education health care the formation of states and nations and public morality Those changes eventually led to the development of the welfare state In so doing Weber challenges interpretations by scholars such as the German Lutheran theologian Ernst Troeltsch who argued that Lutheran theology created a church operating at a remove from society's pressing questions Weber's comprehensive coverage of northern European society from the Reformation era through the nineteenth century utilizes the tools of sociology theology history and ethics to demonstrate that Lutheran ethical theory a Lutheran understanding of the social order and Lutheran social reforms lie at the heart of modern European social institutions Grounded in a Lutheran ethic of faith active in love for the neighbor Lutheran ethics transformed the household and polity developed government care for the poor protected public health and promoted social welfare within a new moral and legal order that continues to underpin contemporary social democracy across northern Europe      **In the Embrace of the Swan** Rüdiger Görner, Angus Nicholls, 2010-08-31 Myths determine the way cultures understand themselves The papers in this volume examine culturally specific myths in Britain and the German speaking world and compare approaches to the theory of myth together with the ways in which mythological formations operate in literature aesthetics and politics with a focus on the period around 1800 They enquire into the consequences of myth oriented discourses for the way in which these two cultures understand each other and in this way make a significant contribution to a more profound approach to intercultural research      **After Enlightenment** John R. Betz, 2012-03-12 After Enlightenment Hamann as Post Secular Visionary is a comprehensive introduction to the life and works of eighteenth century German philosopher J G Hamann the founding father

of what has come to be known as Radical Orthodoxy Provides a long overdue comprehensive introduction to Haman s fascinating life and controversial works including his role as a friend and critic of Kant and some of the most renowned German intellectuals of the age Features substantial new translations of the most important passages from across Hamann s writings some of which have never been translated into English Examines Hamann s highly original views on a range of topics including faith reason revelation Christianity biblical exegesis Socrates theological aesthetics language sexuality religion politics and the relationship between Judaism and Christianity Presents Hamann as the founding father of a distinctly post modern post secular theology and as such as an alternative to the postmodern triumvirate of Nietzsche Heidegger and Derrida Considers Hamann s work as a touchstone of modern Jewish Christian dialogue in view of debates with his friend Moses Mendelssohn Explores Hamann s role as the visionary founder of a metacritical movement that radically calls into question the basic principles of modern secular reason and thus reprises the debate between those defending Hamann s views and those labeling him the b te noir of the Enlightenment

**Pandora's Box Opened** Roy A. Harrisville,2014-08-09 For many the historical critical method has released a host of threats to Christian faith

and confession In Pandora s Box Opened however Roy Harrisville argues that despite the evils brought upon biblical interpretation by the historical critical method there is still hope for it as a discipline Harrisville begins by describing the emergence and use of the historical critical method He then attends to the malaise that has come over the method which he says still persists Finally Harrisville commends the historical critical method though shorn of its arrogance He claims that the method and all its users comprise a Pandora s Box that when opened releases a myriad other pains but hope still remains
