Masterpieces of Greek Sculpture Adolf Furtwängler,2015-06-13 Excerpt from Masterpieces of Greek Sculpture A Series of Essays on the History of Art Any unprejudiced attempt to form from the text books now in use an estimate of the state of our knowledge of the history of art among the Greeks will force us to own with shame that we appear to know and to utilize the monuments far less than did Winckelmann in his day Winckelmann s History of Art is wholly based upon a fresh and personal observation of the monuments of which he makes a constant and extensive use Our more recent histories of art are wont to take into consideration only one and the same small group of monuments an accidental section of the mass of what has been preserved Ever since Brunn laid with a master hand the foundation for the history and the characterization of the Greek artists so far as these can be gathered from the traditions of the ancients writers have for the most part been content to repeat what he established only perhaps adding an occasional selected monument to trim as it were the fabric of his weaving Still it was quite justifiable to be thus prudent and cautious in dealing with the monuments so long as we only painfully groped our way amidst the wealth of remains without knowing how they should be utilized it was certainly better to

limit investigation to the little which was ascertained than to venture without stay or support upon the ocean of what actually exists Modern science however has afforded us a stay which enables us to keep steadily in the direction of our goal Any one who understands how to observe the monuments and who is willing with indefatigable ardour to test afresh and compare all forms may nowadays by means of photography which helps to fix the individual objects obtain a picture of Greek art far more richly coloured than the pale and meagre image we have hitherto possessed I know that many fellow scholars are engaged upon these lines and it is only by combined effort that we shall be able to advance Each must bring what contributions he can About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Art and Civilization* Francis Sydney Marvin,1928 Subject-index to the author-catalogue. 1908-10. 2 v National Library (India),1929 Subject-index to the author-catalogue. 1908-10. 2 v Imperial Library, Calcutta,1929 *Greek Art: Oxford Bibliographies Online Research Guide* Oxford University Press,2010-05-01 This ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated A reader will discover for instance the most reliable introductions and overviews to the topic and the most important publications on various areas of scholarly interest within this topic In classics as in other disciplines researchers at all levels are drowning in potentially useful scholarly information and this guide has been created as a tool for cutting through that material to find the exact source you need This ebook is just one of many articles from Oxford Bibliographies Online Classics a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of classics Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.aboutobo.com
