The Romantic School in Germany** Georg Brandes, 2019-12-03 This book is a comprehensive guide to German Romanticism which was the dominant intellectual movement of German speaking countries in the late 18th and early 19th centuries influencing philosophy aesthetics literature and criticism Compared to English Romanticism the German variety developed relatively early and in the opening years coincided with Weimar Classicism In contrast to the seriousness of English Romanticism the German variety of Romanticism notably valued wit humor and beauty The early German Romantics strove to create a new synthesis of art philosophy and science by viewing the Middle Ages as a simpler period of integrated culture however the German Romantics became aware of the tenuousness of the cultural unity they sought Late stage German Romanticism emphasized the tension between the daily world and the irrational and supernatural projections of creative genius In particular the critic Heinrich Heine criticized the tendency of the early German Romantics to look to the medieval past as a model of unity in art and society      **Main Currents in Nineteenth Century Literature, Vol. 1 of 6 (Classic Reprint)** George Brandes, 2015-07-17 Excerpt from Main Currents in Nineteenth Century Literature Vol 1 of 6 This movement emanated from Berlin the student movement from Thuringia The latter began as a sort of semi national semi christian enthusiasm and aimed among other things at the reform of the low standard of manners and morals among the students Originating in one of the small States of Germany it took for its programme that famous song of Arndt's which declares the whole of Germany to be the German's fatherland About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Main Currents in Nineteenth Century Literature, Vol. 4 of 6 (Classic Reprint)* George Brandes, 2016-06-21 Excerpt from Main Currents in Nineteenth Century Literature Vol 4 of 6 It is my intention to trace in the poetry of England of the first decades of this century the course of the strong deep pregnant current in the intellectual life Of the country which sweeping away the

Classic forms and conventions produces a Naturalism dominating the whole of literature which from Naturalism leads to Radicalism from revolt against traditional convention in literature to vigorous rebellion against religious and political reaction and which bears in its bosom the germs Of all the liberal ideas and emancipatory achievements Of the later periods of European Civilisation The literary period which I now proceed to describe is a vigorous highly productive one It has authors and schools Of the most dissimilar types sometimes not merely unlike but antagonistic to each other Though the connection between these authors and schools is not self evident but only discernible to the understanding critical eye yet the period has its unity and the picture it presents though a many coloured restless one is a coherent composition the work of the great artist history About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

George Brandes, 2018-03-03 Excerpt from Main Currents in Nineteenth Century Literature Vol 5 of 6 The decade 1825 35 the most remarkable and most fertile period from the literary point of view was from the political colourless and inglorious Its focus is the Revola tion of July but this Revolution is a solitary blood spot amidst all the grey About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

*Main Currents of Nineteenth Century Literature* Georg Brandes, 1923      *Main Currents in Nineteenth Century Literature, Vol. 1 of 6* George Brandes, 2015-07-09 Excerpt from Main Currents in Nineteenth Century Literature Vol 1 of 6 The Emigrant Literature It is my intention in the present work to trace the outlines of a psychology of the first half of the nineteenth century by means of the study of certain main groups and movements in European literature The stormy year 1848 a historical turning point and hence a break is the limit to which I purpose following the process of development The period between the beginning and the middle of the century presents the spectacle of many scattered and apparently disconnected literary efforts and phenomena But he who carefully observes the main currents of literature perceives that their movements are all conditioned by one great leading movement with its ebb and flow namely the gradual fading away and disappearance of the ideas and feelings of the preceding century and the return of the idea of progress in new ever

higher mounting waves The central subject of this work is then the reaction in the first decades of the nineteenth century against the literature of the eighteenth and the vanquishment of that reaction This historic incident is of European interest and can only be understood by a comparative study of European literature Such a study I purpose attempting by simultaneously tracing the course of the most important movements in French German and English literature The comparative view possesses the double advantage of bringing foreign literature so near to us that we can assimilate it and of removing our own until we are enabled to see it in its true perspective We neither see what is too near the eye nor what is too far away from it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Brandes, 1902 From the days of the Holy Alliance onward the spirit of systematic reaction brooded over the German countries a reaction which dated from the Congress of Vienna and had its centre in Austria Its most typical representative Metternich a pupil of Talleyrand a less adroit but far more mischievous man than his master hoped to extend it to the whole of Europe Everything that had been shaken loosened or overturned by the Revolution or by Napoleon was to be repaired and re established In the struggle with the great enemy they had been obliged at last to resort to every possible method had been forced to appeal to the people instead of simply commanding to appeal to their sentiment in place of their allegiance and even to promise a thing as contrary to all cabinet policy as youthfully revolutionary as the regeneration of Germany There had been it is true a very noticeable difference between the Austrian and the Prussian watchwords Justice and Order Order and Peace were the cues of the Austrian proclamations those of the Prussian were The Nation Freedom and Honour Germany Still both of the great German States had made more concessions to the spirit of the times than at all suited the ideas of their leading statesmen And no sooner was the enemy driven off the heir of the Revolution crippled and the war of freedom ended than it became their object to put an end to the freedom as they had put an end to the war
