Bradley, 2010-10-04 Though innumerable biographies have been written about novelists playwrights and poets screenwriters are rarely granted this distinction even ones as prolific and successful as Richard Matheson Beginning with The Incredible Shrinking Man in 1957 Matheson has occupied a unique position in writing for television and cinema for more than fifty years This biography documents his rise to prominence his literary influences and the role he played in the horror and science fiction renaissance The narrative examines each of Matheson s works in chronological order with an index indicating where each can be found from his early work in the 1950 s through I Am Legend in 2007 **Zombies!** Jovanka Vuckovic, George A. Romero, 2011-03-15 Celebrates zombie pop culture that has evolved since Night of the Living Dead tracing early mythological origins in African folklore and Haitian voodoo as well as modern incarnations in film literature and video gaming Cultivating Extreme Art Cinema Simon Hobbs, 2018-08-01 Using paratextual theory to address the accusations of gimmickry often directed towards extreme art films Cultivating Extreme Art Cinema focuses upon the DVD and Blu ray object analysing how sleeve designs blurbs and special features shape the identity of the film and Other Zones Stanley Wiater, Matthew Bradley, Paul Stuve, 2009 Richard Matheson author of I Am Legend has captivated inspired and terrified three generations of horror fantasy and science fiction fans This work is the first complete celebration of the man and his formidable legacy War and Existence Michael Gelven, 2005-07-26 War is a multifaceted and complex phenomenon that cannot be understood merely by isolating its underlying principles The elements that compose the vast mosaic of our conceptions of war must be identified and examined in light of their philosophical origins Michael Gelven not only identifies what the fundamental principles are but he also extracts from the history of philosophy the arguments and analyses of the concepts that explain how we think about it War and Existence is primarily concerned with what war is or what the truth about war is rather than the moral question of whether war ever ought to be waged it only indirectly considers the military concerns of how war out to be carried out The elements or marks of war such as courage horror heroism sacrifice command and vastness are each examined by reference to a great philosophical figure whose critical analyses of these elements provide us with a deep understanding of them Gelven does not restrict his inquiry to mere formal concerns since the philosophical marks of war are concretized in judgments about actual wars His holistic approach includes not only actual historical events that surround our greatest military conflicts but also literary figures poets and composers whose works wrestle with the enormity of this splendid yet troubling phenomenon The two phenomena war and peace are viewed against the entire background of humanity with all its folly and sublimity War and Existence thus offers a thoughtful coherent response to one of the most problematic issues of humanity
