**Aesthetics in the Cinematography of Gregg Toland** Philip Cowan, 2022-10-03 In this three part book length study of the work of Gregg Toland Philip Cowan explores approaches to co authorship in collaborative filmmaking to propose new ways of identifying attributing and evaluating the creative work of cinematographers In the first part of the study Cowan challenges the dominant director centered auteur approach to film studies critiquing the historical development of authorship theory and providing a contemporary analysis of the cinematographer's authorial role in creating images that communicate meaning through content and construction By synthesizing and updating the work of previous film theorists to define the complexities of composition movement and lighting in the second part of the study Cowan develops a new comprehensive taxonomy of functional and aesthetic elements of the moving image Finally by using the co author approach and the analytical tools developed in part two of the book Cowan provides an in depth re examination of Toland's work highlighting the historical neglect of the cinematographer's artistic contribution to filmmaking and developing a fresh approach to the analysis of contemporary cinematography in film      **Reality Fictions** Thomas W. Ritzenhoff, Angela Krewani, 2015-12-30 We live in a world at risk Dire predictions about our future or the demise of planet earth persist Even fictional representations depict narratives of decay and the end of a commonly shared social reality Along with recurring Hollywood blockbusters that imagine the end of the world there has been a new wave of zombie features as well as independent films that offer various visions of the future The Apocalypse in Film Dystopias Disasters and Other Visions about the End of the World offers an overview of Armageddon in film from the silent era to the present This collection of essays discusses how such films reflect social anxieties ones that are linked to economic ecological and cultural factors Featuring a broad spectrum of international scholars specializing in different historical genres and methodologies these essays look at a number of films including the silent classic The Four Horsemen of the Apocalypse the black comedy Dr Strangelove or How I Learned to Stop Worrying and Love the Bomb the Mayan calendar disaster epic 2012 and in particular Lars Von Trier's Melancholia the focus of several essays As some filmmakers translate the anxiety about a changing global climate and geo political relations into visions of the apocalypse others articulate worries about the planet's future by depicting chemical warfare environmental disasters or human made destruction This book analyzes the emergence of apocalyptic and dystopic narratives and explores the political and social situations on which these films are based Contributing to the dialogue on dystopic culture in war and peace The Apocalypse in Film will be of interest to scholars in film and media studies border studies gender studies sociology and political science *Eric Rohmer* Derek

Schilling, 2019-01-04 Few filmmakers have taken the principle of the talking picture so far as Eric Rohmer the internationally renowned director of the Moral Tales Comedies and Proverbs and Tales of the Four Seasons cycles Occasionally dismissed as precious or overly literary Rohmer's features may leave the impression that there is more to listen to than to look at Yet as the secretive director Maurice Scher in 1920 points out dialogue is no less engaging than the best gunfights and if his characters prefer discussing love to making it they are no less the heroes of the stories they tell Charges of political conservatism aside the author of My Night at Maud's Summer and such period films as Perceval and the all digital The Lady and the Duke emerges like Hitchcock before him as a singular inventor of cinematic forms This critical overview which contains an extensive bibliography and a filmography will appeal to students of Film Studies French Studies and enthusiasts

**A Hidden History of Film Style** Christopher Beach, 2015-05-01 The image that appears on the movie screen is the direct and tangible result of the joint efforts of the director and the cinematographer A Hidden History of Film Style is the first study to focus on the collaborations between directors and cinematographers a partnership that has played a crucial role in American cinema since the early years of the silent era Christopher Beach argues that an understanding of the complex

director cinematographer collaboration offers an important model that challenges the pervasive conventional concept of director as auteur Drawing upon oral histories early industry trade journals and other primary materials Beach examines key innovations like deep focus color and digital cinematography and in doing so produces an exceptionally clear history of the craft Through analysis of several key collaborations in American cinema from the silent era to the late twentieth century such as those of D W Griffith and Billy Bitzer William Wyler and Gregg Toland and Alfred Hitchcock and Robert Burks this pivotal book underlines the importance of cinematographers to both the development of cinematic technique and the expression of visual style in film     The Francis Ford Coppola Encyclopedia James M. Welsh, Gene D. Phillips, Rodney F. Hill, 2010-08-27

Francis Ford Coppola's career has spanned five decades from low budget films he produced in the early 1960s to more personal films of recent years Because of the tremendous popular success of *The Godfather* and the tremendous critical success of its sequel Coppola is considered to be one of the best directors of all time The entries in this encyclopedia focus on all aspects of Coppola's work from his early days with producer Roger Corman to his films as the director of the 1970s This extensive reference contains material on all of the films Coppola has played a role in from screenwriter to producer to director including such classics as *Patton* *The Godfather* *The Conversation* *The Godfather Part II* and *Apocalypse Now* Each entry is followed by a bibliography of published sources both in print and online making *The Francis Ford Coppola Encyclopedia* the most comprehensive reference on this director's body of work     *Godfather* Gene D. Phillips, 2014-04-23 This critical biography by the acclaimed film historian is certainly the definitive work on the director behind *The Godfather* and *Apocalypse Now* Publishers Weekly Gene Phillips blends biography studio history and film criticism to complete the most comprehensive work on Coppola ever written The force behind such popular and critically acclaimed films as *Rumble Fish* and the *Godfather* trilogy Coppola has imprinted his distinct style on each of his movies and on the landscape of American popular culture In *Godfather* Phillips argues that Coppola has repeatedly bucked the Hollywood factory system in an attempt to create distinct films that reflect his own artistic vision often to the detriment of his career and finances Phillips conducted interviews with the director and his colleagues and examined Coppola's production journals and screenplays Phillips also reviewed rare copies of Coppola's student films his early excursions into soft core pornography and his less celebrated productions such as *One from the Heart* and *Tucker The Man and His Dream* The result is the definitive assessment of one of Hollywood's most enduring and misunderstood mavericks     **What I Really Want to Do on Set in Hollywood** Brian

**Close Encounters of the Third Kind** Jon Towlson, 2016-09-06 For many Close Encounters of the Third Kind CE3K is not so much a movie as a religious experience On its release in 1977 CE3K virtually redefined the science fiction film shifting it away from spaceships laser guns and bug eyed monsters into a modified form of science fiction that John Wyndham once called logical fantasy What would it be like if extra terrestrials made contact with people on Earth How would it feel Like 2001 A Space Odyssey 1968 Steven Spielberg s primary inspiration CE3K is concerned with mankind s evolution towards the stars towards a state of transcendence But Spielberg s vision hinges not so much on cool scientific intellect being the key to our next stage of evolution as on the necessary development of emotional intelligence To that end we must regain our childlike curiosity for what lies beyond the skies we must recover our capacity to experience wonder Intensity of emotion is inherent to the film s meaning and the aim of this book is to explore this in detail Along the way it delves into the film s production history explores Spielberg s remarkable cinematic realisation of the film including a comparison study of the

three different release versions and considers in detail how CE3K fits into the Spielberg oeuvre The Camera Assistant's Manual David E. **Easy Rider** Lee Hill,2019-07-25 Released in 1969 Easy Rider broke the mold of Hollywood studio production making stars of Peter Fonda Dennis Hopper and Jack Nicholson and launching a new wave of radical and experimental American cinema Easy Rider was one of the crucial films of the late 60s a film that enshrined the ideals of the counterculture but also foresaw the demise of these ideals in the despair and paranoia of a nation rocked by Watergate and the Vietnam War It was a seminal road movie and a massive financial success that spawned endless imitations Few films since have been able to catch its particular blend of innocence and cynicism hope and despair In his meticulously researched book Lee Hill analyzes both the circumstances surrounding the making of Easy Rider and the social and cultural forces that found expression in it Hill persuasively argues that the role of illustrious screenwriter Terry Southern in Easy Rider has been neglected as the exact circumstances of production filming and editing have become lost in mythmaking Referring to little known archival material Hill questions some of the legends that surround Easy Rider

Film Noir James Naremore,2019-02-15 Film noir one of the most intriguing yet difficult to define terms in cinema history is usually associated with a series of darkly seductive Hollywood thrillers from the 1940s and 50s shadowy black and white pictures about private eyes femme fatales outlaw lovers criminal heists corrupt police and doomed or endangered outsiders But as this VSI demonstrates film noir actually predates the 1940s and has never been confined to Hollywood International in scope its various manifestations have spread across generic categories attracted the interest of the world's great directors and continue to appear even today In this Very Short Introduction James Naremore shows how the term film noir originated in in French literary and film criticism and how later uses of the term travelled abroad changing its implications In the process he comments on classic examples of the films and explores important aspects of their history their critical reception

their major literary sources their methods of dealing with censorship and budgets their social and cultural politics their variety of styles and their future in a world of digital media and video streaming

**Designing Sound** Jay Beck, 2016-04-07 The late 1960s and 1970s are widely recognized as a golden age for American film as directors like Francis Ford Coppola George Lucas and Martin Scorsese expanded the Hollywood model with aesthetically innovative works As this groundbreaking new study reveals those filmmakers were blessed with more than just visionary eyes Designing Sound focuses on how those filmmakers also had keen ears that enabled them to perceive new possibilities for cinematic sound design Offering detailed case studies of key films and filmmakers Jay Beck explores how sound design was central to the era s experimentation with new modes of cinematic storytelling He demonstrates how sound was key to many directors signature aesthetics from the overlapping dialogue that contributes to Robert Altman s naturalism to the wordless interludes at the heart of Terrence Malick s lyricism Yet the book also examines sound design as a collaborative process one where certain key directors ceded authority to sound technicians who offered significant creative input Designing Sound provides readers with a fresh take on a much studied era in American film giving a new appreciation of how artistry emerged from a period of rapid industrial and technological change Filled with rich behind the scenes details the book vividly conveys how sound practices developed by 1970s filmmakers changed the course of American cinema
