World Whisky & more: issue 6 ,2024-11-23 It is a joy to report that the magazine has been going now for two years and we also had a fantastic amount of new contributors loads of events and just a very healthy and excellent year We would personally love to thank everyone who helped and contributed and also just read the magazine and also the industry for all the support and for being so receptive and supportive This winter issue is definitely full of reflections including some highlights of the year and some exciting subjects including our big interview questions to some of our friends and many more fascinating topics This winter issue is festive in one way but also full of evergreen content worth reading on a Sunday afternoon or so For us here in the northern hemisphere it s going to be more time for reflection and maybe pouring a dram or two and sitting in front of the fire and reading the magazine than we usually do in the summertime We really hope that you ll enjoy the magazine

Learning on the Shop Floor Bert De Munck,Steven L. Kaplan,Hugo Soly,2007-12-01

Apprenticeship or vocational training is a subject of lively debate Economic historians tend to see apprenticeship as a purely

economic phenomenon as an incomplete contract in need of legal and institutional enforcement mechanisms The contributors to this volume have adopted a broader perspective They regard learning on the shop floor as a complex social and cultural process to be situated in an ever changing historical context The results are surprising The authors convincingly show that research on apprenticeship and learning on the shop floor is intimately associated with migration patterns family economy and household strategies gender perspectives urban identities and general educational and pedagogical contexts Schools Inquiry Commission: Minutes of evidence taken before the commissioners Great Britain. The Bakers of Paris and the Bread Question, 1700-1775 Steven Laurence Kaplan, 1996-06-19 In preindustrial Europe dependence on grain shaped every phase of life from economic development to spiritual expression and the problem of subsistence

dominated the everyday order of things in a merciless and unrelenting way Steven Laurence Kaplan's *The Bakers of Paris and the Bread Question 1700-1775* focuses on the production and distribution of France's most important commodity in the sprawling urban center of eighteenth century Paris where provisioning needs were most acutely felt and most difficult to satisfy Kaplan shows how the relentless demand for bread constructed the pattern of daily life in Paris as decisively and subtly as elaborate protocol governed the social life at Versailles Despite the overpowering salience of bread in public and private life Kaplan's is the first inquiry into the ways bread exercised its vast and significant empire Bread framed dreams as well as nightmares It was the staff of life the medium of communion a topic of common discourse and a mark of tradition as well as transcendence In his exploration of bread's materiality and cultural meaning Kaplan looks at bread's fashioning of identity and examines the conditions of supply and demand in the marketplace He also sets forth a complete history of the bakers and their guild and unmask the methods used by the authorities in their efforts to regulate trade Because the bakers and their bread were central to Parisian daily life Kaplan's study is also a comprehensive meditation on an entire society its government and its capacity to endure Long awaited by French history scholars *The Bakers of Paris and the Bread Question 1700-1775* is a landmark in eighteenth century historiography a book that deeply contextualizes and thus enriches our understanding of one of the most important eras in European history
