The Masters and the Slaves A. Isfahani-Hammond, 2017-03-06 This collection presents a comparative study of the impact of slavery on the literary and cultural imagination of the Americas and also on the impact of writing on slavery on the social legacies of slavery's history The chapters examine the relationship of slavery and master slave relations to nationalist projects throughout the Americas the ways in which a history of slavery and its abolition has shaped a nation's identity and race relations within that nation The scope of the study is unprecedented the book ties together the entire Black Atlantic including the French and Spanish Caribbean the US and Brazil Through reading texts on slavery and its legacy from these countries the volume addresses the eroticization of the plantation economy various formations of the master slave dialectic as it has emerged in different national contexts the plantation as metaphor and the relationship between texts that use cultural vs biological narratives of mestizaje being interracial These texts are examined with the goal of locating the origins of the different notions of race and racial orders that have arisen throughout the Americas Isfahani Hammond argues that without a critical revisiting of slavery and its various incarnations throughout the Americas it is impossible to understand and rethink race relations in today's world

The New Dynamics of Identity Politics in the Americas Olaf Kaltmeier, 2017-07-05 Multiculturalism has shaped identity politics in the Americas over the past decades as illustrated by politics of recognition affirmative action and increasing numbers of internationally recognized cultural productions by members of ethnic minorities Hinting at postcolonial legacies in political rhetoric and practice multiculturalism has also served as a driving force behind social movements in the Americas Nevertheless in current academic discussions and public debates on migration globalization and identity politics concepts like new ethnicities ethnic groupism creolization hybridity mestizaje diasporas and post ethnicity articulate positionings that are profoundly changing

our understanding of multiculturalism Combining theoretical reflections with case studies the aim of this book is to demonstrate the current dynamics of post multicultural politics in the Americas This book was based on a special issue of Latin American and Caribbean Ethnic Studies **Latin American Readings for a Cultural Age** E. Santi,2016-10-18 Gathered in one volume are seven of the best essays written in the last fifteen years or so by the eminent Latin Americanist Enrico Mario Sant The essays cover a wide range of topics in Latin American poetry narrative film and intellectual history and also explore Spanish Peninsular subject matter the Spanish Generation of 98 s response to Spain s loss of Cuba in the Spanish American War of 1898 The essays are introduced by a long text in which the author develops a bracing critique of some dominant trends in current critical practice and spells out an alternative methodology *Corporeality in Early Twentieth-Century Latin American Literature* B. Giusti-Cordero,G. R. Knight,2007 Sugar was

the single most valuable bulk commodity traded internationally before oil became the world's prime resource. From the sixteenth to the eighteenth century, cane sugar production was pre-eminent in the Atlantic Islands, the Caribbean, and Brazil. Subsequently, cane sugar industries in the Americas were transformed by a fusion of new and old forces of production as the international sugar economy incorporated production areas in Asia, the Pacific, and Africa. Sugar's global economic importance and its intimate relationship with colonialism offer an important context for probing the nature of colonial societies. This book questions some major assumptions about the nexus between sugar production and colonial societies in the Caribbean and Southeast Asia, especially in the second post-1800 colonial era.

Machado de Assis, Blackness, and the Americas Vanessa K. Valdés, Earl E. Fitz, 2024-08-01. Considered a genius in his own lifetime, Joaquim Maria Machado de Assis (1839-1908) is Brazil's most canonized writer. Yet he remains a contested and even enigmatic figure to readers in Brazil and abroad, his relative silence on slavery leaving him vulnerable to charges of aspirations to whiteness. Machado de Assis, *Blackness and the Americas*, reconsiders this issue by exploring how his prose fiction has been received in the United States. In seven original essays, contributors re-examine his novels and short stories as well as photographs of the writer in order to better understand the strategies he employed to navigate Brazil's literary scene as a man of African descent. Framed by a contextualizing introduction and an afterword in the form of a conversation between the editors, the volume speaks to and with our own historical moment and the realities of Black lives in the Americas over the course of the last two centuries.
