**Masters of Deceit** J. Hoover, 2012-04-08 J Edgar Hoover analyzes the Communist movement in the United States

**Masters of Deceit** J. Edgar Hoover, 2013-10 This is a new release of the original 1958 edition **Masters of Deceit** John Edgar Hoover (Hoofd Federal Bureau of Investigation, USA), 1958 *Masters of Deceit* *The Story of Communism in America and How to Fight It* J. Edgar Hoover, 1958 *Conspiracy Nation* Peter Knight, 2002-02 An intriguing interrogation of America's long running obsession with conspiracy theories Why are Americans today so fascinated by Area 51 How did rumors that the AIDS virus originated as a weapon of biowarfare emerge Why does the Kennedy assassination provoke heated debate over fifty years after the fact and why did Donald Trump's birther theories only serve to increase his popularity with voters The origins of these ideas reveal important facets of American culture and politics Placing conspiracy thinking at the center of American history and challenging the knee jerk dismissal of conspiratorial thought as deluded and often dangerous *Conspiracy Nation* provides a wide ranging survey of conspiracy theories in contemporary America In the 19th century inflammatory rhetoric about slave revolts the well publicized specter of the black rapist and the formation of the Ku Klux Klan all worked as conspiracy theories to legitimate an emerging sense of national consciousness based on an ideology of white supremacy one that still persists today In our contemporary world panicked responses to increasing multiculturalism and globalization yield new notions of victimhood and new theories about conspiratorial plans for global domination Offering up a provocative array of examples ranging from alien abduction to the novels of DeLillo and Pynchon to Tupac Shakur's paranoid style *Conspiracy Nation* documents and unearths the workings of conspiracy in the contemporary moment Contributors Clare Birchall Jack Bratich Bridget Brown Jodi Dean Ingrid Walker Fields Douglas Kellner Peter Knight Fran Mason John A McClure Timothy Melley Eithne Quinn and Skip Willman *Awake America* Barlane Ronald Eichbaum, 2011-07-08 The United States entered the third century of its existence facing many social political and religious issues Socialism Communism and terrorism are such threats Christianity is not practiced as in the past Many US citizens neglect the Word of God and moral decay has risen rapidly May our people seek God's direction as per II Chronicles 7:14 so God will bless America and its future American patriots like Billy Graham J Edgar Hoover and William Buckley expressed facts thoughts and quotations in the field of politics religion law defense energy environment and economics Presently our military power is being reduced Author Barlane Eichbaum relates biblical prophecy and writings on the Greek Roman and British empires to American maladies These same signs of decay have led other once great powers to their downfall This historical and biblical perspective that Eichbaum possesses is a strong plus for *Awake America* *The World of the John Birch Society* D. Mulloy, 2014-06-27 As far as members of the hugely controversial John Birch Society were concerned the Cold War revealed in stark clarity the loyalties and disloyalties of numerous important Americans including Dwight Eisenhower John Kennedy and Earl Warren Founded in 1958 as a force for conservative political advocacy the Society

espoused the dangers of enemies foreign and domestic including the Soviet Union organizers of the US civil rights movement and government officials who were deemed soft on communism in both the Republican and Democratic parties Sound familiar In *The World of the John Birch Society* author D J Mulloy reveals the tactics of the Society in a way they've never been understood before allowing the reader to make the connections to contemporary American politics up to and including the Tea Party These tactics included organized dissemination of broad based accusations and innuendo political brinksmanship within the Republican Party and frequent doomsday predictions regarding world events At the heart of the organization was Robert Welch a charismatic writer and organizer who is revealed to have been the lifeblood of the Society's efforts The Society has seen its influence recede from the high water mark of 1970s but the organization still exists today Throughout *The World of the John Birch Society* the reader sees the very tenets and practices in play that make the contemporary Tea Party so effective on a local level Indeed without the John Birch Society paving the way the Tea Party may have encountered a dramatically different political terrain on its path to power **Culture Wars** Roger Chapman,2015-03-17

The term culture wars refers to the political and sociological polarisation that has characterised American society the past several decades This new edition provides an enlightening and comprehensive A to Z ready reference now with supporting primary documents on major topics of contemporary importance for students teachers and the general reader It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a balanced context With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues this is a unique and defining work indispensable to informed discussions of the most timely and critical issues facing America today **Inventing the Modern American Family** Isabel Heinemann,2012-05-14 Die USA durchliefen im 20. Jahrhundert einen enormen sozialen Wandel im Zuge dessen auch Familienwerte und Geschlechternormen neu ausgehandelt wurden Die Autorinnen und Autoren analysieren die damit einhergehende Veränderung von Weiblichkeits- und Männlichkeitskonzepten sowie von Mutter- und Vaterrollen Am Beispiel von Immigration Jugendkriminalität Wohlfahrtspolitik Reproduktion und Medien liefern die Beiträge ein anschauliches Bild von der Bedeutung der Familie als nationaler Kerneinheit

**Conservatives Without Conscience** John W. Dean,2006-07-11 On the heels of his national bestseller *Worse Than Watergate* John Dean takes a critical look at the current conservative movement In *Conservatives Without Conscience* John Dean places the conservative movement's inner circle of leaders in the Republican Party under scrutiny Dean finds their policies and mind set to be fundamentally authoritarian and as such a danger to democracy By examining the legacies of such old line conservatives as J. Edgar Hoover Spiro Agnew and Phyllis Schlafly and of such current figures as Dick Cheney Newt Gingrich and leaders of the Religious Right Dean presents an alarming record of abuses of power His trenchant analysis of how conservatism has lost its bearings serves as a chilling warning and a stirring inspiration to safeguard constitutional principles **Borderline** Stan Goff,2015-02-11 What if the sanctification of war and contempt for women are both grounded

in a fear that breeds hostility and a hostility that rationalizes conquest The anti Gospel Christian history of war loving and women hating are not merely similar but two aspects of the same dynamic argues Stan Goff in an autobiography that spans millennia Borderline is the historical and conceptual autobiography of a former career army veteran transformed by Jesus into a passionate advocate for nonviolence written by a man who narrates his conversion to Christianity through feminism

*The Folk Singers and the Bureau* Aaron Leonard, 2020-09-08 The first book to document the efforts of the FBI against the most famous American folk singers of the mid twentieth century including Woody Guthrie Sis Cunningham Pete Seeger Lee Hays and Burl Ives Some of the most prominent folk singers of the twentieth century including Woody Guthrie Sis Cunningham Pete Seeger Lee Hays Burl Ives etc were also political activists with various associations with the American Communist Party As a consequence the FBI along with other governmental and right wing organizations were monitoring them keeping meticulous files running many thousands of pages and making and carrying out plans to purge them from the cultural realm In *The Folk Singers and the Bureau* Aaron J Leonard draws on an unprecedented array of declassified documents and never before released files to shed light on the interplay between left wing folk artists and their relationship with the American Communist Party and how it put them in the US government's repressive cross hairs At a time of increasing state surveillance and repression *The Folk Singers and the Bureau* shows how the FBI and other governmental agencies have attempted to shape and repress American culture

#### **Don't Thank Me For My Service** S. Brian

Willson, 2018-11-15 Viet Nam veteran S Brian Willson was so shocked by the diabolical nature of the US war against Viet Nam irreversible knowledge as he describes it and his own appalling ignorance from his cultural conditioning that it sparked a lifetime of anti war activism This toxic jolt awakened him to the extent to which he and generations of American citizens had thoughtlessly succumbed to the relentless barrage of lies and propaganda that infest US American culture from the military and political parties to religious institutions academic and educational institutions sports fraternal and professional associations the scientific community the economic system and all our entertainment that seek to rationalize its otherwise inexplicable and morally repulsive behavior globally and at home US American history reveals a unifying theme prosperity for a few through expansion at any cost to preserve the exceptional American Way of Life AWOL This has been structurally guided and facilitated by our nation's founding documents including the US Constitution From the beginning the US was envisaged as a White male supremacist state serving to protect and advance the interests of private and commercial property The US waged war in Viet Nam was not an aberration but one of hundreds in a long pattern of brutal exploitation A quick review of the empirical record reveals close to 600 overt military interventions by the US into dozens of countries since 1798 almost 400 since the end of World War II alone and thousands of covert interventions since 1947 This history overwhelms any rhetoric about the United States as a beacon of freedom and democracy committed to promoting domestic and global equal justice under law These interventions have assured de facto subsidies for US American interests regulated global

markets on our terms and provided us with access to cheap or free labor and to raw materials Millions of people around the globe have been murdered with virtual impunity as a result of our interventions in a pattern that illustrates what Noam Chomsky calls the Fifth Freedom the freedom to rob and exploit This freedom is ultimately protected with use of force when a country or movement seeks to protect or advance the domestic needs and desires of its members or citizens for political freedom or economic wellbeing This book provides an invaluable tool for today s activists however they may be similarly shocked into wakefulness Presidential Power and the American Political System Frank M. Sorrentino PhD,2019-04-05

The most significant and dynamic struggles for power in the United States of America occur between presidents and the federal bureaucracies and these struggles often overshadow those between Congress and the courts The Federal Bureau of Investigation along with other agencies such as the Central Intelligence Agency the National Security Agency and the Department of Defense all wield significant political power In Presidential Power and the American Political System author Frank M Sorrentino analyzes the president s ability to influence and prevail over these powerful bureaus He eloquently evaluates how effective presidents have been in this regard since these agencies have great expertise and control over crucial national and international security information In addition presidents must effectively navigate the unique American political system that includes separation of powers federalism and decentralized and undisciplined political parties all of which serve to dilute executive power Using the case study of the FBI Sorrentino shows how bureaus can inject their interests and political values into their work and goals Presidential Power and the American Political System demonstrates the power of the FBI in particular to be a bureau that pursues its own interests and can have a significant impact on limiting presidential power and other actors in the wider American political system **The Nature of Conspiracy Theories**

Michael Butter,2020-10-06 Conspiracy theories seem to be proliferating today Long relegated to a niche existence conspiracy theories are now pervasive and older conspiracy theories have been joined by a constant stream of new ones that the USA carried out the 9 11 attacks itself that the Ukrainian crisis was orchestrated by NATO that we are being secretly controlled by a New World Order that keep us docile via chemtrails and vaccinations Not to mention the moon landing that never happened But what are conspiracy theories and why do people believe them Have they always existed or are they something new a feature of our modern world In this book Michael Butter provides a clear and comprehensive introduction to the nature and development of conspiracy theories Contrary to popular belief he shows that conspiracy theories are less popular and influential today than they were in the past Up to the 1950s the Western world regarded conspiracy theories as a legitimate form of knowledge and it was therefore normal to believe in them It was only after the Second World War that this knowledge was delegitimized causing conspiracy theories to be banished from public discourse and relegated to subcultures The recent renaissance of conspiracy theories is linked to internet which gives them wider exposure and contributes to the fragmentation of the public sphere Conspiracy theories are still stigmatized today in many sections of mainstream culture but

are being accepted once again as legitimate knowledge in others It is the clash between these domains and their different conceptions of truth that is fuelling the current debate over conspiracy theories

**Turncoats, Traitors, and Fellow Travelers** Arthur F. Redding, 2008 The Cold War was unique in the way films books television shows colleges and universities and practices of everyday life were enlisted to create American political consensus This coercion fostered a seemingly hegemonic nationally unified perspective devoted to spreading a capitalist socially conservative notion of freedom throughout the world to fight Communism This book traces the historical contours of this manufactured consent by considering the ways in which authors playwrights and directors participated in responded to and resisted the construction of Cold War discourses

**Crockett Johnson and Ruth Krauss** Philip Nel, 2012-07-30 Crockett Johnson born David Johnson Leisk 1906 1975 and Ruth Krauss 1901 1993 were a husband and wife team that created such popular children s books as *The Carrot Seed* and *How to Make an Earthquake* Separately Johnson created the enduring children s classic *Harold and the Purple Crayon* and the groundbreaking comic strip *Barnaby* Krauss wrote over a dozen children s books illustrated by others and pioneered the use of spontaneous loose tongued kids in children s literature Together Johnson and Krauss s style whimsical writing clear and minimalist drawing and a child s point of view is among the most revered and influential in children s literature and cartooning inspiring the work of Maurice Sendak Charles M Schulz Chris Van Allsburg and Jon Scieszka This critical biography examines their lives and careers including their separate achievements when not collaborating Using correspondence sketches contemporary newspaper and magazine accounts archived and personal interviews author Philip Nel draws a compelling portrait of a couple whose output encompassed children s literature comics graphic design and the fine arts Their mentorship of now famous illustrator Maurice Sendak Where the Wild Things Are is examined at length as is the couple s appeal to adult contemporaries such as Duke Ellington and Dorothy Parker Defiantly leftist in an era of McCarthyism and Cold War paranoia Johnson and Krauss risked collaborations that often contained subtly rendered liberal themes Indeed they were under FBI surveillance for years Their legacy of considerable success invites readers to dream and to imagine drawing paths that take them anywhere they want to go

**To Face Down Dixie** James O. Heath, 2017-12-14 In an era during which the United States Supreme Court handed down some of its most important decisions including *Brown v Board of Education* 1954 *Baker v Carr* 1962 and *Miranda v Arizona* 1966 three senators from South Carolina Olin Johnston Strom Thurmond and Ernest Fritz Hollings waged war on the court s progressive agenda by targeting the federal judicial nominations process *To Face Down Dixie* explores these senators role in some of the most contentious confirmation battles in recent history including those of Thurgood Marshall Abe Fortas and Clement Haynsworth In scrutinizing Supreme Court nominees and attempting to restrict the power of the nine justices of the court these senators defied not only the leadership of the Democratic Party but also the Senate traditions of hierarchy and seniority

Along with South Carolina's conservative segregationist political establishment which maintained ironclad control over the state's legislature Johnstons Thurmond and Hollings effectively drowned out the many moderate voices in South Carolina that remained critical of their obstructionism thus advancing their own conservative credentials and boosting their chances of reelection To Face Down Dixie examines for the first time the central role that South Carolina played in turning Supreme Court nomination hearings into confrontational and political public events James O Heath argues that the state's war on the court concealed its antipathy to civil rights by using the confirmation process to challenge the court's function as the final arbiter of policy on questions relating to law and order obscenity communist subversion and school prayer Heath's study illustrates that while South Carolina's history of massive resistance is less prominent than that of other states its politicians acted as persistent antagonists in the complex and dramatic debates in the U S Senate during the era of civil rights Dirty Tricks or Trump Cards Roy Godson, 2018-02-06 Contrary to popular misconceptions and public branding as dirty tricks covert action and counterintelligence can have considerable value Democracies while wary of these instruments have benefited significantly from their use saving lives treasure and gaining strategic advantage As liberal democracies confront the post Cold War mix of rogue states and non state actors such as criminals and terrorists and weapons of mass destruction and mass disruption these clandestine arts may prove to be important tools of statecraft and perhaps trump cards in the twenty first century Godson defines covert action as influencing events in other parts of the world without attribution and counterintelligence as identifying neutralizing and exploiting the secret activities of others Together they provide the capability to resist manipulation and control others to advantage Counterintelligence protects U S military technological and diplomatic secrets and turns adversary intelligence to U S advantage Covert action enables the United States to weaken adversaries and to assist allies who may be hampered by open acknowledgment of foreign support Drawing on contemporary and historical literature broad ranging contacts with senior intelligence officials in many countries as well as his own research and experience as a longtime consultant to the U S government Godson traces the history of U S covert action and counterintelligence since 1945 showing that covert action works well when it is part of a well coordinated policy and when policy makers are committed to succeeding in the long term Godson argues that the best counterintelligence is an offensive defense His exposition of the essential theoretical foundations of both covert action and counterintelligence supported by historical examples lays out the ideal conditions for their use as well as demonstrating why they are so difficult to attain This book will be of interest to students and general readers interested in political science national security foreign policy and military policy
